Electronic Filing Requirement

State revenue departments across the country have found that electronic filing (Efile) of tax return information is the fastest, most accurate and safest method of data capture. For these reasons, the Massachusetts Department of Revenue (DOR) has mandated Efile for certain tax practitioners. Technical Information Release 11-13 requires any tax practitioner who prepared more than 10 personal income tax returns on behalf of clients during calendar year 2012 to submit all prepared personal income tax returns electronically in the current tax year unless the taxpayer directs that the return be filed on paper.

Declaration and Taxpayer Signature

My tax practitioner has explained to me that he/she is mandated to file Massachusetts income tax returns electronically unless I choose to file a paper return. I authorize the filing of a paper return with my signature below. I understand that the average turnaround time for paper processing is significantly longer than the three day average associated with Efile.
