W-2 Reconciliation Worksheet PA-40 W-2 RW (04-06)

OVERVIEW

Use the PA-40 W-2 RW in situations where: 1) Federal Form W-2 information is incomplete for determining the correct amount of Pennsylvania taxable compensation, 2) Medicare wages are different from Pennsylvania wages and insufficient W-2 coding is present to explain the differences, or 3) to show amounts of any previously taxed Non-Qualified Deferred Compensation. Examples include instances where the employer fails to show on the W-2 the amount of S corporation owner health benefits or personal use of company auto included in Federal and Medicare wages that are not included in Pennsylvania wages.

The W-2 RW is arranged in a three column format. The first column is used to reconcile your Federal wages to Medicare wages. The second column is used to reconcile your Federal wages to Pennsylvania wages, and the third is to reconcile Medicare wages to Pennsylvania wages.
