Form ESW Instructions

What is the purpose of Form ESW?

The purpose of this form is to assist you in calculating your 2014 estimated individual income tax. Estimated tax payments are a method used to pay tax on income that is not subject to withholding. Examples of income that may not be subject to withholding include self-employment, interest, dividends, rents, capital gains, alimony, and royalties.

Am I required to make estimated tax payments in 2014?

You are required to make estimated tax payments in 2014 if you expect to owe an income tax liability of at least \$500 after subtracting tax credits and withholding payments.

If you are required to make estimated tax payments, these payments will be the lesser of:

- 100% of your 2013 Montana tax liability reported on Form 2, line 54; Form 2M, line 47; or Form 2EZ, line 15; or
- 90% of your 2014 Montana income tax due.

Who is not required to make estimated tax payments?

You are not required to make estimated tax payments in 2014 if you meet one of the following criteria:

- Your 2014 income tax due after credits and withholding is less than \$500,
- Your 2013 tax period covered 12 months and your Montana tax liability was zero,
- You were not required to file a 2013 Montana income tax return,
- In 2014 you retired and were at least 62 years of age (This exception applies only in the year you retire and for one additional year following the year of retirement),
- You became disabled in 2013 or 2014, or
- At least 2/3 of your gross income is derived from farming and ranching operations. (Montana does not apply a "lookback" provision in determining farming and ranching gross income).

When are my estimated tax payments due?

When you file your return on a calendar year basis, you may prepay all of your estimated taxes for 2014 by April 15, 2014, or you may pay them in four equal amounts that are due on the dates listed below.

First payment	-	due April 15, 2014
Second payment	-	due June 15, 2014
Third payment	-	due Sept 15, 2014
Fourth payment	-	due Jan 15, 2015

If any of these dates fall on a weekend or a holiday, your payment is due on the next business day.

If you file your return on a fiscal year basis, your payment dates are the 15th day of the fourth, sixth, and ninth months of the fiscal year and the first month of the following fiscal year.

I completed my estimated income tax worksheet at the beginning of the year and did not anticipate a change in my income throughout the year. What do I need to do if my income situation changes during the year?

If your tax situation changes during the year, you will need to recalculate your estimated tax payments. Your remaining installment payments will need to be proportionally changed so that the balance of your estimated payments is paid equally over the remaining installment periods.

How can I determine the amount of my estimated withholding that I will have in 2014?

You can use your 2014 paycheck or pension check stubs that you have received to date to estimate the amount of withholding that you may have in 2014.

In addition, remember to include in your payments any 2013 overpayments that are credited to 2014, any backup withholding that may be made on your behalf from a pass-through entity, or any estimated refundable credits, such as the elderly homeowner/renter credit.

I am a nonresident or part-year resident of Montana. Do I have to make estimated tax payments?

As a nonresident or a part-year resident, you do not need to pay estimated taxes if you were not required to file a Montana individual income tax return for the previous tax year. If you were required to file a Montana tax return in the previous tax year, you are required to make estimated tax payments if you expect to owe at least \$500 in Montana income tax after subtracting your Montana withholding paid and credits that you are entitled to.

I did not make estimated tax payments in 2014 and my income tax due is more than \$500. Am I subject to any penalties or interest on my underpayment?

Yes, you are. You are required to pay your income tax liability throughout the year. You can make your payments through employer withholding, installment payments of estimated taxes, or a combination of employer withholding and estimated tax payments.

If you did not pay in advance at least 90% of your 2014 income tax liability (after applying your credits) or 100% of your 2013 income tax liability (after applying your credits), you may have to pay interest on the underpayment of your estimated tax.

How can I make estimated tax payments?

You can make estimated tax payments using the individual income tax payment voucher available at revenue.mt.gov under Forms & Resources. You may also make estimated tax payments online by visiting revenue.mt.gov under Online Services.
