E. Supplemental Information.			

Instructions for Idaho Form ID K-1

GENERAL INSTRUCTIONS

Form ID K-1 is used to provide the partner, shareholder, or beneficiary of a pass-through entity (entity) with information required to complete the pass-through owner's (owner's) Idaho income tax return. Form ID K-1 isn't intended to be a substitute for the federal Schedule K-1. The information reported on the Form ID K-1 relates to Idaho law and identifies Idaho adjustments, allocation and apportionment amounts, credits, and recapture amounts. Items that are included on federal Schedule K-1, such as the Section 179 deduction, aren't shown on the ID K-1 as most amounts required on the Form ID K-1 aren't found on the federal Schedule K-1.

A copy of each owner's federal Schedule K-1 and Form ID K-1 must be included with the entity's Idaho tax return filed by:

- Every partnership or S corporation transacting business in Idaho
- Every estate or trust required to file an Idaho income tax return

A copy of the Form ID K-1 must be provided to each owner. If the entity has withheld income tax, the owner should include Form ID K-1 with his income tax return; otherwise, the owner should keep it for his records.

Reporting of Pass-Through Items by Individual Owners

Idaho part-year resident and nonresident individuals need to modify the amounts reported on the Form ID K-1 before entering them on their Idaho individual income tax returns. A nonresident uses the Idaho apportionment factor to determine how much of his share of income and deduction from the entity is from an Idaho source. A part-year resident is considered to have earned the income from an entity ratably during the tax year. For the portion of the year that the owner was a nonresident, he will use the Idaho apportionment factor to determine how much of his share of income and deductions considered earned during that time is from an Idaho source. For the portion of the year he is a resident of Idaho, he must report all the Idaho income and deductions considered earned during that portion of the year.

A resident of Idaho will be taxed by Idaho on his entire share of the income from the entity even if the income is apportioned between Idaho and other states.

Qualified Investment Partnerships

Special rules apply to an owner who is a nonresident individual when the entity is a qualified investment partnership under Idaho law. A qualified investment partnership is an entity that is classified as a partnership for federal income tax purposes and isn't a publicly traded partnership taxed as a corporation, and has at least 90% of its gross income from investments whose income wouldn't be taxed by Idaho if received directly by a nonresident individual. Noninvestment income from an Idaho source is subject to Idaho tax. If the entity is a qualified investment partnership, include a statement on Form ID K-1, Part E, Supplemental Information that the entity is a qualified investment partnership and that a nonresident may not be taxed on certain investment income.

SPECIFIC INSTRUCTIONS

All amounts on the Form ID K-1 should be included before applying the Idaho apportionment factor of the entity. An owner who is a nonresident individual will apply the Idaho apportionment factor in computing the amounts to include on his Idaho individual income tax return.

HEADING AND QUESTIONS

Tax Year

File the 2014 form for calendar year 2014 or a fiscal year that begins in 2014. If the entity's tax year is a fiscal year, fill in the tax year space at the top of the form.

Final Return and Amended Return

If this is the last year the entity is filing an Idaho income tax return or if the entity is filing an amended Idaho return, check the applicable box at the top of the form.

Identification Numbers, Name and Address

Write the entity's federal employer identification number (EIN), business name, and address in the spaces provided.

Write the owner's social security number or EIN, name, and address in the spaces provided.

Check the appropriate boxes to identify the owner.

If the owner is treated as a disregarded entity under the Internal Revenue Code (IRC), check this box.

Owner's Ownership Percentages

Enter the owner's ownership percentages as shown on the owner's federal Schedule 1120 K-1, 1065 K-1, or 1041 K-1.

Line d Idaho Gross Income

Determine the owner's distributive share of the entity's gross income and check the appropriate box. If the owner's distributive share of gross income is equal to or greater than \$2,500, the owner has a filing requirement in Idaho.

Gross income is determined as provided in IRC sections 61(a), 691, 702(c) and 1366(c). These amounts can be reported as non-separately stated items or as separately stated items, and can be found on various schedules. Gross income won't generally tie to a specific line on the Form 41S, Form 65, or Form 66 because many of the amounts on the return are reported net of expenses.

Income from an interest in an estate or trust is included within the federal definition of gross income. This constitutes gross income from the detailed rules of IRC Subtitle A, Chapter 1, Subchapter J, Part I (section 641 and following). See Treas. Reg. section 1.61-13(a).

Line e Tax Paid on Behalf of Owner

If the entity is paying the tax on behalf of the owner, check this box. The owner won't be required to file an Idaho individual income tax return for the tax year in which the tax is paid by the entity on a composite return. The option to have the entity pay the tax for the owner isn't available to the following:

- Corporations, partnerships, or electing small business trusts, or to any other person who isn't an individual
- Part-year residents who have Idaho taxable income from sources other than pass-through entities
- Residents
- Nonresidents who have Idaho taxable income from sources other than pass-through entities

Enter the amount of tax paid for the owner on the line provided.

The entity must either complete Sections A through E for an electing owner or include a schedule that identifies how the tax for the owner was computed, including any credits that are used to offset tax.

Line f Withholding Paid on Behalf of Owner

A pass-through entity transacting business in Idaho, including a trust or estate with income taxable in Idaho, must withhold income tax from a nonresident individual owner who isn't included in a composite return. Enter the amount of Idaho income tax withheld.

PART A ALLOCATION AND APPORTIONMENT

If the entity is a trust or estate, skip Part A.

Line 1 Total Income

Enter the owner's distributive share of total income reported on federal Form 1065, line 8, or federal Form 1120S, line 6.

This amount doesn't go on the owner's Idaho return. It's used to calculate the interest expense offset related to tax-exempt interest. If the owner isn't reporting a deduction for tax-exempt interest, the owner won't use this information in preparing his Idaho return.

Line 2 Idaho Apportionment Factor

Enter 100% on this line if the entity is transacting all of its business within Idaho; if not, enter the Idaho apportionment factor from Form 42, Part I, line 21.

This information is used by a part-year resident or nonresident individual, trust, or estate to determine the amount of the entity's business income that must be reported as Idaho source income while a nonresident of Idaho. The apportionment factor doesn't apply to allocated income (lines 8 through 10).

Lines 3 Through 7

Lines 3 through 7 should be completed only by an entity that is a partnership or is taxed as a partnership. All other entities skip lines 3 through 7 and go to line 8. If the partner is an individual, trust, or estate, the partnership can skip lines 3 through 7.

Enter the owner's share of the partnership's total everywhere and Idaho property, payroll, and sales, net of intercompany eliminations, in the spaces provided. These amounts can be found on the partnership's Idaho Form 42. The capitalized rent expense on line 5 is the amount of rent expense net of intercompany rent expense after being capitalized by eight.

The owner's share of the partnership's total everywhere and Idaho property, payroll, and sales is determined by attributing the partnership's property, payroll, and sales to the owner in the same proportion as the owner's distributive share of partnership income if reporting net income for the tax year or in the same proportion as the owner's distributive share of partnership losses if reporting a net loss for the tax year.

These amounts are used if the owner is a partnership or a corporation to compute its Idaho apportionment factor. The amounts will be added to the entity's property, payroll, and sales amounts in computing its Idaho factors if the income from the entity is business income to the entity.

Lines 8 Through 10

Lines 8 through 10 are used by all owners. Nonresident individuals, trusts and estates will need to know what income is allocated income since this income is not apportioned to determine Idaho source income. Instead, allocated income and the related nonbusiness expense offset amount on line 9 is specifically sourced to a state. Income allocated to Idaho is listed on line 10. Provide a detailed breakdown of this income and related expenses on page 2, Part E.

A nonresident will need to remove allocated income from federal Schedule K-1 amounts before applying the apportionment factor listed on line 1 to determine the amount of business income apportioned to Idaho. Income allocated to Idaho (line 10) will then be added to the apportioned income to compute the amounts of Idaho source income to report on Form 43 or 66.

Line 8 Allocated Income

Enter the owner's distributive share of the amount reported on Form 65, line 27 or Form 41S, line 29. Include a schedule or use Part E to identify the income.

Line 9 Nonbusiness Expense Offset

Enter the owner's distributive share of the amount reported on Form 65, line 28 or Form 41S, line 30.

Line 10 Income and Expenses Allocated to Idaho

Enter the owner's distributive share of nonbusiness income allocated to Idaho. This amount is net of the nonbusiness expense offset and reported on Form 65, line 37 or Form 41S, line 39. Include a schedule or use Part E to identify the income and expenses.

PART B IDAHO ADJUSTMENTS

Report all amounts at the owner's distributive share before applying the Idaho apportionment factor.

Line 1 State, Municipal and Local Taxes Measured by Net Income

Enter the owner's distributive share of the amount reported on Form 65, line 18, Form 41S, line 21, or Form 66, Schedule B, line 3. Include a schedule or use Part E to identify the amount and the governmental entity.

If the entity is filing an Idaho Form 66, the entity may be eligible to claim a credit for taxes paid on Form 66, Schedule C, line 2.

Line 2 Bonus Depreciation Addition

For assets acquired prior to 2008 or after 2009 for which you claimed bonus depreciation, enter the owner's distributive share of the differences between the federal and Idaho depreciation and gains and losses reported on Form 65, line 19, Form 41S, line 17, or Form 66, Schedule B, line 5.

Line 3 Interest and Dividends Not Taxable Under the IRC

Enter the owner's distributive share of the amount reported on Form 65, line 17, Form 41S, line 20, or Form 66, Schedule B, line 2. Except for amortization, don't include expenses associated with the securities on this line. Report the expenses on line 7a.

Line 4 Other Idaho Additions

Enter the owner's distributive share of any other Idaho additions not included on lines 1 through 3 above. Include a schedule or use Part E to identify the additions.

Line 5 Interest from Idaho Municipal Securities

Enter the owner's distributive share of the amount reported on Form 65, line 22, Form 41S, line 24, or Form 66, Schedule B, line 8. Except for amortization, don't include expenses associated with the securities on this line. Report the expenses on line 7b.

Line 6 Interest on U.S. Government Obligations

Enter the owner's distributive share of the amount reported on Form 65, line 23, Form 41S, line 25, or included in the amount on Form 66, page 1, line 5. Except for amortization, don't include expenses associated with the securities on this line. Report the expenses on line 7c.

Line 7 Interest and Other Expenses Related to Lines 3, 5, and 6

On lines 7a through 7c, enter the owner's distributive share of interest and other expenses related to the income reported on lines 3, 5, and 6.

Line 8 Bonus Depreciation Deduction

For assets acquired prior to 2008 or after 2009 for which you claimed bonus depreciation, enter the owner's distributive share of the differences between the federal and Idaho depreciation and gains and losses on these assets reported on Form 65, line 30, Form 41S, line 32, or Form 66, Schedule B, line 9.

Line 9 Idaho Capital Gain (Loss) Eligible for the Idaho Capital Gains Deduction

For owners other than C corporations, enter the owner's distributive share of gain or loss on the sale of Idaho qualified property. If the owner is a C corporation, leave this line blank.

Include a schedule or use Part E to identify the type of property sold, the date of sale, and the holding period of the property.

Line10 Idaho Technological Equipment Donation

If the owner is a trust or an estate, skip line 10. Partnerships and S corporations enter the owner's distributive share of technological equipment donation reported on Form 65, line 26 and Form 41S, line 28.

Line 11 Other Idaho Subtractions

Enter the owner's distributive share of any other Idaho subtractions not included on lines 5 through 10 above. Include a schedule or use Part E to identify the subtractions.

PART C IDAHO CONTRIBUTIONS

Report all amounts at the owner's distributive share before applying the Idaho apportionment factor.

Line 1 Contributions to Idaho Educational EntitiesEnter the owner's distributive share of the total amount of qualifying contributions to Idaho educational entities.

Line 2 Contributions to Idaho Youth and Rehabilitation Facilities

Enter the owner's distributive share of the total amount of qualifying contributions to Idaho youth and rehabilitation facilities.

PART D IDAHO CREDITS AND CREDIT RECAPTURE

For lines 1 through 17, enter the owner's distributive share of Idaho credits and Idaho credit recapture.

For credits, this is the owner's distributive share of the total of:

- The amount of credit earned by the entity, and
- The amount of any pass-through credit flowing into the entity for the tax year

For recapture, this is the owner's distributive share of the total of:

- The amount of credit recaptured by the entity, and
- The amount of any pass-through credit recapture flowing into the entity for the tax year

PART E SUPPLEMENTAL INFORMATION

List in Part E any supplemental information required or needed by the owner to complete his Idaho return that isn't entered elsewhere on Form ID K-1. If there isn't enough space provided in Part E to report the information, include additional schedules as needed.

Recapture of Credits

If you reported recapture of credits in Part D, identify the year that the credit was originally earned for each amount recaptured or include a copy of the applicable recapture form reporting this information.

Credit for Taxes Paid To Another State

Provide information necessary for the computation of the credit for taxes paid to another state. This information must be provided on a state-by-state basis. Include the owner's share of the amount of tax paid to the other state by the entity and the owner's share of the income reported to the other state.
