Instructions for Form 4947

Schedule of Certificated Credits

Purpose

To allow qualified taxpayers that elect to file Michigan Business Tax (MBT) for tax years ending after 2011 to identify their certificated credits and recapture of certain tax credits. These amounts will be used in calculating the pro forma Corporate Income Tax (CIT) liability on the *Schedule of CIT Liability for a MBT Filer* (Form 4946), which is a required element in calculating MBT liability for tax years ending after 2011.

NOTE: Only a limited number of credits and recaptures listed on this form apply to financial institutions or insurance companies. Credits and recaptures applicable to financial institutions are identified in the instructions of the forms from which figures on this form originate. A credit or recapture should not be reported on Form 4947 if it is not reported on one of the following forms:

- *Nonrefundable Credits Summary* (Form 4568)
- *Credits for Compensation, Investment, and Research and Development* (Form 4570)
- *Miscellaneous Nonrefundable Credits* (Form 4573)
- *Refundable Credits* (Form 4574)
- *Investment Tax Credit Recapture From Sale of Assets Acquired Under Single Business Tax* (Form 4585)
- *Schedule of Recapture of Certain Business Tax Credits* (Form 4587)
- *Renaissance Zone Credit Schedule* (Form 4595).

NOTE for Insurance Companies: Insurance Companies calculate certificated credits separately on the *Miscellaneous Credits for Insurance Companies* (Form 4596) and the *Schedule of Corporate Income Tax Liability for a Michigan Business Tax Insurance Filer* (Form 4974).

Line-by-Line Instructions

Lines not listed are explained on the form.

Calculation of MBT ITC Credit Recapture Amount

Calculation of MBT ITC Credit Recapture Bases

For each category of asset disposed (or moved out of Michigan) that triggers an MBT ITC credit recapture, enter the information requested below.

In each category of disposed/moved asset, group assets by taxable year in which they were acquired. All events that have varying dates must be listed separately. Multiple dispositions (or transfers) may be combined as one entry, subject to the following: all combined events must satisfy the terms of the table in which they are entered. "Taxable Year in which disposed assets were acquired" must be the same for all events combined on a single line.

UBGs: If capital asset subject to recapture is from a member that was not part of the group in the tax year the asset was acquired, make a separate line entry for the tax year the member filed outside of the group. Take care to report in this line information requested in each column only from the member's single filings, not the group's.

NOTE: A sale of qualifying property reported on the installment method for federal income tax purposes causes a recapture based upon the entire sale price in the year of the sale. The recapture is reduced by any gain reported in federal taxable income (as defined for MBT purposes) in the year of the sale. The gain attributable to the installment sale that is reported in subsequent years increases the credit base (or reduces other sources of recapture) for those years, and must be reported on column C of the appropriate Worksheet based on the type of asset. For property placed in service prior to January 1, 2008,

gain reflected in federal taxable income (as defined for MBT purposes) is equal to the gain reported for federal purposes.

UBGs: The recapture of capital investments for UBGs is calculated on combined assets of standard members of the UBG. Assets transferred between members of the group are not a capital investment in qualifying assets for purposes of calculating this credit or its recapture. Disposing of or transferring an asset outside of the UBG triggers recapture. Also, moving an asset outside of Michigan creates recapture, even if the transfer is to a member of the UBG.

Worksheet 1a — Depreciable Tangible Assets

Enter all dispositions of depreciable tangible assets located in Michigan that were acquired or moved into Michigan after acquisition in a tax year beginning after 2007 and were sold or otherwise disposed of during the current filing period. Give all information required for each disposition in columns A through F. In column A, enter the taxable year in which the disposed assets were acquired. Enter combined gross sales price (net of costs of sale) in column B, and in column C, enter total gain or loss included in calculating federal taxable income (as defined for MBT purposes).

NOTE: Sales price includes any benefit derived from the sale.

Worksheet 1b — Depreciable Mobile Tangible Assets

Enter all dispositions of depreciable mobile tangible assets that were acquired after 2007 and were sold or otherwise disposed of during the current filing period. Give all information required for each disposition in columns A through F. In column A, enter

Worksheet 1c — Assets Transferred Outside Michigan

the taxable year in which the disposed assets were acquired. Enter gross sales price (net of costs of sale) in column B, and in column C, enter total gain or loss included in calculating federal taxable income (as defined for MBT purposes).

For property placed in service prior to January 1, 2008, gain reflected in federal taxable income (as defined for MBT purposes) is equal to the gain reported for federal purposes.

For property placed in service after December 31, 2007, gain reflected in federal taxable income (as defined for MBT purposes) is the gain reported federally except that it shall be calculated as if IRC § 168(k) were not in effect.

NOTE: Sales price includes any benefit derived from the sale.

Worksheet 1c — Assets Transferred Outside Michigan

Enter all depreciable tangible assets other than mobile tangible assets acquired after 2007 that were eligible for ITC and were transferred outside Michigan during the filing period. Give all information required for each disposition in column A and column B. In column A, enter the taxable year in which the disposed assets were acquired, and in column B, enter adjusted basis as used for federal purposes. Do not use a recomputed MBT basis for this purpose.

Calculation of MBT ITC Recapture Rates and Amounts

Complete Worksheet 2 (on the following page), entering each taxable year (End Date) in which the disposed assets that triggered MBT ITC credit recapture were acquired.

NOTE: Lines references on columns below are based on 2010 MBT form 4570. Lines for 2008 MBT forms are different, so if copying information from a 2008 MBT form, choose the appropriate lines.

Worksheet 2

- Column A: Enter in chronological order, beginning with the earliest, the tax year end date of each acquisition year of disposed assets that triggered MBT ITC recapture from Worksheet 1a through 1c.

UBGs: If capital asset subject to recapture is from a member that was not part of the group in the tax year the asset was acquired, make a separate line entry for the tax year the member filed outside of the group. Take care to report in this line information requested in each column only from the member's single filings, not the group's.

- Column B: Enter allowable MI compensation and ITC credits amount from Form 4570, line 26 with the corresponding acquisition year in column A.
- Column C: Enter the MI compensation credit amount from Form 4570, line 3 with the corresponding acquisition year in column A.
- Column D: Calculate net ITC credit amount: subtract column C from column B for each taxable year. If difference is less than zero (is negative), enter zero. This is the amount of ITC credit that offsets MBT liability.
- Column F: MBT capital investment amount. Enter total amount of capital investment reported on Form 4570, line 8 for each taxable year listed on column E.
- Column G: ITC rate. Enter 2.32% for taxable years on column E that end with 2008, otherwise enter 2.9%.
- Column H: Calculate gross IC credit amount: multiply column F by column G for each taxable year.
- Column J: MBT recapture of capital investment. Enter total amount of recapture of capital investment reported on form 4570, line 16, for each taxable year listed on column I.
- Column L: Gross MBT ITC credit recapture amount.

Multiply column J by column K. This represents the total amount of ITC credit recapture available to be reported in the tax year.

- Column M: MBT ITC credit recapture amount offset by credit. Enter the lesser of columns H and L. This is the amount of available ITC credit recapture that was offset by the total amount of available ITC credit in the year.
- Column O: SBT credit recapture amount. Enter total amount from Form 4570, line 19 for each taxable year listed on column N.
- Column P: SBT ITC credit recapture amount offset by credit. Enter lesser of the amount on column O, and the amount of column H minus column M. This is the amount of SBT ITC credit recapture that was offset by the total amount of available ITC credit in the taxable year.
- Column Q: Total MBT ITC used. Add columns D, M, and P. The total amount of MBT ITC used equals to the amount of credit that offsets MBT ITC credit recapture, SBT ITC credit recapture, and the MBT liability.
- Column R: Extent used rate. Divide amounts on column Q by amounts on column H.
- Column T: MBT recapture base. Enter total amount of recapture capital investment from Worksheet 1a, column F; Worksheet 1b, column F and Worksheet 1c, column B.
- Column U: MBT recapture amount. Multiply amount in column T by rates in column G, and in column R.

Add up figures in each row of column U, and carry that amount to Form 4947, line 12.
