

January 15, 2015

IMPACT OF THE FEDERAL TAX INCREASE PREVENTION ACT OF 2014 ON NORTH CAROLINA'S CORPORATE AND INDIVDUAL INCOME TAX RETURNS

North Carolina's corporate income tax law uses federal taxable income as the starting point in determining North Carolina taxable income. North Carolina's individual income tax law uses federal adjusted gross income as the starting point in determining North Carolina taxable income. In both cases, the reference to federal law is to the Internal Revenue Code ("Code") as of a certain date. Currently, that reference is to the Code as of December 31, 2013. Each year the General Assembly determines whether to update its reference to the Code. Doing so would make recent amendments to the Code applicable for North Carolina income tax purposes. In some cases, the General Assembly chooses not to follow ("decouple" from) certain amendments to federal law

On December 19, 2014, President Obama signed into law the Tax Increase Prevention Act of 2014 ("TIPA"). The Act extended several provisions in federal law that had sunset at the end of 2013. If the General Assembly does not update the reference to the Code to December 19, 2014 or later, the extension of those provisions will not apply for North Carolina income tax purposes.

If the General Assembly enacts legislation to update the Code reference as recommended, North Carolina will require additions on the corporate and individual income tax returns for (a) 85% of the amount deducted as bonus depreciation on the federal return and (b) 85% of the difference between the amount deducted on the federal return for Code section 179 expenses, using the federal dollar and federal investment limitations, and the amount that would be deductible for Code section 179 expenses using the North Carolina dollar and North Carolina investment limitations set out for 2014. For individual income tax returns, additions would also be required for (a) the amount excluded from gross income for the discharge of qualified principal residence indebtedness, (b) the amount deducted in arriving at adjusted gross income for qualified tuition and related expenses, and (c) the amount excluded from gross income for a qualified charitable distribution from an individual retirement plan by a person who has attained age 70 ½. In addition, an individual would also be required to exclude amounts paid for mortgage insurance premiums from the deduction for qualified residence interest if the taxpayer claims itemized deductions on the North Carolina return.

Any person filing a North Carolina income tax return whose 2014 federal taxable income or federal adjusted gross income is impacted by the amendments to federal law included in TIPA should consider waiting to file the 2014 North Carolina income tax return until the General Assembly takes action. A taxpayer who files the 2014 income tax return before the General Assembly takes action may have to amend the return to reflect the General Assembly's action. The General Assembly is scheduled to convene on January 28, 2015. If the General Assembly enacts legislation to update the Code reference, the Department will provide additional guidance, including how to report any required additions on the 2014 returns.

Schedule E. Combined Apportionment Factor (Only one apportionment factor is to be calculated for the combined group. The standard three factor formula must be used unless more than 50% of the group's combined income subject to apportionment is generated from a business activity subject to special apportionment. In that case, the formula applicable to that industry is used to apportion the income of the entire group, see Schedule E, Parts 2 or 3. The apportionment factor must be calculated 4 places to the right of the decimal.)
