Substantial penalties will result from misuse of this certificate.

Instructions

General information

Form CT-120 is used by a reseller of telecommunication services to obtain telecommunication services that are exempt from the excise taxes imposed under Tax Law, Article 9, section 186-e.

This certificate is only for use by a reseller of telecommunication services who:

- is registered as a New York State sales tax vendor;
- has a valid sales tax Certificate of Authority issued by the Tax Department; and
- is making purchases of telecommunication services that will be resold as such to the reseller's customers.

A properly completed certificate must be provided to the provider within 90 days after the provision of the telecommunication services. A certificate of resale is not properly completed if it does not include the reseller's sales tax *Certificate of Authority* number issued by the Tax Department.

This certificate is valid only for purchases made on or after January 1, 2009.

To the reseller

Enter all the information requested on page 1. You may mark an \boldsymbol{X} in the *Blanket certificate* box to cover all telecommunications services purchased for resale as telecommunication services. If you do not mark the *Blanket certificate* box, the certificate will be deemed a *Single-use certificate*.

If you intentionally issue a fraudulent exemption certificate, you will become liable for penalties and interest, in addition to the excise tax initially due. Some penalties that may apply:

- 100% of the tax due
- \$50 for each fraudulent exemption certificate issued

If you do not resell as telecommunication services the telecommunications services purchased with this resale certificate, report and pay the unpaid tax on Form CT-186-E, Telecommunications Tax Return and Utility Services Tax Return.

To the provider of telecommunication services

If you are providing telecommunication services and you accept a resale certificate, you will be protected from liability for the tax if the certificate is valid. The certificate will be considered valid if it was:

- · accepted in good faith;
- in your possession within 90 days after the provision of the service; and
- properly completed (all entries were made).

A certificate is accepted in good faith when a provider has no knowledge that the resale certificate is false or is fraudulently given, and reasonable care is exercised in the acceptance of the certificate.

You must get a properly completed resale certificate from the reseller no later than 90 days after the provision of the service. When you receive a certificate after the 90 days, both you and the reseller are subject to the burden of proving that the sale was exempt, and additional documentation may be required.

A resale certificate received on time that is not properly completed will be considered satisfactory if the deficiency is corrected within a reasonable period. You must also maintain a method of associating an invoice (or other source document) for an exempt sale made to a reseller with the resale certificate you have on file from that reseller.

Invalid exemption certificates

Sales of telecommunication services not supported by valid resale certificates are deemed to be taxable excise tax sales. The burden of proof that the tax was not required to be collected is upon the provider.

Retention of exemption certificates

You must keep this certificate for at least three years after the due date of the return to which it relates, or the date the return was filed, if later.
