**APPLICATION FOR VETERAN EMPLOYMENT TAX CREDIT  
INSTRUCTIONS**

**ABOUT THIS TAX CREDIT:**

For tax years beginning on or after January 1, 2012, but not after December 31, 2016, a taxpayer who employs a qualified military veteran, for at least 40 hours per week, in New Mexico is eligible for a credit against the taxpayer's personal or corporate income tax liability for up to \$1,000 for wages paid to each qualified military veteran. If the veteran's qualified period of employment is less than a full year, the credit for that year is reduced based on the ratio of the qualified period of employment over the full tax year of the employer.

- An employer may not receive the credit for any individual qualified military veteran for more than one calendar year from the date of hire.
- Multiple employers may not receive a credit for more than one year combined for the same qualified military veteran.
- Only one employer may receive the credit for a specific veteran during a tax year.
- The date of discharge may not exceed two years from the date the employer hired the military veteran.
- The veteran employment tax credit is only allowed for the employment of a veteran who was not previously employed by the taxpayer prior to the individual's deployment.

That portion of a veteran employment tax credit approved by Taxation and Revenue Department (TRD) that exceeds a taxpayer's income tax liability in the tax year in which the veteran employment tax credit is claimed may not be refunded to the taxpayer, but may be carried forward for up to three years. The veteran employment tax credit may not be transferred to another taxpayer.

A husband and wife filing separate returns for a tax year for which they could have filed a joint return, each may claim only one-half of the veteran employment tax credit that would have been claimed on a joint return. An owner, member or partner (owners) may be allocated the right to claim a veteran employment tax credit in proportion to its ownership interest if the taxpayer owns an interest in a business entity that is taxed for federal income tax purposes as a partnership. To allocate the credit to the owners of the business entity qualifying for the credit, complete Part II. The total credit that may be claimed by all members of the partnership or other business entity shall not exceed the allowable credit approved.

**ATTACHMENTS:**

The taxpayer must provide a copy of the qualified military veteran's DD Form 214, *Certificate of Release or Discharge from Active Duty*, or other evidence acceptable to the Department. The document must show the date the military veteran was honorably discharged from a branch of the United States military. Evidence other than the qualified military veteran's DD Form 214, should be approved through the Department before submitting the application. - Failure to properly complete the application and submit any required documents may result in a denial of the credit.
- Once a qualified military veteran is approved on an application for a tax year, any credit requested by another employer for the same military veteran on subsequent applications for the same tax year will be denied.
- Applications will be processed in the order in which they are received.
- When the period of employment, beginning from the date of hire through the first year, crosses two tax years, one application for each tax year for the same qualified military veteran may be approved.
- For multiple claims received for the same qualified military veteran, the dates of employment will be compared to ensure that a credit is allowed for only one full year of employment.
