Instructions

The Life Sciences Tax Incentive Program under M.G.L. Ch. 23I, sec. 5(a) and 5(d)) authorizes the Massachusetts Life Sciences Center (MLSC) to approve applications from "life sciences companies" for specified tax benefits. Taxpayers may claim such benefits only as, and to the extent, such benefits were previously authorized by the MLSC. Some of the tax benefits the MLSC may award are in the form of credits against taxes due under Ch. 62 (for individuals) or Ch. 63 (for corporations). Taxpayers who have previously applied for and been awarded such credits by the MLSC must file this schedule with their return.

Taxpayers with unused Life Science Investment Tax Credits, FDA User Fees Credits or Life Science Job Credits under Ch. 62, sec. 6(m), 6(n) and 6(r) or Ch. 63, sec. 31M, 38U or 38CC may apply for a refund of the current year credits remaining after reducing their tax liability, in lieu of any carryover to future years, at 90% of the value of such unused credits. Corporations with unused credits under Ch. 63, sec. 38M from the current or prior years may similarly request a refund of their unused credits at 90% of their value to the extent authorized by the MLSC. See TIR 08-23 and TIR11-6 for further information.

Do not file this form unless you have been notified that the MLSC has awarded you one of the tax benefits described above.

All taxpayers claiming credits authorized by the MLSC complete Part 1 (if the award from the MLSC consists exclusively of an authorization to seek a refund of available credits, enter "0" in each field.) Credits taken to reduce the tax otherwise due (including credits shared with combined reporting affiliates under 830 CMR 63.32b.2) are shown in column b. The total of the amounts in column b is shown on Part 1, line 5 and may not reduce the tax below "0." Credits authorized but not taken (excess credits) are shown in column c and the total of these amounts is shown in line 6.
