Instructions for Schedule D (541)

Capital Gain or Loss

References in these instructions are to the Internal Revenue Code (IRC) as of January 1, 2009, and to the California Revenue and Taxation Code (R&TC).

General Information

In general, for taxable years beginning on or after January 1, 2010, California law conforms to the Internal Revenue Code (IRC) as of January 1, 2009. However, there are continuing differences between California and federal law. When California conforms to federal tax law changes, we do not always adopt all of the changes made at the federal level. For more information, go to ftb.ca.gov and search for **conformity**. Additional information can be found in FTB Pub. 1001, Supplemental Guidelines to California Adjustments, the instructions for California Schedule CA (540 or 540NR), and the Business Entity tax booklets. The instructions provided with California tax forms are a summary of California tax law and are only intended to aid taxpayers in preparing their state income tax returns. We include information that is most useful to the greatest number of taxpayers in the limited space available. It is not possible to include all requirements of the California Revenue and Taxation Code (R&TC) in the tax booklets. Taxpayers should not consider the tax booklets as authoritative law.

A Purpose

Use Schedule D (541), Capital Gain or Loss, to report gains and losses from the sale or exchange of capital assets by an exempt organization, estate, or trust. Generally, California law follows federal law.

To report sales or exchanges of property other than capital assets, including the sale or exchange of property used in a trade or business and involuntary conversions (other than casualties and thefts), get California Schedule D-1, Sales of Business Property.

If property is involuntarily converted because of casualty or theft, complete federal Form 4684, Casualties and Thefts, using California amounts.

California does not have a special capital gain tax rate.

Qualified Small Business Stock

California does not conform to IRC Section 1202.

In *Cutler v. Franchise Tax Board* (2012) 208 Cal App 4th 1247, 146 Cal Rptr. 3d 244, the California Court of Appeal found

that the California qualified small business stock (QSBS) Provisions of R&TC Sections 18038.5 and 18152.5 discriminated against interstate commerce in violation of the Commerce Clause of the United States Constitution. R&TC Sections 18038.5 and 18152.5 provided for a California deferral and exclusion of gain from the sale of QSBS if 80% of the corporation's property and payroll was located in California for substantially all of the taxpayer's holding period of the stock. An unconstitutional statute is invalid and unenforceable. Therefore, the California deferral and exclusion are not available.

B Miscellaneous Information

See the instructions for federal Schedule D (Form 1041), Capital Gains and Losses, for the definition of capital assets.

In computing gross income, no distinction is made between gains and losses allocable to income account and those allocable to corpus account.

C Basis

California law generally follows federal law with respect to basis. In determining the basis of property apply one of the following:

Gift

Generally, use the donor's basis if the transaction results in a gain. Use the lower of the donor's basis or the fair market value (FMV) on the date of the gift if the transaction results in a loss.

Inherited property

Use the FMV at the date of death, unless an alternate valuation date election is made under IRC Section 2032.

For special cases involving property acquired from a decedent before 1987, see former R&TC Sections 18031 through 18033.

The basis of the decedent's one-half of community property is the FMV at date of death. If the decedent's death occurred after December 31, 1986, the basis of the surviving spouse's one-half of community property becomes the FMV on the date of the decedent's death.

Depreciation Methods and Property Expensing

California law has not always conformed to federal law regarding depreciation methods, special credits, or accelerated write offs. Consequently, the recovery period and the basis on which depreciation is calculated may be different from the amounts used for federal purposes.

Before 1987, California law disallowed the use of accelerated cost recovery system (ACRS). California depreciation is calculated in the same manner as in prior years for those assets. The election to expense certain tangible property **does not** apply to estates and trusts.

Figure the original basis using the California law in effect when the asset was acquired, and adjust it according to provisions of California law in effect. For more information get form FTB 3885F, Depreciation and Amortization, and FTB Pub. 1001, or refer to the R&TC.
