Individual Estimated Income Tax

North Carolina Department of Revenue

Instructions

Estimated Income Tax is the amount of income tax you expect to owe for the year after subtracting the amount of tax you expect to have withheld and the amount of any tax credits you plan to claim.

Who Must Make Estimated Income Tax Payments

You should make estimated income tax payments if the tax due on your individual tax return, reduced by the amount of tax withheld and tax credits, will be \$1,000 or more.

You should estimate your income tax carefully to avoid having to pay a large balance when you file your income tax return (Form D-400) and to avoid owing interest for underpayment of estimated income tax (see discussion on Interest for Failure to Pay Your Estimated Income Tax).

When To Pay Your Estimated Income Tax

Generally you must make your first estimated income tax payment by April 15. You must either pay all of your estimated income tax at that time or pay in four equal amounts on or before April 15, June 15, September 15 and January 15 of the following year.

Although a payment of estimated income tax may not be due on April 15 based on your situation at that time, your expected income or deductions and tax credits may change so that a payment is due at a later date.

If requirement is met after: Payment date is:

- April 1 and before June 1 June 15
-June 1 and before September 1 September 15
-September 1 January 15

If the first estimated income tax payment you are required to make is due after April 15, or if you are required to change your payments after paying the first installment, you should pay the remaining installments as follows:

If the installment is due-

- June 15: pay 1/2 of the balance of the net estimated income tax at that time, 1/4 of the balance on September 15 and the remaining 1/4 on January 15.
September 15: pay 3/4 of the balance of the net estimated income tax at that time and the remaining 1/4 on January 15.

If you file your income tax return (Form D-400) by January 31 of the following year and pay the entire balance due, you do not have to make the payment which would otherwise be due on January 15.

Farmers and Fishermen

If at least two-thirds of your estimated gross income is from farming (including oyster farming) or commercial fishing, your estimated income tax may be paid at any time on or before January 15 of the following year.

Fiscal Year

If your income is reported on a fiscal year basis, your due dates are the 15th day of the 4th, 6th and 9th months of your fiscal year, and the first month of the following fiscal year.

Interest for Failure to Pay Your Estimated Income Tax

You may owe interest for underpayment of estimated income tax or for not making payments on time. Interest will not be due if each installment payment is timely and equals twenty-five percent (25%) of the lesser of: (a) 90% (66 2/3% for farmers and fishermen) of the tax due on your current year's return; (b) 100% of the tax due on your previous year's return, if your previous year's return was a taxable year of 12 months and a return was filed for that year; or (c) 90% of the tax figured by annualizing the taxable income received during the year up to the month in which the installment is due.

Underpayment interest will not be due if you had no tax liability for the previous year.

Compute underpayment interest on Form D-422, Underpayment of Estimated Tax by Individuals. You may obtain the form by writing the N.C. Department of Revenue, Post Office Box 25000, Raleigh, North Carolina 27640-0001, by calling the Department at 1-877-252-3052 (toll-free), or from the Department's website at www.dornrc.com.
