SEVERANCE PAY										
Severance Pay is payment for the cancellation (involuntary separation) of an employee's employment contract by the employer. Severance pay can be paid in a lump sum or in payments over a period of time.										
Severance Pay is taxable in the year it is received and must be included in your gross income. It is based on the total service time rendered to the employer. If your total service time for the employer in previous calendar years was conducted in more than one state, your severance pay may be prorated. If in previous years you were not assigned to work outside the State of Delaware by your employer, Schedule W does not apply and you cannot prorate your severance pay. Employer verification must be submitted to prorate your severance pay.										
<b>Example 1:</b> If John White worked for XYZ Company for 10 years - 5 years in Maryland and 5 years in Delaware - then only 50% of his severance pay would be included as Delaware Source Income. <b>Example 2:</b> If John White was a non-resident of Delaware, had worked for a Delaware employer and filed his previous years' returns using a Schedule W to determine the portion of his wages that were Delaware source income, John White may be eligible to prorate his severance pay. If your situation is similar to Example 2, please contact the Division of Revenue at (302) 577-8200 to discuss the rules specific to your situation with one of our representatives.
