# INSTRUCTIONS FOR SCHEDULE K-63

## GENERAL INFORMATION

K.S.A. 79-32,203 provides a habitat management income tax credit for property owners who enter into an agreement with the Secretary of Wildlife and Parks to preserve, maintain, or protect a portion of their property that has been designated as critical habitat for a species listed as endangered, threatened, or in need of conservation qualify for the credit. The credit amount is the total of the property tax paid on the land designated as critical habitat and the costs incurred to manage, construct, and maintain improvements approved by the Secretary of Wildlife and Parks.

This credit is available for taxable years beginning after December 31, 1997, but before January 1, 2003. The credit is limited to the tax liability after all other allowable credits are taken for the year the credit is claimed. Should the costs incurred (Part B of this schedule) exceed the tax liability, the taxpayer may, at the time of filing the initial return on which the credit is claimed, elect to either carry forward the excess credit to the next succeeding taxable year or years until the total amount of the credit has been used, or receive a refund of the excess credit.

**Addition Modification Required:** The property taxes and costs claimed as the basis for the habitat management credit that are claimed for deduction in determining federal adjusted gross income must be added back to federal adjusted gross income. Enter the total on the line on your return provided for addition modifications.

**Required Documentation:** You must enclose these documents with this schedule:

1. A signed copy of your endangered species habitat agreement with the Kansas Department of Wildlife and Parks, including all "Exhibit B" worksheets. Do not send "Exhibit A," the map of habitat land.
2. An itemized list of Part B costs with copies of invoices.

**Partnerships and S Corporations:** Partners and shareholders should enter on lines 1 and 6 their proportionate share of the taxes and costs incurred this tax year by the partnership or S corporation (enclose computation).
