Instructions

Column B will reflect all-source entries from page 1 of the IA 1041. Column A should match the Iowa-source income distributed to beneficiaries.

Income amounts on lines 1-8 reported to Iowa should use the criteria in the instructions for Iowa individual income tax Form IA 126.

Deduction amounts on lines 10-16 reported to Iowa should also use the criteria in the instructions for Iowa individual income tax Form IA 126. If it is not possible to directly compute the deductions attributable to Iowa, then these deductions should be apportioned by multiplying the deductions by the ratio of Iowa-source income (line 9, column A) divided by the total federal income (line 9, column B).
