Indiana businesses must report and pay sales and withholding taxes electronically

ALL businesses in Indiana must file and pay their sales and withholding taxes electronically. Businesses currently filing paper coupons will need to transition to filing via the state's INtax program or use a third-party vendor to electronically transmit forms ST-103 and WH-1. This is required by Indiana law.

Public Law (PL) 205-2013, SEC. 81 amended Indiana Code (IC) 6-3-1-11. The definition of adjusted gross income (AGI) is updated to correspond to the federal definition of adjusted gross income contained in the Internal Revenue Code (IRC). For tax year 2014, any reference to the IRC and subsequent regulations means the Internal Revenue Code of 1986, as amended and in effect on Jan. 1, 2013. For a complete summary of new legislation regarding taxation, please see the *2014 Summary of State Legislation Affecting the Department of Revenue* at www.in.gov/dor/3656.htm.

New Credit for Natural Gas-powered Vehicles

A credit is available for the purchase of certain vehicles powered with natural gas (CNG or LNG). It applies only to vehicles weighing more than 33,000 pounds and purchased from an Indiana dealer. For more information, see *Income Tax Information Bulletin #109* online at www.in.gov/dor/3650.htm.

New Exemption for Disaster Recovery Work

A new exemption is available for disaster recovery work. An out-of-state business that performs disaster emergency-related work in Indiana is exempt from paying any state or local taxes, including any income and withholding taxes.

New Schedule IN-OCC Replaces Schedule IN-SSC

If you are claiming any of the following credits, you must complete and submit the new Schedule IN-OCC:

- Hoosier Business Investment Credit
- Hoosier Business Investment Credit – Logistics
- Natural Gas Commercial Vehicle Credit
- School Scholarship Credit

Schedule IN-SSC has been eliminated. For more information on how and when to use this new form, see Schedule IN-OCC on the department's website at www.in.gov/dor/5175.htm.

Captive Insurers Not Subject to AGI Tax

Effective Jan. 1, 2013, a captive insurer subject to the tax under IC 27-1-2-2.3 is not subject to the adjusted gross income tax.

View Estimated Tax Payments Online and Make Payments by ePay

Corporate taxpayers can verify their state estimated tax payments and balances online. This feature saves time, helps to avoid delayed refunds, and identifies estimated discrepancies prior to filing. Visit www.in.gov/dor/epay/index.html to access your estimated tax information.

Please have the following information available:

- Name;
- Taxpayer's federal tax ID or employer identification number (EIN);
- Current street address; and
- Last payment amount.

View it at www.in.gov/dor/epay/index.html. If you have any questions, please call the department at (317) 232-0129.

Administrative Highlights Annual Public Hearing

In accordance with the Indiana Taxpayer Bill of Rights, the department will conduct an annual public hearing on Thursday, June 18, 2015. Please come and share your ideas on how the department can better administer Indiana tax laws. The hearing will be held from 10 a.m. to 11 a.m. in the Indiana Government Center South, Conference Center, Room A, 402 W. Washington Street, Indianapolis, IN. If you can't attend, please submit your concerns in writing to: Indiana Department of Revenue, Commissioner's Office, MS# 101, 100 N. Senate Avenue, Indianapolis, IN 46204.

Introduction to Corporate Taxation

Indiana has three kinds of corporate income tax:

- A corporation doing business in Indiana is subject to the AGI tax. Any corporation earning income from Indiana sources is also subject to the AGI tax.
- Any entity transacting the business of a financial institution in Indiana is subject to a franchise tax. Taxpayers subject to the financial institution tax are exempt from the AGI tax.
- Any corporation providing utility services in Indiana is also subject to the utility receipts tax. Tax is imposed on the gross receipts received from selling utility services.

Indiana recognizes a variety of business organizations. How the business is organized determines the type of tax return(s) it must file. It is important you know the tax-related requirements before setting up operations in Indiana.

General Filing Requirements

All types of corporations, business corporations, professional corporations, C corporations, and subchapter S corporations have essentially the same filing requirements. They might have different tax responsibilities, but they are still corporations. Any corporation doing business and having gross income in Indiana must file a corporation income tax return. It must do this regardless of whether it has taxable income (unless it's exempt under IRC section 501).

Nonprofit entities can be organized formally or informally. Contact the Internal Revenue Service for the federal requirements to obtain nonprofit (commonly known as 501(c)(3)) status. The IRS publishes an information booklet titled *Tax Exempt Status for Your Organization*, Publication 557. Contact:

Internal Revenue Service: (800) 829-1040
Publications: (800) 829-3676

To register your nonprofit status with the state, you must submit a Nonprofit Organization Application for Sales Tax Exemption (NP-20A). Contact:

Taxable Period

Indiana tax law requires all corporations to adopt their federal tax year for reporting income to Indiana. A federal entity election or default classification is recognized for state AGI tax.

Doing Business in Indiana

For Indiana AGI tax purposes, the term *doing business* generally means the operation of any business enterprise or activity in Indiana, including but not limited to the following:

1. Maintenance of an office, a warehouse, a construction site, or another place of business in Indiana;
2. Maintenance of an inventory of merchandise or material for sale, distribution, or manufacture;
3. Sale or distribution of merchandise to customers in Indiana directly from company-owned or -operated vehicles when the title of merchandise is transferred from the seller or distributor to the customer at the time of sale or distribution;
4. Rendering of a service to customers in Indiana;
5. Ownership, rental, or operation of business or property (real or personal) in Indiana;
6. Acceptance of orders in Indiana with no right of approval or rejection in another state;
7. Interstate transportation; or
8. Maintenance of a public utility.

Doing business by a corporate entity that is transacting the business of a financial institution in Indiana is similarly defined under IC 6-5.5-3-1.

Deriving Income from Indiana Sources

If a corporation has business income from both within and outside Indiana, the entity must apportion its income using the single-factor formula under IC 6-3-2-2. The one exception is if the entity is a financial institution or domestic insurance company. Business income is all income that arises from the conduct of the taxpayer's trade or business operations. Nonbusiness income is specifically allocated under IC 6-3-2-2(g) through (k).

Starting a New Business in Indiana

Formal business organizations require some filing with the Secretary of State, Corporations Division. We suggest that you consult an attorney before forming a formal business entity.

After a business entity has formed or been granted authority to do business in Indiana, it has an ongoing responsibility to file regular business entity reports. These reports must be filed every year by nonprofit organizations and every two years by for-profit businesses. The filings are due during the anniversary month of the organization's formation.

All organizational filings and reports for formal business entities should be sent to:

Indiana Secretary of State, Business Services Division
302 W. Washington Street, Room E018
Indianapolis, IN 46204
(317)-232-6576
www.in.gov/sos/business/index.htm

Information Line and Front Desk Hours:

8:00 a.m. to 5:30 p.m., Monday through Friday
(except state holidays)
Forms are available via fax 24 hours a day.
Call (800) 726-8000 (in Indiana)

If you need more detailed information about new businesses, check out the general requirements for starting your own business in the *Business Owner's Guide to State Government*.

Registering with the Indiana Department of Revenue

If you are starting a new business in Indiana, you might need to register with the Indiana Department of Revenue (IDOR). Registration is required if you will have employees. It's also required if you intend to sell (retail or wholesale) or rent or lease tangible personal property.

Any company registering for Indiana withholding tax must provide its federal employer identification number (EIN). If you do not have an EIN, you can register for one at www.irs.gov.

If you indicate on your Business Tax Application (BT-1) that you will be collecting Indiana gross retail sales tax, you will be issued a Registered Retail Merchants Certificate (RRMC).

An RRMC must be displayed at each location where you are doing business. A company that provides a service but has no employees might not need to register. If you are unsure, contact the department at (317) 232-0129.

Sales Tax Exemption Certificates

Registered retail merchants must assess Indiana sales tax on any sale of tangible personal property unless the customer presents a valid exemption certificate. The exemption certificate is kept by the seller as part of its business records and sales invoices. It must:

- Be legible;
- Be signed; and
- Include the customer's tax exempt number.

A business registered as a retail merchant can issue an exemption certificate and purchase tangible personal property exempt from sales tax when the property is:

- Purchased for resale;
- Made into property being resold;
- Directly used in the manufacturing of tangible personal property to be sold; or
- Exempt by law.

How Do I Register?

A single application (Form BT-1) is used to register with the department for the following:

- Alcohol and tobacco tax;
- Sales tax;
- Withholding tax;
- Food and beverage tax;
- County innkeeper's tax;
- Motor vehicle rental excise tax; and
- Prepaid sales tax on gasoline.

A separate application is required for each business location.

Internet: If you need to register your business with the department, you can do so online using the department's Online BT-1 application at <https://secure.in.gov/apps/dor/bt1/>.

INtax: Legislation now requires the filing and remitting of withholding and sales tax electronically.

One way businesses can file and remit their sales and withholding taxes is through INtax, Indiana's free online tool that enables businesses to manage business tax obligations for Indiana retail sales, withholding, out-of-state sales, prepaid sales, metered pump sales, tire fees, fuel taxes, wireless prepaid fees, and type II gaming taxes. The tax forms currently supported in INtax include the following:

- ST-103;
- ST-103P;
- ST-103MP;
- WH-1;
- WH-3;
- TF-103;

- SF-401;
- SF-900;
- MF-360;
- WPC-103; and
- TTG-103.

In INtax, businesses can make payments with either ACH Debit or credit card. ACH Debit is an EFT method of payment. Alternatively, businesses can have a software vendor or tax professional manage their tax obligations. This still meets the electronic mandate requirement because the software vendor or tax professional will file and pay electronically. Another option for sales taxes is using Streamlined Sales Tax. For more information, visit www.in.gov/dor/3341.htm.

Registering Multiple Locations: You must complete a separate BT-1 for each location you need to register. If you want to consolidate tax filings for all or some of your locations, complete Form BT-1C (Authorization for Consolidated Sales Tax Filing Number). This form is included in the BT-1 Packet.

Business Entities (in General)

Which Indiana Income Tax Form(s) to File?

The type of form you file varies depending on how your corporation is organized and the type of income it earns. An organization filing a federal return and doing business in Indiana must also file the comparable Indiana return. The name of the corporation (which must include the word *Corporation, Company, Incorporated, Limited*, or an abbreviation thereof) must be included on all returns. When filing your Indiana corporate forms, use your federal employer identification number (EIN) to identify your return. The IRS assigns this number to business entities at <http://www.irs.gov/Businesses/Small-Businesses-&Self-Employed/>.

For Indiana tax purposes, a corporation's tax filing includes other less formal organizations and unincorporated entities, such as general partnerships and nonprofit associations. To determine which return to file, use the following list. File the specified state form(s) to report the income, gains, losses, deductions, and credits. Also use it to figure your entity's corporate income tax liability.

The state returns are due 30 days after the due date for the filing of the federal return. Unless otherwise specified, the state tax returns are due on the 15th day of the 4th month following the close of the corporation's taxable year.

A corporation or an entity doing business in Indiana is subject to the corporate adjusted gross income tax (AGIT). The corporate AGIT tax rate is as follows:

After June 30, 2013, and before July 1, 2014	7.5%
After June 30, 2014, and before July 1, 2015	7.0%
After June 30, 2015, and before July 1, 2016	6.5%
After June 30, 2016, and before July 1, 2017	6.25%
After June 30, 2017, and before July 1, 2018	6.0%

After June 30, 2018, and before July 1, 2019	5.75%
After June 30, 2019, and before July 1, 2020	5.5%
After June 30, 2020, and before July 1, 2021	5.25%
After June 30, 2021	4.9%

An organization incorporated in another state or with a foreign government must have on file an *Application for Certificate of Authority 38784* with the Indiana Secretary of State. This allows a foreign (outside Indiana) corporation to do business in Indiana.

How to Determine the Tax Rate for Calendar-Year Filers and Fiscal-Year Filers Whose Tax Year Endings Are Not June 30

Pursuant to IC 6-3-2-1(c), the following steps must be used to determine the tax rate if a taxpayer is subject to different tax rates for a taxable period:

1. Multiply the rate in effect before the rate change by the number of months in the taxpayer's taxable year that precede the month the rate changed.
2. Multiply the rate in effect after the rate change by the number of months in the taxpayer's taxable year that follow the month before the rate changed.
3. Add the amounts in Step 1 and Step 2, and then divide the sum by 12.
4. Round the rate determined in Step 3 to the nearest 0.01%.

How to Determine the Tax Rate for Short Periods and 52/53-Week Filers

For taxpayers who file on a short period or 52/53-week period basis, for whom the steps outlined previously are not appropriate, the following steps should be used to determine the tax rate if a taxpayer is subject to different tax rates for a taxable period:

1. Multiply the tax rate in effect on June 30 of the taxable period by the number of days in the taxpayer's taxable period that occurred before July 1 of the taxable year.
2. Multiply the tax rate in effect on July 1 of the taxable period by the number of days in the taxpayer's taxable period that occurred after June 30 of the taxable year.
3. Add the amounts in Step 1 and Step 2, and then divide the sum by the total number of days in the taxpayer's taxable year.
4. Round the rate determined in Step 3 to the nearest 0.01%.

Certain entities are exempt from the tax (see IC 6-3-2-2.8 and 6-3-2-3.1). A brief explanation of the AGI tax treatment for each type follows.

Types of Corporate Entities and Returns to File

For-Profit Corporations (Domestic and Foreign)

A corporation can be formed for profit or nonprofit purposes. Forming a corporation creates a specific legal entity. An organization incorporated in this state (a domestic corporation) must have on file *Articles of Incorporation 4159* with the Corporations Division of the Secretary of State.

General or Regular Corporations	State Return(s) to File
Filing federal Form 1120, file:	Form IT-20, or
If meeting 80% income test as a financial institution, file:	Form FIT-20
If a utility service provider, also file:	Form URT-1

80% Income Test: Is the corporation primarily in the business of extending credit? If so, it might be subject to the financial institution franchise tax (FIT) in Indiana. If 80% or more of the taxpayer's gross income comes from extending credit, servicing loans, or a credit card operation, the FIT applies (see 45 IAC 17-2-4). You can also see Commissioner's Directive #14 at www.in.gov/dor/3617.htm for more information.

For taxable years beginning before Jan. 1, 2014, the FIT rate is 8.5%. After that, it will decrease by 0.5% each year until it is 6.5% in 2017. If the taxpayer is subject to the FIT, it is exempt from the AGIT (IC 6-5.5-9-4). *It must instead file on Form FIT-20.*

Utility Service Provider: Are you in business as a utility service? If so, you might be subject to the utility receipts tax (URT) on those gross receipts. *Gross receipts* are defined as the value received for the retail sale of utility services.

You owe this tax if you furnish any of the following:

- Electrical energy;
- Natural gas;
- Water;
- Steam;
- Sewage; or
- Telecommunications services.

The URT is due on the retail sale of these services in Indiana. The URT tax rate is 1.4%. See Commissioner's Directive #18 at www.in.gov/dor/3617.htm for more information. *Entities subject to this tax must also file Form URT-1.*

An organization incorporated in another state or with a foreign government is known as a foreign corporation for Indiana tax purposes. It must have a Certificate of Authority to do business in Indiana. You can get an application for a Certificate of Authority from the Indiana Secretary of State or the State Information Center.

A foreign corporation with authority to operate in Indiana (other than a life or property and casualty insurance company) generally must file its Indiana tax return on the Corporation Income Tax Return, Form IT-20.

The state tax return(s) is due on the 15th day of the 4th month following the close of the corporation's tax year.

Foreign Sales Corporation (IRC section 922)	State Return(s) to File

A domestic insurance company (organized under the laws of the state of Indiana) that elects to file the corporation income tax return instead of the premium insurance tax return must file on Form IT-20. It will be exempt from the insurance premium tax if it elects to pay the AGIT. If this applies to you, check box J-4 in the taxpayer identification section on the front of the return.

The state corporate income tax return is due on the 15th day of the 4th month following the close of the corporation's tax year.

Limited Liability Companies (Domestic and Foreign)	State Return(s) to File

If filing federal Form 1120, file:	Form IT-20
If a utility service provider, also file:	Form URT-1
If a financial institution (80% income test), file:	Form FIT-20

A limited liability company (LLC) may be classified for federal income tax purposes as a partnership, a corporation, or an entity disregarded as an entity separate from its owner by applying the rules in federal regulation section 301.7701.3. An LLC has members rather than shareholders. If an entity with more than one member was formed as an LLC, it generally is treated as a partnership for federal income tax purposes. It therefore files Form 1065.

A single-member LLC can report its income and deductions as a corporate entity instead. The LLC can file a Form 1120 or Form 1120-A only if it has filed federal Form 8832, Entity Classification Election, to be treated as a corporation.

An LLC can be formed under state law by filing Articles of Organization 49459. An LLC based outside of Indiana must file an Application for Certificate of Authority of a Foreign Limited Liability Company to do business in Indiana, similar to what foreign corporations file. If the LLC qualifies under IRS guidelines to be treated as an association taxable as a corporation, it must file Form IT-20.

The state tax return(s) is due on the 15th day of the 4th month following the close of the entity's tax year.

Limited Liability Partnership (Domestic and Foreign)	State Return(s) to File
If filing federal Form 1065 or 1065B, file:	Form IT-65
If filing federal Form 1120, file:	Form IT-20
If a utility service provider, also file:	Form URT-1
If a financial institution (80% income test), file:	Form FIT-20

A limited liability partnership (LLP) can be classified for federal income tax purposes as a partnership, a corporation, or an entity disregarded as an entity separate from its owner by applying the rules in federal regulation section 301.7701.3. The income of an LLP is taxed in the same way as a general partnership's income is.

An LLP can be formed under state law by filing Articles of Registration of a Limited Liability Partnership with the Secretary of State. An LLP based outside of Indiana must file a Certificate of Authority or Notice of Foreign Limited Liability Partnership to do business in Indiana, similar to what foreign corporations file.

The state tax return(s) is due on the 15th day of the 4th month following the close of the entity's tax year.

Limited Partnership (Domestic and Foreign)	State Return(s) to File
If filing federal Form 1065 or 1065B, file:	Form IT-65
If filing federal Form 1120, file:	Form IT-20
If a utility service provider, also file:	Form URT-1
If a financial institution (80% income test), file:	Form FIT-20

A limited partnership (LP) must have at least one general partner and one limited partner. The income is generally taxed in the same manner as a general partnership's income is. An LP can be classified for federal income tax purposes as a partnership, a corporation, or an entity disregarded as an entity separate from its owner by applying the rules in federal regulation section 301.7701.3. The LP can be formed under state law by filing a Certificate of Limited Partnership with the Secretary of State. An LP based outside of Indiana must file a Certificate of Authority or Application of Registration to do business in Indiana, similar to what foreign corporations file.

The state tax return(s) is due on the 15th day of the 4th month following the close of the entity's tax year.

The state tax return is due on the 15th day of the 4th month following the close of the fund's taxable year.

Personal Service Corporation (Domestic and Foreign)	State Return(s) to File
Filing federal Form 1120, file:	Form IT-20

The state tax return for a personal service corporation, also known as a professional corporation, is due on the 15th day of the 4th month following the close of the corporation's tax year.

Political Organization (IRC Section 527)	State Return(s) to File
If filing federal Form 1120-POL, file:	Form IT-20

The state tax return is due on the 15th day of the 4th month following the close of the organization's tax year. If a nonprofit is filing an 1120-POL, it must **not** file the IT-20. It must report its income from the 1120-POL on Line 13 on the IT-20NP.

Property and Casualty Insurance Company (Domestic) (IRC Section 831)	State Return(s) to File
If filing federal Form 1120-PC, file:	Form IT-20

A domestic insurance company (organized under the laws of the state of Indiana) can elect to file the corporation income tax return instead of the premium insurance tax return. However, if it elects to do this, it must file on Form IT-20. It is exempt from the insurance premium tax if it elects to pay the AGIT. If this applies to you, check box J-4 in the taxpayer identification section on the front of the return.

The state corporate income tax return is due on the 15th day of the 4th month following the close of the corporation's tax year.

Publicly Traded Partnership (Domestic and Foreign)	State Return(s) to File
If filing federal Form 1065 or 1065B, file:	Form IT-65
If filing federal Form 1120, file:	Form IT-20
If a utility service provider, also file:	Form URT-1
If a financial institution (80% income test), file:	Form FIT-20

A publicly traded partnership (PTP) that is treated as a partnership and not as a corporation for federal income tax purposes must file on Form IT-65. A PTP that is treated as a corporation for federal income tax purposes under IRC Section 7704 must file on Form IT-20.

A PTP based outside of Indiana must file a Certificate of Authority to do business in Indiana. This is similar to what foreign corporations file.

The tax return(s) is due on the 15th day of the 4th month following the close of the entity's tax year.

Real Estate Investment Trust (IRC section 856)	State Return(s) to File
If filing federal Form 1120-REIT, file:	Form IT-20
If a financial institution (80% income test), file:	Form FIT-20

A corporation, a trust, or an association that meets certain conditions under IRC Section 856 can elect to be treated as a real estate investment trust (REIT) for the tax year. It does this by figuring its taxable income as a REIT on federal Form 1120-REIT. An entity filing as a REIT files Form IT-20 or FIT-20 to report business activity income in Indiana.

However, the deduction for dividends paid by a captive REIT is not an allowable exclusion for the state return. A deduction for dividends included in federal taxable income is an addback on the state tax return.

The state tax return is due on the 15th day of the 4th month following the close of the tax year.

Real Estate Mortgage Investment Conduit (IRC Section 860D)	State Return(s) to File
If filing federal Form 1066, file:	Form IT-20
If a financial institution (80% income test), file:	Form FIT-20

A corporation, a partnership, a trust, or an entity that meets certain conditions under IRC Section 860D can elect to be treated as a real estate investment conduit (REMIC) for the tax year. It does this by figuring its taxable income as an REMIC on federal Form 1066. An entity filing as a REIT files either Form IT-20 or Form FIT-20 to report its total federal taxable income, deductions, gains, and losses from the operation of an REMIC in Indiana. In addition, the REMIC must report and pay taxes on any net income from foreclosure property and contributions after a startup day. If this applies to you, check box J-6 in the taxpayer identification section on the front of the return.

The state tax return is due on the 15th day of the fifth month following the close of the entity's tax year. The entity's final state return is due 30 days from the filing due date of Form 1066 following the date the REMIC ceased to exist.

Regulated Investment Company (IRC Section 851)	State Return(s) to File
If filing federal Form 1120-RIC, file:	Form IT-20
If a financial institution (80% income test), file:	Form FIT-20

A regulated financial corporation, subsidiary of a holding company, or regulated financial corporation can elect to be treated as a regulated investment company (RIC). It does this by filing Form 1120-RIC. For state purposes, the RIC must use Form IT-20 or FIT-20 to report federal taxable income, deductions, gains, and losses from the operation of an RIC in Indiana.

The state return is due on the 15th day of the 4th month following the close of the corporation's tax year.

S Corporation (IRC Section 1361)	State Return(s) to File
If filing federal Form 1120S, file:	Form IT-20S
If a utility service provider, also file:	Form URT-1

A corporation incorporated in the United States can elect S corporation treatment. The corporation must submit IRS Form 2553 to the IRS for recognition of its status. This is a separate legal and taxable entity. It can have no more than 100 owners. An S corporation is exempt from federal income tax except on certain capital gains and passive income. Any income taxed at the corporate level is subject to the Indiana corporate AGIT.

A corporation that has permission to file as an S corporation must file its Indiana return on the Indiana S Corporation Income Tax Return, Form IT-20S.

The state tax return(s) is due on the 15th day of the 4th month following the close of the corporation's tax year.

Settlement Fund (IRC Section 468B)	State Return(s) to File
If filing federal Form 1120-SF, file:	Form IT-20
If a financial institution (80% income test), file:	Form FIT-20

The state tax return is due on the 15th day of the 4th month following the close of the fund's tax year.

Nonprofit Corporations (Domestic and Foreign)

A corporation can be formed for profit or nonprofit purposes. A nonprofit organization is an association whose purpose is to engage in activities that do not provide financial profit to the benefit of its members. Such corporations must get nonprofit or tax exempt status from the IRS and the Indiana Department of Revenue to be free from certain tax burdens.

Formation of Nonprofit Corporation

Nonprofit entities can be organized formally or informally. Forming a corporation creates a specific legal entity. A nonprofit organization incorporated in this state (a domestic corporation) must have on file Articles of Incorporation 4162 with the

Corporations Division of the Indiana Secretary of State. An organization incorporated in another state or with a foreign government must have on file an Application for Certificate of Authority 37035 with the Secretary of State. This allows a foreign (outside Indiana) corporation to do business in Indiana.

Application for Nonprofit Status and Registration

Contact the Internal Revenue Service for federal requirements to obtain nonprofit (commonly known as 501(c)(3)) status. The IRS publishes an information booklet titled *Tax Exempt Status for Your Organization*, Publication 557. Contact:

Internal Revenue Service: (800) 829-1040
Publications: (800) 829-3676
www.irs.ustreas.gov/

To register your nonprofit status with the state, you must submit a Nonprofit Organization Application for Sales Tax Exemption (NP-20A). Contact:

Indiana Department of Revenue
Tax Administration
P.O. Box 7206
Indianapolis, IN 46207-7206
(317) 232-0129

After nonprofit status is granted, the organization must file the annual report (NP-20) to maintain state recognition of its sales tax exemption. If the organization has unrelated business income over \$1,000 during the tax year, it must also file Form IT-20NP. For information about nonprofit filing requirements, get Information Bulletin #17 at www.in.gov/dor/3650.htm.

The annual report and income tax return are due on the 15th day of the fifth month following the close of the organization's tax year.

Forms for Specific Nonprofit Organizations

Nonprofit Organization	State Return(s) to File
If filing federal Form 990 or 990T, file:	Form IT-20NP and Form NP-20
If a utility service provider, also file:	Form URT-1

A nonprofit organization or corporation must file Form IT-20NP and/or Form NP-20.

The department recognizes the exempt status determined by the IRS. An organization registered as a nonprofit is subject to the AGIT unless the income is specifically exempt from taxation under the Adjusted Gross Income Tax Act (IC 6-3-2-2.8 and 6-3-2-3.1). The nonprofit organization is subject to both federal and state tax on income derived from an unrelated trade or business, as defined in IRS Section 513.

The tax return on unrelated business income (Form IT-20NP) and the annual report (Form NP-20) are due on the 15th day of the 5th month following the close of the organization's tax year. The URT-1 tax return is due on the 15th day of the 4th month following the close of the organization's tax year.

Religious or Apostolic Organization (Exempt Under Section 501(d))	State Return(s) to File
If filing federal Form 1065, file:	Form IT-65

The state partnership return is due on the 15th day of the 4th month following the close of the organization's tax year.

Other Related Income Tax Filing Requirements of a Corporation

State Return(s) to File Forms for Other Corporate Entities

Financial Institution Franchise Tax (Form FIT-20)

Financial institutions are subject to a franchise tax under IC 6-5.5.

Indiana imposes a financial institution franchise tax (FIT) of 8.5% on the AGI of a taxpayer that is conducting the business of a financial institution in Indiana. Financial institution means:

- A holding company registered under the Bank Holding Act of 1956;
- A holding company registered as a savings and loan holding company;
- A holding company registered as a regulated financial corporation (including a state chartered credit union); or
- Any subsidiary of the above.

The franchise tax also extends to all other corporate entities when 80% or more of their gross income is derived from activities that constitute the business of a financial institution. The business of a financial institution is defined as:

- Activities authorized by the Federal Reserve Board;
- The making, acquiring, selling, or servicing of loans or extensions of credit;
- Acting as an agent broker or advisor in connection with leasing that is the economic equivalent of an extension of credit; or
- Operating a credit card, debit card, or charge card business (see 45 IAC 17-2-4).

Taxpayers subject to the FIT under IC 6-5.5-2-1 are exempt from Indiana's corporate AGIT. Entities subject to this tax should not file Form IT-20. Instead, they should file Form FIT-20, Indiana Financial Institution Tax Return. For more information, get Commissioner's Directive #14 at www.in.gov/dor/3617.htm or contact Corporate Taxpayer Assistance by calling (317) 232-0129.

The FIT-20 return is due on the 15th day of the 4th month following the close of the corporation's tax year.

Premium (Privilege) Insurance Tax (State Form 6135 or State Form 6136)

Insurance companies must file federal Form 1120-L or 1120-PC. A foreign insurance company (organized under the laws of a state other than Indiana) is required by IC 27-1-18-2 to pay the insurance premium tax to the Indiana Department of Insurance. However, a domestic (Indiana) insurance company can file either the premium insurance tax return or the corporation income tax return. Paying the premium tax exempts the insurance company from the AGIT.

The state insurance return is filed with the Indiana Department of Insurance. It is due on March 1 following the close of the tax year ending December 31.

Utility Receipts Tax (Form URT-1)

Per IC 6-2.3-2-1, gross receipts from the retail sale of utility services are taxed at 1.4%. The utility services subject to tax include:

- Electrical energy;
- Natural gas;
- Water;
- Steam;
- Sewage; and
- Telecommunications.

Gross receipts are defined as the value received for the retail sale of utility services.

Entities subject to this tax must file Form URT-1 (Utility Receipts Tax Return). They must also file the annual corporate AGI or financial institution income tax return. See Commissioner's Directive #18 at www.in.gov/dor/3617.htm for more information.

The URT-1 return is due on the 15th day of the 4th month following the close of the taxpayer's tax year.

Utility Services Use Tax (Form USU-103)

Your business might be subject to an excise tax of 1.4% on the consumption of utility services. A utility services use tax (USUT) is due if the utility receipts tax is not payable by the seller. The person who consumes the utility service in Indiana is liable for the USUT. Unless the utility service seller is registered with the department to collect the USUT on your behalf, you must pay the tax on Form USU-103. For more information, see Commissioner's Directive #32 at www.in.gov/dor/3617.htm.

The USU-103 return is due monthly by the 30th day following the end of each month.

General Filing Requirements for Form IT-20

What to Enclose with Your State Corporate Return

To complete your state income tax return, you must enclose copies of pages 1 through 5 of the completed U.S. Corporation Income Tax Return (Form 1120) or the comparable federal return you are filing. You also must include federal Schedule M-3 and any confirmation of an extension of time to file the return.

Adjusted Gross Income Tax

The Indiana AGIT is generally calculated using federal taxable income from federal Form 1120 or a comparable return and making Indiana modifications as required by IC 6-3-1-3.5(b). If you have income from sources both within and outside Indiana, use the apportionment and allocation formula on IT-20 Schedule E to determine the AGI that's attributed to Indiana. The AGIT rate is decreasing by 0.5% each year. It will stop on July 1, 2015, when it will be 6.5%. After June 30, 2013, and before July 1, 2014, the rate is 7.5%. After June 30, 2014, and before July 1, 2015, the rate is 7%.

Refer to page 6 for information on how to calculate the tax rate for entities whose tax years do not end on June 30.

Due Dates

The corporation's tax return is due by the 15th day of the 4th month following the close of the tax year.

A **farmer's cooperative** (described in Section 1381 of the Internal Revenue Code) has until the 15th day of the 10th month following the end of its taxable year to file its annual Indiana return. A **real estate mortgage investment conduit's (REMIC's)** return is due by the 15th day of the 5th month following the close of its taxable year. The entity's final state return is due 30 days from the filing due date of Form 1066 following the date the REMIC ceased to exist.

Extensions for Filing Return

The department accepts the federal extension of time application (Form 7004) or the federal electronic extension. If you have one, you do not need to contact us before filing your annual return. Returns postmarked within 30 days after the last date indicated on the federal extension are considered timely filed. If your corporation does not need a federal extension of time but needs one for filing the state return, submit a letter to us requesting such an extension prior to the annual return's due date.

To request an Indiana extension of time to file, contact:

**Indiana Department of Revenue
Corporate Income Tax
Tax Administration
P.O. Box 7206
Indianapolis, IN 46207-7206**

An extension of time granted under IC 6-8.1-6-1 waives the late payment penalty for the extension period on the balance of tax due, provided 90% of the current year's total tax liability is paid on or prior to the original due date. Use Form IT-6 to make an extension payment for your taxable year. This payment is processed as a "fifth" estimated payment. (See Income Tax Bulletin #15 at www.in.gov/dor/3650.htm for more details.) Any tax paid after the original due date must include interest.

Interest on the balance of tax due must be included with the return when it is filed. Interest is computed from the original due date until the date of payment. Each October the department establishes the interest rate for the next calendar year. See Departmental Notice #22 at www.in.gov/dor/3618.htm for interest rates.

If you have a valid extension of time or a federal electronic extension to file, you must **check box V** on the front of the return. If applicable, enclose a copy of the federal extension of time with your state return.

Accounting Methods and Taxable Year

You must use the same method of accounting you used for federal income tax purposes. The taxable year for the AGIT must also be the same as the accounting period you used for federal income tax purposes. If the apportionment provisions do not fairly reflect your Indiana income, you must petition the department for permission to use an alternative method.

For an overview of corporate taxation, see Income Tax Information Bulletin #12 at www.in.gov/dor/3650.htm.

Consolidated Reporting

Under the Adjusted Gross Income Tax Act, affiliated corporations have the privilege of filing a consolidated return. This is provided in IRC Section 1502 for those affiliates as defined in IRC Section 1504. The Indiana consolidated return must include any member of the affiliated group under IRC Section 1504 having income or loss attributable to Indiana during the year.

To file a consolidated return for AGIT purposes, the parent corporation must own at least 80% of each subsidiary's voting stock. Each corporation in the affiliated group electing to file consolidated must be either incorporated in Indiana or registered with the Secretary of State to do business in Indiana. The affiliated group may not include any corporation that does not have taxable income or loss from Indiana sources.

You can elect to file a consolidated return for Indiana purposes by filing by the due date or the extended due date. If you choose this, you should notify the department by completing Schedule 8-D, Schedule of Indiana Affiliated Group Members. Indicate the affiliated corporations included in the consolidated return. You cannot elect to file a consolidated return on a retroactive basis. After an affiliated group elects to file consolidated for Indiana purposes, the group must follow that choice for all subsequent years of filing. In addition, a worksheet must accompany the

annual return supporting each of the participating affiliates' consolidated AGI or loss. Schedule 8-D is available separately from the department.

If the group wants to revoke the election in a subsequent tax year, it must prove good cause and receive written permission from the department. The group must make its request to discontinue filing consolidated at least 90 days before the return's due date.

Unitary (Combined) Filing Status

You can petition the department for permission to file a combined income tax return for a unitary group. You must file the petition on or before 30 days after the end of the tax year for which you're seeking permission.

Permission will be granted if combined reporting will more fairly reflect the unitary group's Indiana source income. However, combined reporting is limited to the "water's-edge" of the United States. The petition should be sent to:

**Indiana Department of Revenue
Tax Policy Division
100 N. Senate Avenue, N-280
Indianapolis, IN 46204**

Caution: After permission has been granted to file on a combined basis, the taxpayer must continue to file returns on this basis until the department grants permission to use an alternative method. The taxpayer filing the combined return must petition the department within 30 days after the end of the tax year for permission to stop filing a combined return.

IT-20 Unitary Schedule 1, Combined Profit and Loss Statement of Indiana Unitary Group, must be completed detailing the following:

- The federal taxable income;
- The intercompany eliminations; and
- The members' adjusted gross income tax.

You must enclose with the return a list of the corporations involved in the apportionment factor of the unitary filer. Include their federal identification numbers. You must also include the computation of apportionment for the combined group's members. Each taxable member will be assigned a share of business income according to its relative share (its percentage share without considering any nontaxable member's share) of the unitary group's Indiana (adjusted) sales factors.

Get additional information concerning unitary requirements from the Tax Policy Division at (317) 232-7282. See Tax Policy Directive #6 at www.in.gov/dor/3661.htm.

Treatment of Partnership Income

The corporate partner's and the partnership's activities might constitute a unitary business under established standards, disregarding ownership requirements. If so, the business income of the unitary business attributable to Indiana is determined by the single-factor apportionment formula. The formula consists of the corporate partner's share of the partnership's sales for any partnership year ending within or with the corporate partner's

income year. The partner's proportionate shares of all the partnership's (unapportioned) state income taxes and charitable contributions are added back in to determine its AGI.

The corporate partner's activities and the partnership's activities might not constitute a unitary business under established standards. If they don't, the corporate partner's share of the partnership income attributable to Indiana is determined at the partnership level as follows:

1. If the partnership has income from sources within and outside Indiana, the income from the sources within Indiana is determined by a formula consisting of the sales of the partnership.
2. If the partnership has income from sources entirely within Indiana or entirely outside Indiana, the income is not subject to formula apportionment.

Refer to 45 IAC 3.1-1-153. For non-unitary partners, taxable partnership distributions included in federal AGI are deducted on line 14 of the return. Non-unitary partnership income attributed to Indiana, including any apportioned pro rata modifications, is added back on line 17.

Refer to the instructions for Schedule F for more information. Losses are treated the same as income; however, losses cannot exceed the limits imposed by IRC Section 704.

Quarterly Estimated Payments

A corporation whose estimated AGIT liability exceeds \$2,500 for a taxable year must file quarterly estimated tax payments. The quarterly estimated tax payments must be submitted with an appropriate Indiana voucher, with Form IT-6, or by electronic funds transfer (EFT), depending on the amount due. The quarterly due dates for estimated payments are the 20th day of the 4th, 6th, 9th, and 12th months of the taxpayer's tax period, regardless of whether filing on a calendar-year, fiscal-year, or short-year basis. Taxpayers should use the reporting taxpayer's federal identification number.

Estimated taxes can be paid at www.in.gov/dor/epay.

To make an estimated tax payment or view payment history, you need the following information:

- Taxpayer name;
- Federal tax ID or employer identification number (EIN);
- Current street address; and
- Last payment amount.

Claim credit for all your estimated payments on lines 34 - 36 of Form IT-20. Refunds reflected on the annual corporate return can be applied to the next taxable year's estimated liability. Do this by entering the amount to be credited on line 46 of the IT-20. To get a refund, you must claim an overpayment of estimated payments on the annual return. After you remit the remainder of a year's estimated tax, you should not file any further estimated returns. All checks remitted to the department should be accompanied by a return or a complete explanation for the payment. If you have zero liability for a quarter, you do not have to file Form IT-6.

The quarterly estimated payment must be equal to the lesser of:

- 25% of the AGI tax liability for the taxable year; or
- The annualized income installment calculated in the manner provided by IRC Section 6655(e) as applied to the corporation's liability for AGI tax.

Also, if your estimated liability exceeds \$5,000 per quarter, you must remit the tax by EFT. If the estimated payment is made by EFT, you are not required to file Form IT-6. For questions about EFT payments, call (317) 232-5500.

Corporations required to make quarterly estimated payments can use the annualized income installment method. It must be calculated in the manner provided by IRC Section 6655(e) as applied to the corporation's AGI tax liability.

If you need to set up an estimated account, contact the department to remit the initial payment and to request preprinted quarterly estimated IT-6 returns. For more instructions, see Income Tax Information Bulletin #11, at www.in.gov/dor/3650.htm.

Penalty for Underpayment of Estimated Tax

If you are required to pay estimated tax, you are subject to a 10% underpayment penalty if you don't file estimated payments or pay enough. The required estimate should exceed:

- The annualized income installment calculated in the manner provided by IRC Section 6655(e) as applied to your liability; or
- 25% of the final tax liability for the prior taxable year.

If you meet either of these conditions, no penalty will be assessed for the estimated period.

If you underpaid your tax for any quarter, use Schedule IT-2220 to show an exception to the penalty. If you don't meet any of the exceptions, you must include payment of the computed penalty with your return. The underpayment penalty is the difference between the amount paid for each quarter and 25% of your final income tax for the current tax year. See the instructions for completing Schedule IT-2220, Penalty for the Underpayment of Corporate Income Tax.

Electronic Funds Transfer Requirements

Corporate quarterly estimated tax must be remitted by EFT if the corporation's AGI tax exceeds an average of \$5,000 per quarter (or \$20,000 annually). The department assesses a penalty of either 10% of the unpaid tax or the amount of the EFT (whichever is less) on any EFT it cannot obtain payment on. There is no minimum amount of payment. Therefore, the department encourages any corporate taxpayers not required to remit by EFT to voluntarily participate in our EFT program.

Note: Taxpayers remitting by EFT should not file quarterly IT-6 coupons. The amounts are reconciled when the annual income tax return is filed.

If the department notifies a corporation that it must remit by EFT, the corporation has to:

1. Complete and submit the EFT Authorization Agreement (Form EFT-1); and
2. Begin remitting tax payments by EFT by the date/tax period specified by the department.

If the corporation doesn't comply, a 10% penalty is added onto each quarterly payment not paid by EFT. **Note:** Per Indiana Code, the extension of time to file payment or the final payment due with the annual return does not have to be paid by EFT. Corporations should claim any EFT payment as an extension or estimated payment credit when filing their annual income tax returns. Your return should not indicate an amount due if you have paid, or will pay, any remaining balance by EFT.

If your corporation meets the requirements to remit by EFT, contact the department's EFT Section by calling (317) 232-5500.

Indiana Use Tax

Under Indiana law, use tax is imposed on the use, storage, and consumption of tangible personal property in Indiana when the property was acquired in a retail transaction and sales tax was not paid at the point of purchase.

The Indiana use tax rate is 7%. Indiana use tax does not apply to property purchased for resale or exempted by statute. Items subject to Indiana use tax include:

- Magazine subscriptions;
- Office supplies;
- Property used or consumed outside the scope of production; and
- Property purchased from out-of-state vendors.

A Sale/Use Tax Worksheet is available on page 32 as a supplement to the income tax return (line 24) for reporting any unpaid use tax liability.

Amended Returns

To amend an Indiana corporation income tax return, you must complete Form IT-20X. Always use Form IT-20X to comply with IC 6-3-4-6, which requires a taxpayer to notify the department of any changes (federal adjustment, RAR, etc.) made to a federal income tax return within 180 days of such change. Federal waivers should be enclosed, if applicable.

To claim a refund of an overpayment, you must file the return within three years from the later of either the overpayment date or the return's due date.

IC 6-8.1-9-1 entitles a taxpayer to claim a refund because of a reduction in tax due to a federal modification. A taxpayer can file a claim for refund within six months from the date of modification by the IRS. Therefore, an overpayment due to a change of a federal income tax liability must be claimed within the later of: the three-year period from the due date of the return, the date of payment, or within six months of the taxpayer's

notification by the IRS. If the taxpayer and the department agree to an extension of the statute of limitations for an assessment, the period for filing a claim for refund is also extended.

Calculation of Interest on Refund Claims

An overpayment of tax accrues interest from the date the refund claim is filed if it is not refunded or credited against a current or future tax liability within:

- 90 days after the refund claim is filed;
- The date the tax was due; or
- The date the tax was paid (whichever is latest).

The refund claim includes an amended return that indicates an overpayment of tax.

The rate of interest is established by the commissioner as published in Departmental Notice #3. The rate is updated on or before November 1 to take effect on January 1 for the coming year.

An approved overpayment can be refunded or credited to the following tax year. A combination of these two options can also be used.

Instructions for Completing Form IT-20

Filing Period and Identification

File a 2014 Form IT-20 return for a taxable year ending Dec. 31, 2014; a short tax year beginning in 2014 and ending in 2014; or a fiscal year beginning in 2014 and ending in 2015. For a short or fiscal tax year, at the top of the form fill in the beginning month and day and the ending date of your taxable year.

The 2014 Form IT-20 can also be used if:

- The corporation's tax year is shorter than 12 months;
- The corporation's tax year begins and ends in 2014; and
- The 2015 Form IT-20 is not available at the time the corporation is required to file its return.

The corporation must show its 2015 tax year on the 2014 Form IT-20 and take into account any state tax law changes that are effective after Dec. 31, 2014. An amended Form IT-20X can be filed later to correct a previously filed return because of state and federal tax law changes effective to that tax period.

A corrected Form IT-20 must be enclosed. Please use the corporation's full legal name and present mailing address. *For foreign addresses, please note the following:*

- Be sure to enter the name of the city, town, or village in the box labeled City;
- Be sure to enter the name of the state or province in the box labeled State; and
- Be sure to enter the postal code and the 2-digit country code in the box labeled ZIP Code.

For a name change, check the box at the top of the return. **With the return, you must enclose copies of Amended Articles of Incorporation or an Amended Certificate of Authority** filed with the Indiana Secretary of State.

The federal identification number shown in the box in the return's upper-right corner must be accurate and be the same as what's used on the federal corporation income tax return. Consolidated filers must use the federal identification number of the corporation designated as the reporting corporation.

List the name of the county in Indiana where you have a primary business location. Enter "00" (two zeroes) in the county box for an address outside Indiana.

Enter your principal business activity code, from the North American Industry Classification System (NAICS), in the designated block of the return. Use the six-digit activity code you reported on your federal corporation income tax return.

A link to a list of these codes is available through the department's website at www.in.gov/dor/3742.htm.

Computation of Adjusted Gross Income Tax

Unitary filers should use the combined group's totals and relative formula percentage for entries on all lines except 18 and 20. Compute the Indiana portion of a net operating loss deduction, if any, on line 20. Base it on the relative formula percentage as applied for the loss year.

Note: Please round all entries to the nearest whole dollar amount. Also, please do not use a comma in dollar amounts of four digits or more. For example, instead of entering "3,455" you should enter "3455."

Income

Line 1 - Federal Taxable Income

Enter the federal taxable income (as defined under IRC Sections 63, 801, and 832) before any federal net operating loss (NOL) deduction and/or special deductions from Form 1120 (pro forma U.S. Corporation Income Tax Return) for the taxable period.

Some organizations can enter federal taxable income after the \$100 specific deduction. Political organizations and homeowner's associations are allowed a \$100 specific deduction.

Line 2 - Federal Deduction of Qualifying Dividends

Enter the special deductions from Schedule C, federal Form 1120. Use the amount reportable to Indiana if you're filing as a consolidated group. See line 12 for Indiana's treatment of any remaining foreign source dividends.

Line 3 - Subtotal Federal Taxable Income Before NOL

Subtract line 2 from line 1.

Modifications to Adjusted Gross Income, Lines 4 - 11

Enter any addbacks and deductions on lines 4 through 10. Enter the name of the addback/deduction, its 3-digit code, and its amount. Use minus signs to denote negative amounts. Attach additional sheets if necessary.

Adding Back Depreciation Expenses

Several of the discontinued addbacks were created by timing differences between federal and Indiana allowable expenses. Following is an example of how to report a difference.

Example. ABC Company has qualified restaurant equipment. For federal tax purposes, they use the accelerated 15-year recovery period for an asset placed in service in 2009. Since 2009, ABC Company has been adding back the depreciation expense taken for federal purposes that exceeded the amount allowable for Indiana purposes. The accumulated depreciation on such an asset through 2012 is, therefore, different for federal and state purposes. This difference will remain until the asset is fully depreciated or until the time of its disposition.

So, in this example, the asset was acquired in January 2009 at a purchase price of \$120,000. This normally would have a 25-year recovery period, but IRC Sec. 168 allows for a 15-year recovery period. Tax year 2012 is the last year ABC Company will have reported a qualified restaurant equipment addback until the end of the 15-year recovery period.

If this asset was sold before being fully depreciated, the catch-up modification would be reflected in the year of the sale. However, if this property is held through 2023 (the 15th year of depreciation), ABC Company will report a negative \$9,600 catch-up addback on their 2023 state tax return.

Certain Taxes Deducted from Federal Schedules C, C-EZ, E, and/or F (3-digit code: 100)

If you deducted from your federal return taxes based on or measured by income levied at any state level by any state of the United States, that amount must be added back here. If a unitary relationship exists with a partnership, include the proportionate share of the partnership's modifications provided under IC 6-3-1-3.5(b) (unapportioned).

Charitable Contributions (3-digit code: 114)

Add back all charitable contributions deducted when computing federal net taxable income.

Qualified Domestic Production Activities (3-digit code: 103)

Add back the amount claimed as a deduction for qualified domestic production activities under IRC Section 199 for federal income tax purposes.

Intangible Expenses (3-digit code: 115)

Add back the net result from IT-20 Schedule PIC Part 3(b). A corporation subject to the AGI tax must add to its taxable income any intangible expenses. It must also add any directly related intangible interest expenses paid, accrued, or incurred with one or more members of the same affiliated group or foreign corporation. A corporation answering yes to question U on the front of the return must complete IT-20 Schedule PIC on page 4 of the return.

The form and instructions are prescribed according to Emergency Rule LSA Document 2006 0726-IR-045060244ERA. IT-20 Schedule PIC and the instructions for how to complete it can be found in the section "Specific Instructions for Completing IT-20 Schedule PIC" on page 28 of this booklet.

The following definitions apply to corporations for the purpose of disclosing activities and amounts involving transactions of intangible property to the extent required under IC 6-3-2-20:

- **Affiliated group** has the meaning set forth in IRC Section 1504, except that the ownership percentage is determined using 50% instead of 80%.
- **Directly related intangible interest expenses** means interest expenses that are either paid to or accrued/ incurred as a liability to a recipient if:
 - The amounts represent income from making loans; and
 - The recipient originally received the loaned funds from the payment of intangible expenses by the taxpayer, by
 - A member of the same affiliated group, or by a foreign corporation.
- **Foreign corporation** means a corporation that:
 - Is organized under the laws of a country other than the United States; **and**
 - Would be a member of the same affiliated group as the taxpayer if the corporation were organized under the laws of the United States.

- **Intangible expense** means the following amounts, to the extent these amounts are allowed as deductions from taxable income under IRC Section 63: expenses; losses; and costs directly for, related to, or in connection with the acquisition, use, maintenance, management, ownership, sale, exchange, or any other disposition of intangible property. Also included in the term are royalties, patent fees, technical fees, copyright fees, licensing fees, and other substantially similar expenses and costs.
- **Interest expenses** means amounts allowed as deductions under IRC Section 163.
- **Makes a disclosure** means a taxpayer provides the following information about a transaction of a member of the same affiliated group or a foreign corporation involving an intangible expense and any directly related intangible interest expense: the recipient's name; the state of the recipient's commercial domicile; the amount paid to the recipient; a copy of federal Form 851 (Affiliation Schedule); and the information needed to determine the taxpayer's status under the allowed exceptions.
- **Recipient** means a member of the taxpayer's affiliated group who is paid income that corresponds to an intangible expense or any directly related intangible interest expense.
- **Unrelated party** means a person who is not a member of the same affiliated group.
- **Valid business purpose** means one or more transactions that have sufficient economic substance, other than the avoidance or reduction of taxes that, alone or in combination, constitute the primary motivation for a business activity or change the taxpayer's economic position in a meaningful way. A meaningful change in the taxpayer's economic position includes, but is not limited to:
 - An increase in market share;
 - Its entry into new business markets; or
 - Its compliance with a regulatory requirement of federal, state, or local government.

Dividends Paid to Shareholders of a Captive Real Estate Investment Trust (3-digit code: 116)

Add back the amount of any deduction for dividends paid to shareholders of a captive real estate investment trust (REIT). A captive REIT is defined as a corporation, a trust, or an association:

- That is considered a REIT under Section 856 of the Internal Revenue Code;
- That is not regularly traded on an established securities market;
- That is not organized in a country that has a tax treaty with the United States Treasury governing the tax treatment of these trusts; and
- In which more than 50% of the voting power or shares is owned or controlled by one entity.

Net Bonus Depreciation Allowance (3-digit code: 104)

Add or subtract an amount attributable to bonus depreciation. Do this if it's in excess of any regular depreciation allowed if you did not elect under IRC Section 168(k) to have it applied to property in the year the property was placed into service. If you own property, you might have been allowed to take additional first-year special depreciation for qualified property in the current taxable year or an earlier taxable year. If this is the case, you must add or subtract an amount that makes your AGI equal the amount computed without applying any bonus depreciation. (The first-year special depreciation for qualified property includes 50% bonus depreciation.) You must calculate the subsequent depreciation allowance on the state's stepped-up basis until you dispose of the property. Enclose a statement or complete Schedule H to explain the adjustment you are making.

Example: You took the IRC Section 179 deduction on business equipment acquired during 2014. It cost \$200,000. The capital expensing deduction was \$100,000 with a remaining basis of \$100,000. You took an additional 50% bonus depreciation of \$50,000. This left a basis of \$50,000 for a five-year Modified Accelerated Cost Recovery System (MACRS) property (half-year convention) depreciation deduction of 20%. This deduction was therefore \$10,000. The total amount of the federal deduction was therefore \$160,000.

For state purposes, the bonus depreciation of \$50,000 was not allowed. So, it must be added back. The IRC Section 179 deduction was capped at \$25,000. So, the \$75,000 excess amount must be added back. These adjustments result in a stepped-up basis of \$175,000 for the state return. Use this amount to figure the allowable first-year MACRS property depreciation deduction of 20% for 2014. (It's \$35,000.) This was a total state deduction of \$25,000 more than what was already deducted under the general depreciation system (GDS). In later years, you can exclude the additional depreciation from the amounts to be added back. Or you can exclude it when you use excess IRC Section 179 deduction or bonus depreciation.

Commissioner's Directive #19 (www.in.gov/dor/3617.htm) explains this initial required modification on the allowance of depreciation for state tax purposes.

Excess IRC Section 179 Deduction (3-digit code: 105)

Add back your share of the IRC Section 179 adjustment claimed for federal tax purposes that exceeds the amount recognized for state tax purposes.

Indiana adopted the former expensing limit provided by The Jobs Creation and Workers Assistance Act of 2002. The state has since specified an expensing cap of \$25,000. This modification affects the basis of a property if a higher Section 179 limit was applied. The increase to a \$100,000 deduction was not allowed for purposes of calculating Indiana AGI. However, the beginning \$400,000 was allowed for purposes of calculating Indiana AGI. You must adjust the depreciation allowances in the year of purchase and later years to reflect the additional first-year depreciation deduction until you sell the property. The additional

first-year depreciation deduction includes the special depreciation allowance for 50% bonus depreciation property.

The AGI of a corporation that placed any IRC Section 179 property in service in the current taxable year or an earlier year must equal the AGI that would have been computed if deductions had not been taken for the year in which the property was placed in service (as defined in IRC Section 179) in a total exceeding \$25,000. Thus, you must add or subtract an amount that makes these two figures equal.

Enclose a statement or complete Schedule H on page 4 of the return to explain the adjustment.

Note: If the net amount determined for the net bonus depreciation allowance or excess IRC Section 179 deduction is a negative figure because of a higher depreciation basis in subsequent years, use a minus sign to denote the negative amount. If the taxable income is a loss, this adjustment increases a loss when added back.

U.S. Interest (3-digit code: 610)

Deduct the interest or any proportionate share of interest from U.S. government obligations included on the federal income tax return, Form 1120, and Form 1065 (if a unitary relationship exists). However, this is not a total exclusion. You must first deduct all related expenses from the exempt dividend or interest income. These expenses are limited to the amount of income each obligation generates.

For a list of eligible items, refer to Income Tax Information Bulletin #19 at www.in.gov/dor/3650.htm.

Foreign Gross-Up (3-digit code: 119)

Deduct the amount of foreign gross-up determined by computing the federal foreign tax credit on Form 1118. This should be reflected on federal Schedule C. **Note:** The federal foreign tax credit is not allowed for Indiana income tax purposes.

Qualified Patents Income (3-digit code: 622)

Deduct the amount of income from qualified patents included in federal taxable income. For tax years beginning after Dec. 31, 2008, this income is exempt from Indiana AGI. For more information, get Income Tax Information Bulletin #104, online at www.in.gov/dor/3650.htm.

Deferral of Business Indebtedness Discharge and Reacquisition (3-digit code: 107)

Enter an amount equal to the amount claimed as a deferral of income arising from business indebtedness discharged in connection with the reacquisition after Dec. 31, 2008, and before Jan. 1, 2011, of an applicable debt instrument (as provided in Section 108(i) of the IRC), for federal income tax purposes.

Qualified Disaster Assistance Property (3-digit code: 110)

Add back the deduction for qualified disaster assistance property. Add or subtract an amount equal to the amount claimed as a deduction for the special allowance for qualified disaster assistance property under Section 168(n) of the IRC for federal income tax purposes.

Qualified Refinery Property (3-digit code: 111)

Add back the deduction for qualified refinery property. Enter an amount equal to the amount claimed as a deduction for expense costs for qualified refinery property under Section 179C of the IRC for federal income tax purposes.

Qualified Film or Television Production (3-digit code: 112)

Add back the deduction for qualified film or television production. Enter an amount equal to the amount claimed as a deduction for expense costs for qualified film or television production under Section 181 of the IRC for federal income tax purposes.

Qualified Preferred Stock (3-digit code: 113)

Add back the deduction for qualified preferred stock. Enter an amount equal to the amount claimed as a deduction for a loss from the sale or exchange of preferred stock that was treated as an ordinary loss under Section 301 of the Emergency Economic Stabilization Act of 2008 in the current taxable year or in an earlier taxable year. The stock must be preferred stock in one of the following:

- The Federal National Mortgage Association, established under the Federal National Mortgage Association Charter Act (12 U.S.C. 1716 et seq.); or
- The Federal Home Loan Mortgage Corporation, established under the Federal Home Loan Mortgage Corporation Act (12 U.S.C. 1451 et seq.).

Addback for Trade or Business Deductions Based on Employment of Unauthorized Alien (3-digit code: 132)

For taxable years beginning after June 30, 2011, add back the amount allowed under the IRC for wages, reimbursements, or other payments made for services provided in Indiana by a financial institution if the person was prohibited from being hired as an employee because the person was an unauthorized alien.

Addback of OOS Municipal Obligation Interest (3-digit code: 137)

Interest earned from a direct obligation of a state or political subdivision other than Indiana (out of state, or OOS) is taxable by Indiana if the obligation is acquired after Dec. 31, 2011. Interest earned from obligations held or acquired before Jan. 1, 2012, is not subject to Indiana income tax and should not be reported as an addback. **Note:** Interest earned from obligations of Puerto Rico, Guam, Virgin Islands, American Samoa, or Northern Mariana is not included in federal gross income and is exempt under federal law. There is no addback for interest earned on these obligations. For more information, see Information Bulletin #19 at www.in.gov/dor/3650.htm.

Line 11 - Modified Adjusted Gross Income

Enter the sum of income and modifications. Add/subtract lines 4 through 10. Use a minus sign to denote a negative amount.

Other Adjustments**Line 12 - Other Adjustments to Modified Adjusted Gross Income Deduction for Foreign Source Dividends**

IC 6-3-2-12 allows a deduction from AGI. It must be equal to the amount of the foreign source dividend included in the corporation's AGI for the tax year multiplied by one of the following percentages:

- 100% if the corporation including the foreign source dividend in its AGI owns stock. It must also possess at least 80% of the total combined voting power of all classes of stock of the foreign corporation from where the dividend is derived.
- 85% if the corporation including the foreign source dividend in its AGI owns stock. It must also possess at least 50% but less than 80% of the total combined voting power of all classes of stock of the foreign corporation from where the dividend is derived.
- 50% if the corporation including the foreign source dividend in its AGI owns stock. It must also possess less than 50% of the total combined voting power of all classes of stock of the foreign corporation from where the dividend is derived.

Complete the Foreign Source Dividends Worksheet on page 4 of the return.

You can deduct any excess non-unitary foreign dividend on Schedule F. The term **foreign source dividend** means a dividend from a foreign corporation. It includes any amount a taxpayer is required to include in its gross income for a tax year under Section 951 of the Internal Revenue Code (Subpart F, controlled foreign corporations). The Indiana foreign source dividend deduction is based on "foreign source dividends" after the federal special deductions. Do not include any amount treated as a dividend under Section 78 of the IRC. Refer to Indiana Income Tax Information Bulletin #78 at www.in.gov/dor/3650.htm for more information.

Deduction for Lottery Games Prize Money

A portion of prize money received from purchasing a winning Indiana lottery game or ticket included in federal taxable income should be excluded. The proceeds of up to \$1,200 are deductible from each winning lottery game or ticket paid through Hoosier State Lottery Commission.

Use Schedule H (page 4 of the return) to include additional explanation of amounts entered on the return. Itemize each entry by schedule, line number, and amount. Subtotal each applicable entry.

Line 23 - Adjusted Gross Income Tax

If you qualify as an MBEA taxpayer under IC 6-3-2-1.5, complete Schedule M. Also check the alternate tax rate calculation box on line 23. Enter your total computed AGI tax. If you paid your insurance gross premium tax, enter zero (0).

Line 24 - Sales/Use Tax

IC 6-2.5-3-2 imposes a use tax on the use, storage, and consumption of tangible personal property in Indiana if:

- The property was purchased or rented in a retail transaction, wherever located; and
- Sales tax was not paid.

The use tax rate is 7%. If you have purchased taxable items from outside of Indiana, through the mail (for instance, by catalog or an offer through the mail), through radio or television advertising, and/or over the Internet, these purchases may be subject to Indiana sales and use tax if you did not pay sales tax at the time of purchase.

Examples of taxable items include

- Magazine subscriptions;
- Office supplies;
- Electronic components; and
- Rental equipment.

Any property that is purchased free of tax, by use of an exemption certificate or from out of state, and converted to a nonexempt use by the business is also subject to the use tax.

Use tax is computed on an annual basis. It should be reported on this line if not previously reported on Form ST103. For more information regarding use tax, call (317) 232-0129.

Complete the worksheet on page 32 to figure your tax. If you paid sales tax to the state where the item was originally purchased, you can take a credit against your Indiana use tax for an amount up to 7%. Show this credit on the worksheet.

Carry the total calculated sales/use tax due to line 24 on the return. **Caution:** Do not report your totals from ST-103 on this worksheet or on Form IT-20.

Nonrefundable Tax Liability Credits

Nonrefundable credits are limited to the amount of AGI tax. These credits, when combined, cannot be greater than the amount shown on Form IT-20 line 23. If the total of your credits

is more than your AGI (line 23), you must adjust the entries by recalculating the credits to the amounts you can apply on lines 25b through 31b. You must also enclose the supporting schedule(s) and/or documentation requested for each credit claimed. See the following example.

Example - The line 25b college credit of \$1,000 plus the line 26b credit for research expense of \$25,000 equals \$26,000 total credit. Your line 23 AGI tax is \$16,000. Because your combined credits are \$10,000 more than your state tax liability, you must reduce the total amount of credits applied (in this case, the \$25,000 research credit) by enclosing an explanation showing your calculations. Some credits have provisions that allow you to carry forward the unused portion and apply it the following year.

Line 25 - College and University Contribution Credit

A corporate taxpayer might be able to compute a credit against its income tax liability if it made a charitable contribution to one of the following:

- A college located within Indiana;
- A university located within Indiana; or
- A corporation or foundation organized for the benefit of a post-secondary educational institution located within Indiana.

Compute this credit on Schedule CC-20 (page 4 of the return). Get Income Tax Information Bulletin #14 for a list of eligible institutions (www.in.gov/dor/3650.htm).

Limitation for this credit: A corporation is allowed a tax credit for contributions to qualified Indiana institutions equal to 50% of the amount of money or property contributed, limited to the lesser of:

- Ten% of the corporation's AGI tax for the year when the gifts are made (computed without regard to any credits against the tax); or
- \$1,000.

To claim this credit, complete Schedule CC-20 (page 4 of Form IT-20). Or you can enclose College Credit, Schedule CC-40 (enclosure sequence #8) with your return. Enter the amount of allowable credit on line 25b. For more information and to get Schedule CC-40, go to the department's website at www.in.gov/dor/5175.htm.

Line 26 - Indiana Research Expense Credit

Indiana has a research expense credit that is similar to the federal credit (Form 6765). This credit is for increasing research activities for qualifying expenses paid in carrying on a trade or business in Indiana. Compute the state credit by using Schedule IT-20REC. Claim this credit on line 26b of the return, and enclose Schedule IT-20REC with your return. To claim a portion of a prior-year Indiana Research Expense Credit, please include the IT-20REC from the prior year being utilized.

Go to www.in.gov/dor/4879.htm to get Schedule IT-20 REC. You can also contact the department at www.in.gov/dor for more information.

Line 27 - Enterprise Zone Employment Expense Credit

This credit is based on qualified investments made within an Indiana enterprise zone. It is the lesser of 10% of qualifying wages or \$1,500 per qualified employee. It is limited to the amount of your tax liability on income derived from an enterprise zone. See "About Enterprise Zone Tax Credits" on page 35.

For more information, get Income Tax Information Bulletin #66 at www.in.gov/dor/3650.htm and Indiana Schedule EZ, Parts 1, 2 and 3 at www.in.gov/dor/3515.htm. Line 28 - Enterprise Zone Loan Interest Credit

This credit is for up to 5% of the interest you receive from all qualified loans made during a tax year for use in an Indiana enterprise zone. See "About Enterprise Zone Tax Credits" on page 35.

For more information, get Income Tax Information Bulletin #66 at www.in.gov/dor/3650.htm and Indiana Schedule LIC at www.in.gov/dor/3515.htm. Claim the enterprise zone loan interest tax credit on line 28b, and enclose Schedule LIC with your return.

Lines 29 - 31 - Other Nonrefundable Credits

You might be eligible to claim other tax liability reduction credits. You can separately claim any other credit you qualify for on lines 29 - 31. Each of the following credits is assigned a three-digit code.

If you are claiming any credits on Schedule IN-OCC, enter the total of those credits on line 29 and enclose Schedule IN-OCC with your return.

When claiming the credits on lines 30 and 31, enter the name of each credit, its three-digit code, and the amount claimed. See the following examples and the list of About Other Tax Liability Credits on page 35. Also see Income Tax Information Bulletin #59 at www.in.gov/dor/3650.htm for more information about Indiana tax credits.

Examples - Enter the following information on line 30 to claim a \$1,000 alternative fuel vehicle manufacturer credit on line 30. Then claim a \$500 neighborhood assistance credit on line 31:

Line 30: Alternative Fuel Vehicle Manufacturer

Line 30a: 8 4 5

Line 30b: \$1,000

Line 31: Neighborhood Assistance

Line 31a: 8 2 8

Line 31b: \$500

If you have more credits to claim, enter the information in the space to the left of line 32. Increase line 32 by the amount of your additional credit(s). Also enter a detailed explanation on Schedule H (page 4 of the return).

- Industrial recovery credit;
- Maternity home credit;
- Riverboat building credit; and
- Small employer qualified wellness program credit.

Restriction for Certain Tax Credits – Limited to One per Project

Within a certain group of credits, a taxpayer may not be granted more than one credit for the same project. You can choose the credit to be applied. However, you are not permitted to change the credit selected or redirect the investment for a different credit in subsequent years. See Commissioner's Directive #29 at www.in.gov/dor/3617.htm for more information.

Six credits are included in this group:

- Alternative fuel vehicle manufacturer credit;
- Community revitalization enhancement district credit;
- Enterprise zone investment cost credit;
- Hoosier business investment credit;
- Industrial recovery credit; and
- Venture capital investment credit.

Apply this restriction first when figuring your credits.

- College and university contribution credit;
- Indiana CollegeChoice 529 Savings Plan credit;
- Prison investment credit;
- School scholarship credit; and
- Twenty-First Century Scholars credit.

Next, use the credits that can be carried over for a limited number of years and applied against your state AGI. These credits include

- Enterprise zone loan interest credit;
- Headquarters relocation credit;
- Historic building rehabilitation credit;

Enter the penalty for the underpayment of estimated corporate income tax from Schedule IT-2220. Enclose a completed copy of this schedule even if you meet an exception to the underpayment penalty. Corporations required to make quarterly estimated payments can use the annualized income installment method calculated in the manner provided by IRC Section 6655(e) as applied to the corporation's AGI tax liability. If using this method, please check the box on this line. Also enclose a copy of your calculations when filing your tax return. The department will review each request on a case-by-case basis.

Line 43 - Interest

If you make a payment after the original due date, you must include interest with your payment. Interest is calculated from the original due date until the date the payment is made. Contact the department for the current interest rate by calling (317) 232-0129. You can also get Departmental Notice #3 at www.in.gov/dor/3618.htm.

Line 44 - Late Payment Penalty

Enter the penalty amount that applies:

- A. If the return with payment is filed after the original due date, a penalty must be entered. The penalty is the greater of \$5 or 10% of the balance of tax due. The penalty for paying late is not imposed if all three of the following conditions are met:
 - A valid extension of time to file exists;
 - At least 90% of the tax liability was paid by the original due date; and
 - The remaining tax is paid by the extended due date.
- B. If the return showing no tax liability (lines 23 and 24) is filed late, the penalty for failure to file by the due date is \$10 per day that the return is past due, up to a maximum of \$250.

Line 45 - Total Amount Owed

Line 46 - Overpayment

If the corporation has overpaid its tax liability, enter the result of line 40 minus lines 33, 42, and 44.

Line 47 - Refund

Enter the amount of overpayment you are requesting as a direct refund.

Line 48 - Overpayment Credit

Note: If the overpayment is reduced because of an error on the return or an adjustment by the department, the amount refunded (line 47) will be corrected before any changes are made to the amount on line 48. A refund may be applied to other liabilities as provided under IC 6-8.1-9-2(a) and 6-8.1-9.5.

Schedule M for line 23 - Alternate Adjusted Gross Income Tax Calculation

Use this schedule to attribute income subject to a reduced tax rate that is derived from sources both within and outside a Qualified Military Base Enhancement Area (MBEA) in Indiana. Calculate tax due on total Indiana taxable income.

To be eligible for the tax rate of 5%, the corporation must locate all or part of its operations in a qualified MBEA. A qualified area means:

- (1) A military base (as defined in IC 36-7-30-1(c));
- (2) A military base reuse area established under IC 36-7-30;
- (3) The part of an economic development area established under IC 36-7-14.5-12.5 that is or formerly was a military base (as defined in IC 36-7-30-1(c));
- (4) A qualified MBEA(s) established under IC 36-7-34, located in Indiana.

First Tax Year of Application: _____ (The alternate tax rate application applies to the taxable year in which the corporation locates or expands its operations in the qualified area and to the next succeeding four taxable years.)

Indicate name of designated military base area(s) and the extent of qualifying business operations within each area:

Apply the following procedure to determine the part of a corporation's taxable adjusted gross income that was derived from sources within a qualified area(s):

Caution: A taxpayer is not entitled to the alternate reduced tax rate if the taxpayer substantially reduces or ceases its operations at another location in Indiana in order to relocate its operations within the qualified area, unless the taxpayer had existing operations in the qualified area and the operations relocated to the qualified area are an expansion of the taxpayer's operations in the qualified area. A determination made by the Department of Revenue that a taxpayer is not entitled to the alternate reduced tax rate as a result of a reduction or cessation of operations applies to the taxable year in which the substantial reduction or cessation occurs and in all subsequent years.

Specific Instructions for Completing IT-20 Schedule E

Use of Apportionment Schedule

Under the Adjusted Gross Income Tax Act, taxable income from a trade or business carried on within and outside Indiana is now figured using a single-factor formula based on sales. For more information, get Income Tax Information Bulletin #12 at www.in.gov/dor/3650.htm.

Note: *Interstate transportation corporations should consult Schedule E-7 for details on apportionment of income. You can get this schedule at www.in.gov/dor/4879.htm.*

Part I - Apportionment of Adjusted Gross Income

Sales/Receipts: The sales factor is a fraction. The numerator is the total receipts of the taxpayer in Indiana during the tax year. The denominator is the total receipts of the taxpayer everywhere during the tax year.

The numerator of the receipts factor must include the following:

- All sales made in Indiana;
- All sales made from Indiana to the U.S. government; and
- All sales made from Indiana to a state not having jurisdiction to tax the activities of the seller.

Destination sales to locations outside Indiana by an Indiana seller that has activities in the state of destination, other than mere solicitation, are not included in the numerator of the sales factor regardless of whether the destination state levies a tax. The numerator contains intangible income attributed to Indiana, including interest from consumer and commercial loans, installment sales contracts, and credit and debit cards as prescribed under IC 6-3-2-2.2.

Total receipts include gross sales of real and tangible personal property less returns and allowances. Sales of tangible personal property are in Indiana if the property is delivered or shipped to a purchaser within Indiana regardless of the f.o.b. point or other conditions of sale or if the property is shipped from an office, a store, a warehouse, a factory, or another place of storage in Indiana, and the taxpayer is not subject to tax in the state of the purchaser.

Sales or receipts not specifically assigned above shall be assigned as follows:

- (1) Gross receipts from the sale, rental, or lease of real property are in Indiana if the real property is located in Indiana;
- (2) Gross receipts from the rental, lease, or licensing of the use of tangible personal property are in Indiana if the property is in Indiana. If property was both within and outside Indiana during the tax year, the gross receipts are considered in Indiana to the extent the property was used in Indiana;

- (3) Gross receipts from intangible personal property are in Indiana if the taxpayer has economic presence in Indiana and such property has not acquired business sites elsewhere.

Interest income and other receipts from loans or installment sales contracts that are primarily secured by or deal with real or tangible personal property are attributed to Indiana if the security or sale property is located in Indiana; consumer loans not secured by real or tangible personal property are attributed to Indiana if the loan is made to an Indiana resident; and commercial loans and installment obligations not secured by real or tangible personal property are attributed to Indiana if the proceeds of the loan are applied in Indiana.

Interest income, merchant discounts, travel and entertainment credit card receivables, and credit card holder's fees are attributed to the state where the card charges and fees are regularly billed.

Receipts from the performance of fiduciary and other services are attributed to the state where the benefits of the services are consumed. Receipts from the issuance of traveler's checks, money orders, or United States savings bonds are attributed to the state where those items are purchased.

Receipts in the form of dividends from investments are attributed to Indiana if the taxpayer's commercial domicile is in Indiana; and

- (4) Gross receipts from the performance of services are in Indiana if the services are performed in Indiana. If such services are performed partly within and partly outside Indiana, a portion of the gross receipts from performance of the services shall be attributed to Indiana based on the ratio the direct costs incurred in Indiana bear to the total direct costs of the services, unless the services are otherwise directly attributed to Indiana according to IC 6-3-2-2.2.

Sales to the United States Government: The United States government is the purchaser when it makes direct payment to the seller. A sale to the United States government of tangible personal property is in Indiana if it is shipped from an office, a store, a warehouse, or another place of storage in Indiana. See the previous rules for sales other than tangible personal property if such sales are made to the United States government.

Other Gross Receipts: On line 6, report other gross business receipts not included elsewhere and pro rata gross receipts from all unitary partnerships, excluding from the factors the portion of distributive share income derived from a previously apportioned partnership [45 IAC 3.1-1-153(b)].

On line 7, report direct premiums and annuity considerations received during the taxable year for insurance upon property or risks in Indiana. The terms *direct premiums and annuity considerations* mean the gross premiums received from direct business as reported in the corporation's annual statement filed with the Department of Insurance.

Total Receipts: Complete all lines as indicated. Add all the receipts in Column A (lines 1A through 7A), and enter the total on line 8A. In addition, enter the total receipts everywhere on line 8B.

Apportionment of Income for Indiana

Divide line 8A by line 8B. (Multiply by 100 to arrive at a percentage rounded to the nearest second decimal place.) This is your average Indiana apportionment percentage; carry it to the apportionment entry line on the return (line 16d on IT-20, line 4 on IT-20S, line 9 on IT-20NP, and line 4 on IT-65).

The department will not accept returns filed for AGI tax purposes using the separate accounting method. IT-20 Schedule E must be used unless the department has granted written permission. The term *everywhere* does not include sales of a foreign corporation in a place outside the United States. Refer to 45 IAC 3.1-1-153 for tax treatment of unitary corporate partners.

Caution: Corporations can petition the department for permission to file under the combined unitary tax method. This petition must be submitted within 30 days following the close of the tax year. If approved, you must figure the apportionment for members of a combined group and file it to properly determine each entity's share of the combined group's Indiana AGI. Use the relative apportionment method as outlined in Tax Policy Directive #6, which is available online (www.in.gov/dor/3661.htm).

Part II - Business/Other Income Questionnaire

Complete all applicable questions in this section. If income is apportioned, list:

- (a) All business locations where the corporation has operations;
- (b) The nature of the business activity at each location, including whether a location
- (c) Accepts orders in that state;
- (d) Is registered to do business in that state; or
- (e) Files income tax returns in other states;
- (f) Whether the property in the other states is leased; and
- (g) Whether the property in the other states is owned.

You must enclose the completed Schedule E, Apportionment of Income, with your return.

Specific Instructions for Completing IT-20 Schedule PIC

Complete all information requested. Report transactions with any member(s) of the same affiliated group (50% ownership threshold) or foreign corporation(s) involving an intangible expense. Also report any directly related intangible interest expense paid, accrued, or incurred within one or more members

of the same affiliated group or one or more foreign corporations. Enclose additional sheets as necessary.

Explain on Schedule H (page 4 of the return) or by addendum each allowable deduction that meets an exception to the addback requirements for disclosures. These are included in the transactions listed for Part 2. You must provide documentation that meets one or more of the allowable exceptions to support your deduction. If you're filing a consolidated federal return, you must enclose Form 851 (Affiliations Schedule).

Part 1 - Exceptions to the Add Back of the Deduction under IC 6-3-2-20(c)

Check the box if any of these conditions applies:

- The taxpayer and all intangible income recipients, for the purposes of the addback requirement for line 6b of the return, are included in the same consolidated or combined Indiana return;
- An agreement is on file with the department allowing an alternative method of allocation or apportionment under the adjusted gross income tax statute; or
- The department has determined, after the taxpayer's petition, that the adjustment of Part 3 (a) and (b) is unnecessary.

By checking a box, you declare that the corporation is not required to finish this schedule beyond completing Part 2 and enclosing federal Form 851 with the return.

Part 2 - Related Transactions of Intangible Property

Provide the following information on all related transactions made with a recipient member of the same affiliated group or a foreign corporation involving an intangible expense and any directly related intangible interest expense.

Use additional sheets as necessary to complete this part:

- List the recipient's name and the federal identification number of each member of the same affiliated group or a foreign corporation regarding transactions involving an intangible expense and any directly related intangible interest expense;
- Indicate the recipient's state or country of commercial domicile;
- Indicate the relationship or exception status with the taxpayer and the type of intangible expense deducted; and
- List the total amount paid to each recipient. This should be listed as an item of income that corresponds to an intangible expense or any directly related intangible interest expense. Do this for all related transactions made with each member(s) of the same affiliated group or a foreign corporation(s).

Total the amounts paid to all recipients listed in Part 2, deducted from federal taxable income, as intangible expenses and directly related intangible interest expenses.

Enclose a copy of federal Form 851 (Affiliation Schedule) if filing a consolidated federal return. Also enclose any other information necessary to determine your status under the allowed exceptions listed in Part 3.

Part 3 - Amount of Deduction to Add Back

You must enclose specific supporting documentation for any transaction that relates to one or more of the designated exceptions.

You must specify that it has a valid business purpose that substantially sustains the transactions. You can do this with a preponderance of evidence for the transactions listed in Part 2 and certified as excludable in Part 3(a). For the exceptions to the addback, the transaction causing the expenses must have been made:

- At a commercially reasonable rate; or
- At terms comparable to an arm's length transaction, if the expenses meet the arm's length standards of United States Treasury Regulation 1.482-1(b).

The expense might not be made at a commercially reasonable rate or at terms comparable to an arm's length transaction. In that case, the addback required must be made only to the extent necessary to cause the expense to be at a commercially reasonable rate or at terms comparable to an arm's length transaction:

- Intangible expenses or any directly related intangible interest expenses otherwise required in a taxable year for line 6b do not have to be added if one or more of the following apply to transactions made with a member of an affiliated group or a foreign corporation:
- The recipient regularly conducts transactions involving intangible property with one or more unrelated parties on terms substantially similar to those of the subject transaction.
- The payment was received from an unrelated party, and on behalf of that unrelated party, paid that amount to the recipient in an arm's length transaction.
- The recipient paid, accrued, or incurred a liability to an unrelated party during the taxable year for an equal or greater amount that was directly for, related to, or in connection with the same intangible property giving rise to the intangible expense.
- The items of income corresponding to the intangible expenses and any directly related intangible interest expenses were included within the recipient's income that is subject to tax in another state or a country other than the United States. That state or country must be the recipient's commercial domicile and must impose a net income tax, a franchise tax measured by income, or a value added tax.
- The recipient is engaged in substantial business activities from the acquisition, use, licensing, maintenance, management, ownership, sale, exchange, or any other disposition of intangible property, or other substantial business activities separate and apart from the business activities described above as evidenced by the maintenance of a permanent office space and an adequate number of full-time, experienced employees.

(a) **Total amount of exceptions:** Enter an amount equal to all the amounts that qualify under one or more of the above exceptions.

(b) **Net amount to add back:** Subtract 3(a) from Part 2 total. Enter the net amount, and then carry this amount to lines 4 - 10 of the return.

You must enclose specific supporting documentation for the transaction that relates to one or more of the designated exceptions.

Specific Instructions for Completing IT-20 Schedule F

Allocation of Nonbusiness Income and Indiana Non-unitary Partnership Income

The critical elements in determining whether income is "business income" or "nonbusiness income" are the transactions and activities that make up a particular trade or business. In general, all of the taxpayer's transactions and activities that are dependent on or contribute to the operations of the taxpayer's economic enterprise as a whole constitute the taxpayer's trade or business and are classified as business income.

With partnership income, the relationship between the corporate partner and the partnership controls the classification. If a unitary relationship exists, the corporate partner includes its share of the partnership's sales in the computation of business income apportioned to Indiana.

Nonbusiness Income is defined as all income not properly classified as business income. Some examples of nonbusiness income include (but are not limited to):

- Dividends from stock held for investment purposes only;
- Interest on a portfolio of interest-bearing securities held for investment purposes only; and
- Capital gains or losses from the sale of property held for investment purposes only.

Note: Partnership distributions included in federal taxable income derived from a partnership not having a unitary relationship with a corporate partner (taxpayer) are reported on line 9, column C. All non-unitary partnership distributions attributed to Indiana must be entered on line 9, column D for Indiana AGI. These include the apportioned share of the partnerships, state income taxes, and charitable contributions.

Likewise, any previously apportioned income, including distributions from tiered partnerships, is treated as allocated income and is reported on line 9, column C. This is not part of the tax base of apportioned business income.

The taxpayer's pro rata portion of such income and modifications that were previously attributed to Indiana are carried to line 9, column D. The total on line 9D is added to the corporation's nonbusiness income that is allocated to Indiana. It is also added

to any other business income apportioned to Indiana. These totals determine the taxpayer's total taxable income.

Line (1) Dividends from nonbusiness sources are allocated to Indiana if the commercial domicile is in Indiana. If a unitary relationship exists (or existed) between the taxpayer and the payer of the dividend, the income is generally treated as business income. Factors to consider in determining whether a unitary relationship exists are:

- The degree of control;
- Centralized operating functions;
- The economic benefits provided by the affiliate;
- Intercompany transfers of personnel;
- Common trademarks and patents; and
- The total sales between affiliated corporations.

Net dividends from an FSC or a DISC (after federal Schedule C deduction) are treated as business income and must be apportioned.

Line (2) Interest from nonbusiness sources is allocated to Indiana if the commercial domicile is in Indiana. Generally, interest earned from long-term investments is considered nonbusiness income. **Note:** The day-to-day operations of a business require an appropriate amount of liquid working capital. Therefore, income from short-term investments of temporarily idle cash and other liquid assets is business income. This includes interest from:

- Savings accounts;
- Checking accounts;
- Certificates of deposit;
- Commercial paper; and
- Other such items.

Line (3) Net capital gains or losses from the sale of nonbusiness intangible personal property are allocated to Indiana.

Net capital gains or losses from the sale or exchange of nonbusiness tangible personal property are allocated to Indiana if:

- The property had a location in Indiana at the time of the sale; or
- The taxpayer's commercial domicile is in Indiana and the taxpayer is not taxable in the state where the property is located.

Include net capital gains or losses from the sale or exchange of all real property not used in the production of business income.

Note: If the property sold was used previously by the business, the capital gain or loss from the transaction is business income.

Line (4) Rents and royalties from real property (to the extent they constitute nonbusiness income) are allocated to Indiana if the real property is located in Indiana. Rents and royalties from nonbusiness tangible personal property are allocated to Indiana to the extent the property is used in Indiana.

The extent of utilization is determined by multiplying the rents and royalties by the following fraction: The numerator is the number of days of the property's physical location in

Indiana during the rental or royalty periods in the tax year. The denominator is the number of days of the property's physical location everywhere during the rental or royalty periods in the tax year. Such rents and royalties are taxed by Indiana if

- The taxpayer's commercial domicile is in Indiana; and
- The taxpayer is not organized under the laws of or taxable in the state in which the property is used.

Line (5) Patents, copyrights, and royalties from intangible property are allocated to Indiana:

- To the extent the taxpayer uses the patent, copyright, or royalty in Indiana; or
- To the extent the taxpayer uses the patent, copyright, or royalty in a state where the taxpayer is not taxable and the taxpayer's commercial domicile is in Indiana.

A patent is used in a state to the extent it is employed in production or other processing in the state or to the extent the patented product is produced in the state.

A copyright is used in a state to the extent printing or other publication originated in the state.

Line (6) Other Nonbusiness Income: Enter other nonbusiness income not included on lines (1) through (5) and line (9).

Line (7) Total Nonbusiness Income: Enter the gross amount subtotals from lines (1) through (6), column A.

Line (8) Total Related Expenses: Add the subtotals of all related nonbusiness expenses attributed to excluded income from lines (1) through (6), column B.

Line (9) Distributive Share Income from non-unitary partnerships and tiered partnerships: In column C, enter the total non-unitary partnership and tiered partnership income reported on the federal return. In column D, enter the modified apportioned Indiana income from Form IT-65 Schedule IN K-1. Also enter any portion of tiered partnership income attributed to Indiana in this column.

Line (10) Total Net Nonbusiness Income (loss): Add all the subtotals from column C. Enter the amount of column C on line 14 of Form IT-20.

Line (11) Total Indiana Nonbusiness Income and Indiana non-unitary partnership income: Add all the subtotals from column D. Enter the amount of column D on line 18 of Form IT-20.

Specific Instructions for Completing Schedule IT-2220

Who Should File?

Schedule IT-2220 must be completed and enclosed with corporate Form IT-20, IT-20S, or IT-20NP anytime the corporation did not pay the required amount of AGI tax in any particular quarter. It

also must be completed if the corporation meets an exception to the penalty for underpayment as provided for in Indiana Code 6-3-4-4.1.

What Is the Required Amount?

The qualified estimated payments should equal 25% of the total income tax due for the year. To avoid the penalty, the quarterly estimate must equal at least 25% of the final income tax liability for the prior taxable year.

Corporations having annual income tax liabilities exceeding \$2,500 are subject to an underpayment penalty if:

- They fail to file estimated tax payments; or
- They fail to remit a sufficient amount on a quarterly basis.

Quarterly payments are due whenever the AGI tax liability exceeds \$2,500 for a taxable year.

PART I - How to Figure Underpayment of Corporate Taxes

This schedule must be used by Form IT-20, IT-20S, and IT-20NP filers to determine whether the minimum amount of tax was paid timely.

1. Enter the total Indiana AGI tax for your taxable year from Form IT-20, IT-20S, or IT-20NP.

2. Enter your total tax reduction (nonrefundable) credits (college credit, neighborhood assistance credit, and so on) reported on Form IT-20 or IT-20NP. **Do not** enter estimated tax payments, extension payments, or prior year's overpayment credit. The total of the tax reduction credits can never exceed the total tax on line 1.

3. Subtract line 2 from line 1. This is your current year's tax liability. If it is zero, STOP. You do not owe any underpayment penalty.

PART II - How to Figure Exception to Underpayment Penalty

IC 6-3-4-4.1(c) states that every corporation subject to AGI is required to report and pay an estimated tax equal to the lesser of:

- 25% of the corporation's estimated adjusted gross income tax liability for the taxable year; or
- The annualized income installment calculated in the manner provided by Section 6655(e) of the Internal Revenue Code as applied to the corporation's liability for AGI tax.

Special Note for Final Short- or Fiscal-Year Filers: If your previous year was for a period of less than 12 months, you might be able to meet the exception by demonstrating what the liability would have been if you had filed a 12-month return. For example, if your previous year was for 6 months, double the total tax for that year. Then enter 25% of this total. If last year's tax was zero, enter zero on line 9.

4. Enter the proportional amount of your prior year's final income tax liability. This should be calculated before applying estimated tax credits (total tax less nonrefundable credits and any withholding and other tax credits). It should also be relative to the number of months in the current taxable period. For a short-period filer, the entry on line 4 should be equal to the prior year's income tax liability multiplied by a ratio of the months in the current taxable period.

5. Enter in columns (a) through (d) the quarterly installment due dates corresponding to the estimated income tax payments for your tax year. If filing on a calendar-year basis, the installment due dates for corporate income tax payments are April 20, June 20, Sept. 20, and Dec. 20 of the taxable year. Fiscal-year and short-year filers must remit by the 20th day of the fourth, sixth, ninth, and twelfth months of their taxable years. Short-period filers see the note following line 18's instructions.

6. Enter the amount of estimated income tax paid by the due date of the installment for each quarter. Payments made after the quarterly due date must be reported in the following quarter when paid. You can carry forward an overpayment credit from the previous year. If you're doing this, add that amount to the installment amount paid for the first available quarter to which the carryover credit is posted. Do not include any credits claimed on line 2. **STOP.** Complete lines 9 through 12 in each column before proceeding to the next line.

7. Enter the remaining overpayment, if any, from line 10 of the preceding quarter. This should be the amount adjusted after deducting any previous underpayment balance.

9. Divide line 4 by 4 or the number of quarters in the taxable period. The divisor cannot be less than one. Enter the result in each column. **NOTE:** Short-period filers must apply the instructions following line 16's instructions.

10. Subtract line 9 from line 8 for each column. If line 8 is less than line 9, use a minus sign to denote the resulting underpayment. If line 9 is equal to or greater than line 8, the difference is an overpayment. You have therefore met an exception to the penalty for the quarter. See the instructions for line 7.

After you complete all four columns, if none of the quarters shows an underpayment, stop here and enclose this schedule with your return. Otherwise, proceed to Part III to recalculate your actual underpayment.

PART III - How to Figure the Penalty

The penalty for the underpayment of estimated taxes is assessed on a quarterly basis. It is based on the difference between the amount paid for each quarter and 25% of the final tax liability for the current year. **If any underpayment is shown on line 10, continue by completing lines 11 through 15 in each column. Then proceed to the next column.**

11. Enter the remaining overpayment, if any, from line 14 of the preceding quarter. This amount should have any previous underpayment balance deducted from it.

13. Enter the current year's quarterly tax due. Figure this by dividing line 3 in Part I by the number of quarters in the taxable period. The divisor cannot be less than 1. Enter the result in each column. See the note for short-period filers.

14. Subtract line 13 from line 12. If line 12 is less than line 13, enter the resulting underpayment and use a minus sign to denote the negative amount. If line 12 is greater than line 13, carry the difference as an overpayment to line 11 of the next column. Before doing this, though, deduct any remaining underpayments shown on line 14 of the preceding columns.

15. Multiply the amount of underpayment on line 14 for each column by 10% if an exception to the penalty for the quarter was not met on line 10. Enter zero on line 15 if line 10 is zero or greater for the quarter.

16. Add the amounts on line 15 for all quarters, and enter the result. This is your total underpayment penalty due. Carry this amount to the appropriate line on the front of Form IT-20, IT-20NP, or IT-20S.

Short-Period Returns: Lines 9 and 13 must be changed to correspond with your short-period estimated return. Do not enter 25% of line 3 or 6. Instead, divide lines 3 and 6 by 3 for returns consisting of three full quarterly periods. Divide lines 3 and 6 by 2 for returns consisting of two full quarterly periods. Use the entire amount from lines 3 and 6 for returns consisting of one, or less than one, quarterly period. For lines 7 through 16, complete only those columns corresponding with the number of full quarters being filed.

Instructions for Schedule IT-20NOL

Indiana Net Operating Loss Deduction

Public Law 81-2004 amends IC 6-3-2-2.6 to provide a net operating loss (NOL) deduction from Indiana AGI after adding back any other NOL deductions taken pursuant to IRC Section 172. If a separately recalculated NOL remains, following state modification and federal carryback and carryforward guidelines, the Indiana NOL is deductible in full. The amount of the unused Indiana balance is available for the following year. **Note:** The net operating loss carryback for corporations has been eliminated (IC 6-3-2-2.6).

All loss years ending after Jan. 1, 2004, and preexisting NOLs carried over to a taxable year after this date must be recalculated by applying the amended provisions of this act.

Deductions for NOLs that were incurred in taxable years ending before Jan. 1, 2004, and carried back or forward and deducted in taxable years ending before Jan. 1, 2004, are calculated under the law in effect for the year the NOL was incurred.

Who Should File Schedule IT-20NOL?

When claiming the loss deduction, corporate taxpayers and nonprofit organizations subject to the AGI tax and having an NOL must complete and enclose this schedule with any Indiana corporation tax return:

- IT-20;
- IT-20NP; or
- IT-20X.

Schedule IT-20NOL is not in itself a claim for refund, but an attachment to show how much of the Indiana NOL deduction is applied and available to carry over. Corporations doing business as financial institutions may not use this schedule. Those corporations must complete Schedule FIT-20NOL.

Enclose the completed Schedule IT-20NOL, Part 1, with your loss year return.

Whenever an NOL deduction is claimed, enclose a separately completed and recomputed NOL schedule of each loss year. Use revised Schedule IT-20NOL, update Part 2 as needed, and enclose a copy with your return(s).

Indiana Treatment of NOL Deduction for Adjusted Gross Income Tax Purposes

PL 81-2004, effective Jan. 1, 2004, provides for an NOL deduction from total Indiana AGI. This deduction is equal to the amount of a federal NOL, computed under IRC Section 172. It must be for the taxable year, be derived from sources within Indiana, and be adjusted for modifications required under IC 6-3-1-3.5. Modifications include:

- The addback of property taxes (for tax periods 1998 and before);
- Income taxes;
- Charitable contributions;

- The deduction of interest on U.S. government obligations; and
- A deduction for foreign gross-up.

Other state deductions (i.e., foreign source dividends) from AGI may not be used to compute available NOL.

Use your combined amounts if you're filing a consolidated return. Affiliated groups or corporations involved in mergers must follow the same guidelines as provided by the Internal Revenue Code and rulings issued by the IRS with respect to their treatment of NOL deductions. More than one Schedule IT-20NOL might be required to comply with these guidelines.

Carryover Years

Generally, to claim the Indiana NOL deduction, you must apply the same carryover treatment as used for federal purposes under IRC Section 172(b). **Note:** The net operating loss carryback for corporations has been eliminated per IC 6-3-2-2.6.

For loss years beginning before Aug. 6, 1997, the NOL deduction remaining can be carried forward to the 15 tax years following the loss year. (See Part II instructions.) Certain losses can be carried up to 20 years, following federal provisions.

Effective for tax years beginning after Aug. 5, 1997, excluding tax years ending in 2001 or 2002, federal legislation generally increased the carryforward period 20 years.

PART 1 - Computation of Indiana Net Operating Loss

Enter the tax year ending date of the loss year.

Line 1. Enter the amount of federal taxable income (loss), excluding any NOL deduction as defined in IRC Section 63, 511, 801, or 832. This is comparable to the amount, as last determined, reportable on line 3 of 2003-2011 Form IT-20, or line 1 of Form IT-20NP (without specific deduction).

Line references from prior years: use line 3 of Form IT-20, line 3 of Form IT-20SC, and line 6 of Form IT-20NP.

If the amount was previously adjusted because of an audit or amended return, enclose an explanation of how the income figure was calculated.

Note: A domestic insurance company can compute and carry over an NOL incurred from a loss year in which it was not subject to Indiana AGI tax.

Line 2. You must apply any applicable modification for an NOL as calculated under provisions of IRC Section 172(d) that affect AGI. Some of the federal adjustments related to an NOL include but are not limited to:

- A corporation cannot increase its current-year NOL by carrybacks or carryovers from other years. Capital losses are limited to net capital gains.

- The dividends-received deductions for dividends received from domestic and foreign corporations are computed without regard to the aggregate limits (based on federal taxable income) that normally apply under IRC Section 246(b). This also applies to dividends received on certain preferred stock of a public utility.
- The deduction for dividends paid on certain preferred stock of public utilities can be figured without limiting it to the federal taxable income for the year under IRC Section 247(a)(1)(B).

Adjusted Gross Income Modification for Loss Year

Enter figures from the loss year's return. Enter only the items included on lines 3 through 18, and use minus signs to denote negative amounts.

Line 3. Add back all state income taxes deductible on the federal return.

Line 4. Add back charitable contributions equal to the amount deducted on the federal return.

Line 5. Add back qualified domestic production activities deductions claimed under IRC Section 199 on the federal return. Also enter the addback amount from IT-20 Schedule PIC, Part 3(b), for intangible expenses and directly related intangible interest expenses used to reduce IRC Section 63 taxable income, effective July 1, 2006.

Line 6. Add back the amount of any deduction for dividends paid to shareholders of a captive real estate investment trust for taxable years beginning after Dec. 31, 2008.

Line 7. Add back or subtract an amount equal to the net bonus depreciation allowed under IRC Section 168(k) as reported for the taxable year. Also, add back an amount equal to the IRC Section 179 deduction taken for qualified property that exceeds the \$25,000 cap amount recognized for state purposes.

Line 8. Deduct the net interest that is exempt from state taxation and is included in federal taxable income.

Line 9. Deduct the foreign gross-up allowable under IRC Section 78 to the extent not eliminated on line 2.

Line 10. Deduct all income or loss classified as nonbusiness. Also deduct the previously apportioned or allocable partnership income that is included as part of federal AGI. The portion attributed to Indiana is added back on line 20. It is then used to arrive at the Indiana modified AGI or NOL. Other state adjustments from Indiana income, such as the foreign source dividends deduction (IC 6-3-2-12), cannot be used to create, increase, or decrease an Indiana NOL deduction.

Line 11. Deduct the amount of income from qualified patents included in federal taxable income. For tax years beginning after Dec. 31, 2007, this income is exempt from Indiana AGI. Get Information Bulletin #104 at www.in.gov/dor/3650.htm for more information.

Line 12. Add back or subtract an amount equal to the amount claimed as a deferral of income arising from business indebtedness discharged in connection with the reacquisition after Dec. 31, 2008, and before Jan. 1, 2011, of an applicable debt instrument (as provided in Section 108(i) of the IRC), for federal income tax purposes.

Line 13. Add back or subtract an amount equal to the amount claimed as a deduction for the special allowance for qualified disaster assistance property under Section 168(n) of the IRC for federal income tax purposes.

Line 14. Add back or subtract an amount equal to the amount claimed as a deduction for expense costs for qualified refinery property under Section 179C of the IRC for federal income tax purposes.

Line 15. Add back or subtract an amount equal to the amount claimed as a deduction for expense costs for qualified film or television production under Section 181 of the IRC for federal income tax purposes.

Line 16. Add back or subtract the subtotal of all other addbacks. The other addbacks you should include on this line include the following:

- Addback for Qualified Preferred Stock – Add back or subtract an amount equal to the amount claimed as a deduction for a loss from the sale or exchange of preferred stock that was treated as an ordinary loss under Section 301 of the Emergency Economic Stabilization Act of 2008 in the current taxable year or in an earlier taxable year. The stock must be preferred stock in one of the following:
 - The Federal National Mortgage Association, established under the Federal National Mortgage Association Charter Act (12 U.S.C. 1716 et seq.); or
 - The Federal Home Loan Mortgage Corporation, established under the Federal Home Loan Mortgage Corporation Act (12 U.S.C. 1451 et seq.).
- Addback for trade or business deductions based on employment of an unauthorized alien – For taxable years beginning after June 30, 2011, add back the amount allowed under the IRC for wages, reimbursements, or other payments made for services provided in Indiana by a financial institution if the person was prohibited from being hired as an employee because the person was an unauthorized alien.

If claiming any of these addbacks, please enclose an additional sheet detailing the amount(s) you're adding back.

Line 17. Enter the total modifications. Add/subtract lines 1 through 16.

Line 18. If the apportionment of income applies in the loss year, enter the Indiana apportionment percentage from line 16d of Form IT-20 or the appropriate line from the Indiana apportionment schedule used.

Line 19. Multiply line 17 by the percent on line 18.

Line 20. Enter the amount from your completed IT-20 Schedule F, line 11D, Indiana nonbusiness income or loss and Indiana non-unitary partnership income or loss.

Line 21. If the result is a loss figure, this is the initial amount available as the Indiana NOL. Carry this amount to Part 2, Column (3) for the first period you are eligible to claim an NOL deduction. If the result is a positive amount, STOP. You do not have an Indiana NOL.

PART 2 - Computation of Indiana Net Operating Loss Deduction and Carryover

Schedule IT-20NOL must be completed for each year a loss occurs. Copies of the schedule should be enclosed with returns for all years an NOL deduction is claimed. If more than one NOL from different loss years is available, a separate Schedule IT-20NOL must be completed for each NOL deduction applied.

Note: Any NOL carried forward and deducted in a taxable year beginning after Dec. 31, 2003, is reduced by the amount of the NOL previously deducted in an earlier year.

Column (1) - Fill in the range of tax years to which you're applying the NOL, according to the tax period ending date(s). If, in one or more of these years, a loss was incurred or the AGI was previously reduced to zero by another loss carryforward, the year should still be included.

Column (2) - Enter the Indiana AGI from the taxable year of the Indiana return as last determined. Use the net taxable income amount as previously adjusted because of an amendment. Or use the net taxable income amount as reduced by an NOL deduction carried over from another loss year. This should be the figure calculated before applying the unused NOL deduction from Part 1. However, if this taxable year is also a loss, enter zero (0). If the AGI was previously reduced by another NOL deduction, enclose a copy of Schedule IT-20NOL for the prior loss year. If it was previously adjusted from an audit or amended return, enclose an explanation with Schedule IT-20NOL detailing how the AGI was calculated.

Column (3) - If this is the first year to which the NOL deduction is applied, enter the deductible amount of NOL from Part 1, line 21. Otherwise, enter the remaining unused amount carried over from column (4) for the taxable year.

Net Operating Loss Deduction - For reporting purposes of the taxable year return, claim this full amount as a positive deduction on the following lines:

- Line 20 of Form IT-20;
- Line 11 of Form IT-20NP; or
- Line 2B of Indiana Amended Form IT-20X.

Column (4) - Add the amounts entered in columns (2) and (3) for the taxable year. If any Indiana AGI remains (the NOL is used in full), continue by completing the rest of your return.

Net Operating Loss Carryover - If the result is a loss, enter the remaining unused NOL in column (3) for the next carryover year. This amount will be available to offset modified income reported in column (2) of the following taxable year.
