Method of Reporting

Report all amounts in U.S. dollars. If it is necessary to convert from foreign currency, attach a statement explaining how the rate was determined.

Specific Instructions**Part I**

See section 907(c) and underlying regulations for rules on the income to include in Part I.

Note. Do not include any dividend or interest income that is passive income. See the Instructions for Form 1118 for the definition of passive income.

Column 1. Enter the two-letter codes (from the list at www.irs.gov/countrycodes) of all foreign countries and U.S. possessions within which income is sourced and/or to which taxes were paid, accrued, or deemed paid. For section 863(b) income, enter "863(b)" instead of a two-letter code.

Column 2. Enter gross income from sources outside the United States and its possessions from the following:

- The extraction (by the corporation or any other person) of minerals from oil or gas wells located outside the United States and its possessions.
- The sale or exchange of assets used in the trade or business of extracting minerals from oil or gas wells located outside the United States and its possessions.

See section 907(c)(1).

Column 3. Enter gross income from sources outside the United States and its possessions from the following:

- The processing of minerals extracted (by the corporation or any other person) from oil or gas wells into their primary products.
- The transportation of such minerals or primary products.
- The distribution or sale of such minerals or primary products.
- The disposition of assets used in the trade or business described in the three previous bulleted items.
- The performance of any other related service.

See section 907(c)(2).

Column 4. Enter dividends (including section 78 gross-up) from a foreign corporation on which taxes are deemed paid under section 902 only if the dividends are paid out of foreign oil and gas extraction income or foreign oil related income of the distributing corporation and are not passive income. Dividends from foreign corporations for which the corporation is not entitled to compute a deemed paid credit are passive income and are not included in Part I.

Column 5. Enter amounts taxable under section 951(a) (including section 78 gross-up) that are attributable to the controlled foreign corporation's combined foreign oil and gas income.

Column 6. Include the corporation's distributive share of partnership combined foreign oil and gas income. Also include in column 6 interest income paid by a foreign corporation on which taxes are deemed paid under section 902, to the extent it is paid out of foreign oil related income. However, do not include interest income paid by a foreign subsidiary out of foreign oil and gas extraction income of the payor, even if it is not passive income.

See section 907(c)(3).

Column 11. For each country, subtract column 10 from column 7 and enter the result in column 11. When totaling the column 11 amounts, note that a taxable loss from a foreign country offsets taxable income from other countries.

Columns 12 and 13. Attach a schedule to show how the foreign taxes paid, accrued, or deemed paid with respect to combined foreign oil and gas income were figured.

Part II

Line 1. Enter the total from Part I, column 11, minus any recapture described in section 907(c)(4).

Line 2. At the time this schedule went to print, the highest rate of tax specified under section 11(b) was 35%.

Part III

Line 2. Enter the sum of any carryover of foreign oil and gas tax to the current year. Attach a schedule showing the computation in detail. Corporations are encouraged to attach a schedule that is similar to Schedule K (Form 1118), which is used to report a running balance of the corporation's section 904(c) carryovers. If this approach is taken, the amount to be entered on line 2 is the amount that corresponds to Schedule K (Form 1118), line 3, column (xiv). Please note that special rules apply to the carryback and carryover of foreign taxes paid or accrued on combined foreign oil and gas income and related taxes. For example, in applying foreign tax carryovers from prior tax years, in the case of any tax year that is an unused credit year (as defined in section 907(f)) under each of sections 907(f) and 904(c), the provisions of section 907(f) are to be applied before section 904(c). See section 907(f) and Regulations section 1.907(f)-1 for additional information.
