35. Carryover to 2011. Add lines 33 and 34. Carry the amount to Form 49, Part 1, line 5															

Instructions for Idaho Form 49C

GENERAL INSTRUCTIONS

Complete this form if an investment tax credit (ITC) carryover is included in the current year's available credit. Once the Form 49C is completed, the carryover will be carried to Form 49.

Carryover Period

ITC earned in tax years beginning on or after January 1, 2000, can be carried forward up to 14 succeeding tax years. Credit earned in tax years beginning before 2000 can also be carried forward up to 14 tax years if the 7 year carryover allowed for these years didn't expire before the first tax year beginning in 2000. For purposes of the carryover period, a short tax year counts as one tax year.

Application of Credit — Situs Required

The oldest available credit must be used before credit earned in the current year is used. Credit carryover may be claimed in a later year only if the carryover is for credit on qualified property that still has an Idaho situs. Property has a situs in Idaho if it is used in Idaho at any time during the tax year.

Property that is no longer used in the business or used in Idaho during a tax year doesn't have a situs in Idaho in that tax year or in any later tax year. The credit from this property must either be recaptured or removed from the carryover.

Unitary Taxpayers

Credit carried forward may be claimed by any member of a unitary combined group of corporations as long as the member who earned the credit is still in the combined group for the year the credit is being claimed.

Conversion of a C Corporation to S Corporation

An investment tax credit carryover earned by a C corporation that has converted to an S corporation is allowed against the S corporation's tax on net recognized built-in gains and excess net passive income. The credit is not allowed against the tax paid by an S corporation for nonresident shareholders. A separate Form 49C should be used to account for this credit carryover.

Use of Other Schedules

If this form does not allow you to properly reflect the application of carryovers and recapture, you may provide the information on a separate schedule.

SPECIFIC INSTRUCTIONS

Line 1. For each year, enter the credit earned that tax year. Don't include any carryover amounts.

Lines 2, 4, 6, 8, 10, 12, 14, 16, 18, 20, 22, 24, 26, and 28.

For each year, enter the amount of credit allowed against tax, the amount of credit you earned that was shared with another member of the unitary group, and the amount of credit that passed through to an owner or beneficiary.

Lines 3, 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 27, 29, and 30.

For each year, enter the total of the following amounts:

- Credit recaptured. The credit must be recomputed if you disposed of the property before the end of the five-year recapture period. This includes 100% of the credit for property used less than a full year.
- Credit eliminated. The credit computed on property that was used more than five years in Idaho, but is no longer used in the business or located in Idaho, must be removed from the carryover amount.
