INSTRUCTIONS FOR SCHEDULE BIO

The biodiesel tax credit is applied against the individual income tax imposed by KRS 141.020, the corporation income tax imposed by KRS 141.040 and/or the limited liability entity tax (LLET) imposed by KRS 141.0401. The amount of tax credit claimed against the corporation income tax and LLET can be different.

Purpose of Schedule—The application and credit certification schedule is to report the number of gallons of biodiesel produced and/or B100 blended and renewable diesel produced in this state meeting the current ASTM standards. Re-blending of blended biodiesel does not qualify for this credit. The Department of Revenue will certify the amount of biodiesel credit for each taxpayer. It is effective for biodiesel produced and/or blended and renewable diesel produced on or after January 1, 2008. The taxpayer is not entitled to the credit for biodiesel produced and/or blended and renewable diesel produced in another state.

The credit rate is \$1 per gallon with a total cap for all taxpayers not to exceed \$10,000,000 annually. There is no carryforward for any unused credit.

To ensure proper processing, fax or email Schedule BIO to the Department of Revenue no later than January 15 following the close of the preceding calendar year. Schedules postmarked or sent after January 15 are void. Credit certification cannot be guaranteed for schedules sent through regular mail.

The Department of Revenue will confirm the receipt of the application. If you do not receive confirmation within two weeks of submitting the application, contact the Division of Corporation Tax at (502) 564-8139.

The Department of Revenue will issue the credit certificate, listing the amount of credit available, by April 15 following the close of the preceding calendar year. Attach the credit certificate to the tax return claiming the credit.

General Instructions—For the calendar year, enter the applicable year.

Check the appropriate entity type. If taxed as an entity type other than corporation, limited liability pass-through entity, general partnership or individual, check the "Other" box and list the entity type.

Federal Identification Number—For an individual, enter the Social Security number; for a general partnership, estate or trust, enter the FEIN.

Testing—The regulation 103 KAR 15:140 provides that a copy of the laboratory results for July 1 and December 31 of each calendar year shall be attached to the application, Schedule BIO, submitted to the Department of Revenue. Failure to provide proof of meeting the ASTM standard on July 1 and December 31 of each calendar year with the application shall result in the denial of the credit for gallons of biodiesel or renewable diesel back to the previous testing date of July 1 or December 31.

Part I—Gallons Produced and/or Blended in Kentucky During the Calendar Year

Line 1—Enter the number of gallons of B100 biodiesel produced in this state for the calendar year.

Line 2—Enter the number of gallons of B100 biodiesel used in the blended biodiesel produced in this state for the calendar year. Re-blending of blended biodiesel does not qualify for this credit.

Line 3—Enter the number of gallons of renewable diesel produced in this state for the calendar year.

Part II and Part III

These parts are completed by the Department of Revenue to determine the biodiesel credit for each taxpayer. Part III is used if the total amount of approved credit for all biodiesel producers and blenders and renewable diesel producers exceeds the annual biodiesel tax credit cap.

Part II—Biodiesel Gallons Approved

Line 1—This is the amount of biodiesel and renewable diesel gallons approved by the Department of Revenue for credit. If the approved credit exceeds the biodiesel tax credit cap, then the credit is determined by the department in Part III. It is a nonrefundable credit.

If the biodiesel producer or blender or renewable diesel producer is a pass-through entity, report the pro rata share of the approved credit on Schedule(s) K-1. In the case of an entity that has a fiscal year end, the approved credit shall be claimed on the return filed for the first fiscal year ending after the close of the preceding calendar year.

Part III—Biodiesel Approved Credit Certificate

The Department of Revenue determines the total approved credit. If it exceeds the biodiesel tax credit cap of \$10,000,000, the department will compute each taxpayer's approved credit based upon a fraction the numerator (Line 1(a)) being the credit approved for the taxpayer and the denominator (Line 1(b)) being the total credit approved for all taxpayers. The biodiesel tax credit cap is multiplied by this fraction to determine each producer's and/or blender's approved credit.

Part IV—Biodiesel Credit Used By Taxpayer

Line 1—Enter the amount of credit claimed for the taxable year against the LLET on Schedule TCS, Part II, Column E. The credit amount cannot reduce the LLET below the \$175 minimum.

Line 2—Enter the amount of credit claimed for the taxable year against the corporation income tax on Schedule TCS, Part II, Column F.

Line 3—Enter the amount of credit claimed for the taxable year on Form 740, 740-NP or 741.
