#### **INSTRUCTIONS**

General Information: Estimated income tax is the amount of Vermont tax you expect to owe for the year on income that is not subject to withholding (for example: earnings from self-employment, interest, dividends, rental income, alimony, etc.), or exceeding withholdings, plus any additions. Additions to VT tax may include:

- Qualified Retirement Plans (including IRA, HSA & MSA)
- Recapture of Federal Investment Tax Credit
- VT Tax Credit Recapture

Who Must Make Estimated Income Tax Payments? Generally, you must pay estimated income tax if you expect to owe an income tax liability or have income not subject to withholding such as self-employment earnings. Individuals receiving two-thirds of his or her income from farming or fishing, as defined by the IRS, are not required to make estimated income tax payments.

How Do I Determine My Estimated Tax Liability? Please use your 2013 tax liability or use the worksheet included with this form to estimate your 2014 tax liability. In order to avoid underpayment of estimated tax, which may result in penalty and interest charges, estimated tax payments must either be: 1) equal to 100% of last year's tax liability OR 2) 90% of this year's tax liability. If the tax liability due is less than \$500, you will not be subject to penalty or interest charges.

When Are Estimated Income Tax Payments Due? Estimated income tax payments are made in four equal amounts by the due dates shown below:

1 <sup>st</sup> payment	. April 15, 2014
2 <sup>nd</sup> payment	. June 15, 2014
3 <sup>rd</sup> payment	. September 15, 2014
4 <sup>th</sup> payment	January 15, 2015

Can I File Annualized Estimated Payments for Vermont? Individuals who make annualized estimated tax payments with the IRS may also make annualized estimated payments in Vermont. If you make annualized payments, please attach a completed copy of Federal Form 2210 and VT Form IN-152A when you file your Vermont income tax return.
