Special Instructions for Unitary Business Groups

Credits are earned and calculated on either an entity-specific or a group basis, as determined by relevant statutory provisions for the respective credits. Inter-company transactions are not eliminated for the calculation of most credits. Credits earned or calculated on either an entity-specific or group basis by Unitary Business Group (UBG) members are generally applied against the tax liability of the UBG, unless otherwise specified by statute or these instructions.

Entity-specific provisions are applied on a member-by-member basis. In none of these cases does a taxpayer that is a UBG take the organization type of its parent, Designated Member (DM), or any member of the UBG. A UBG taxpayer will not be attributed an organization type based on the composition of its members.

If any member of the UBG is eligible for an entity-specific credit, a statement must be attached to the form identifying the eligible member and any information requested for the credit. If more than one member is eligible, requested information should be provided in the statement on a per member basis. The total amount from all eligible members will be entered on each corresponding line on this form. Line-by-line instructions indicate credits requiring entity-specific information.

Line-by-Line Instructions

Lines not listed here are explained on the form.

NOTE: Although qualification for certain credits is reviewed and approved by MEGA, in many cases the certificates for such credits are issued by the Michigan Economic Development Corporation (MEDC).

The number of years for which the credit may be claimed under MBT will be equal to the maximum number of years designated in the resolution reduced by the number of years for which a credit has been claimed or could have been claimed under SBT.

A taxpayer that claimed a credit under either SBT or MBT that had an agreement with MEGA based on qualified new jobs as defined in the MEGA Act, and that removes 51 percent or more of those qualified new jobs from Michigan within three years after the first year in which the taxpayer claimed a credit, must pay back an amount equal to the total of all credits claimed no later than 12 months after those qualified new jobs are removed from Michigan. Recapture is reported on Form 4587.

The credit generally must be taken in equal installments over a two-year period beginning in the tax year in which the certificate is issued. A taxpayer may make an irrevocable assignment of all or a portion of the credit or may convey the right to the assignment on a form provided by MEGA, which will then issue assignment certificates to the assignee(s).

A taxpayer or assignee that claims a credit and subsequently fails to meet the requirements of the act or any other conditions established by MEGA in the agreement may, as determined by MEGA, have its credit reduced or terminated or have a percentage of the credit previously claimed added back to the tax liability of the taxpayer in the tax year that the taxpayer or assignee fails to comply. Beginning on and after April 8, 2008, if this credit for the tax year exceeds the qualified taxpayer's tax liability for that tax year, the qualified taxpayer can elect to have the excess refunded at the rate of 85 percent of the excess for the tax year and forgo the remaining 15 percent of the credit and any carryforward.
