2016 IA 134 S Corporation Apportionment Tax Credit Instructions

Iowa resident shareholders of S corporations, estates, and trusts with a situs in Iowa may be eligible for an S Corporation Apportionment Tax Credit if the S corporation carries on business outside Iowa.

A shareholder who has elected to apportion income by claiming the S Corporation Apportionment Tax Credit and then elects not to apportion income cannot re-elect to apportion income for three tax years immediately following the first tax year in which the shareholder elected not to apportion income, unless the Director of the Iowa Department of Revenue consents to the election.

If a taxpayer claims the S Corporation Apportionment Tax Credit, then the taxpayer may not take an Out-of-State Tax Credit against Iowa income tax for income taxes paid to another state or foreign country on the S corporation income.

For married taxpayers filing separately (filing status 3 or 4), each spouse must calculate a separate credit on a separate IA 134.

If a taxpayer is a shareholder in multiple S corporations, a separate IA 134 must be completed for each S corporation.

Each S Corporation Apportionment Tax Credit must be reported on a separate line of Part I on the IA 148 Tax Credits Schedule. Include the S corporation name in column M and the FEIN in column N of Part IV on the IA 148.

Line 13: Other Deductions **-** Do not include amounts paid by the corporation that would be allowed as itemized deductions on a shareholder's return if they were paid directly by a shareholder for the same purpose.

Line 24: Cash or property distributions from income not previously taxed by Iowa **-** Distributions from income not previously taxed by Iowa include the amount of all cash distributions and the fair market value of all property distributions made during the year. Do not include the following:

a. Distributions not subject to Iowa tax. Example: interest from federal securities or certain securities issued by Iowa.

b. Distributions from income previously taxed by Iowa for a year in which the S corporation was a C corporation and which is taxed as a dividend or capital gain for federal income tax purposes.

c. Distributions from income previously taxed by Iowa for a year prior to the first tax year the resident shareholder elected to apportion income.

d. Distributions paid from income for which the corporation can show that Iowa tax has been previously paid.
