2015
EMPLOYER-ASSISTED DAY CARE TAX CREDIT
WORKSHEET INSTRUCTIONS

This credit is available to employers who provide or pay for day care services for their employees. For purposes of this credit, employer means any entity that employs one or more individuals performing services for it within this state. For a complete definition of employer, see 26 M.R.S. § 1043. The day care services may be provided in-house by the employer at a nonprofit facility licensed by the Department of Health and Human Services (“DHHS”) or may be in the form of payment or vouchers for off-site day care services provided by others at a facility licensed by or registered with DHHS. The allowable credit is equal to the lowest of:

- 1) \$5,000;
- 2) 20% of the actual costs incurred in providing day care for children of employees by the employer; or
- 3) \$100 for each child of an employee enrolled on a full-time basis (or for each full-time equivalent) for the entire taxable year (or on the last day of the taxable year for the first year that services are provided) in a day care program provided by the employer.

The allowable credit doubles if the day care services provided qualify as quality child care. Quality child care facilities are certified by DHHS, Office of Child Care and Head Start. A quality child care provider is one that meets minimum licensing standards and is accredited by an independent, nationally recognized program approved by DHHS, Office of Child Care and Head Start; utilizes recognized quality indicators for child care services approved by DHHS, Office of Child Care and Head Start; and includes provisions for parent and client input, a review of the provider’s policies and procedures, a review of the provider’s program records and an on-site program review. For an application to become a certified facility or for a list of existing quality child care facilities, go to: www.maine.gov/dhhs/ocfs/ec/occhs/ or call DHHS at (207) 287-9300. The credit is limited to the income tax otherwise due, but any excess can be carried back three years or carried forward 15 years.

In the case of pass-through entities (such as partnerships, LLCs, S corporations and trusts), the partners, members, shareholders, beneficiaries or other owners are allowed a credit in proportion to their respective interest in these entities.

SPECIFIC LINE INSTRUCTIONS

Please enter the taxpayer name and social security number (“SSN”) or employer identification number (“EIN”).

Line 1. Enter the total number of employees’ children that were enrolled full-time (or the number of full-time equivalents) for the entire taxable year in day care services provided by the employer. For example, two children enrolled in day care services, each on a half-time basis, would count as one full-time equivalent. If this is the first year that services are provided, enter the total number of employees’ children that were enrolled full-time (or the number of full-time equivalents) on the last day of the taxable year.

Line 3. Enter actual costs incurred in providing day care services to employees’ children for the taxable year.

Line 6. The amount of the credit doubles for child care services that are quality child care services. Child care facilities providing quality child care services are certified by the Maine DHHS, Office of Child Care and Head Start. Certificates are renewed every three years. Any expenses incurred after the effective date of the certificate and before the certificate expires are quality child care expenses. Effective dates can be obtained from your day care provider or from the web page listed above. If you enter an amount paid for quality child care services on line 6, you must enter the certificate number(s) of the quality child care facility or facilities in the space provided. You may obtain the certificate number from your child care provider. The amount on line 6 will be reduced to zero if the certificate number is not provided.

Line 10. The credit is limited to the tax liability of the taxpayer, excluding minimum tax. Any unused portion may be carried back three years or carried forward 15 years. Enter any credit claimed but unused from the past 15 years or carryback amounts from other years on this line.
