* The following applies to part-year and nonresident taxpayers that will be filing on the Form 511 NR. Lines 1 through 5 shall be calculated as if all income were earned in Oklahoma. Using the amount from line 5, calculate the tax; this is the base tax and will be prorated for line 6. To calculate line 6, first estimate your income from Oklahoma sources. Divide your income from Oklahoma sources by the amount on line 1. Multiply this percentage by the base tax and enter the result on line 6. This is your estimated Oklahoma tax liability. Complete the remainder of the worksheet as directed.

The Oklahoma Tax Commission is not required to give actual notice of changes in any state tax law.
