GENERAL INSTRUCTIONS

K.S.A. 79-32,258 provides for a 30% tax credit for tax years commencing after December 31, 2006, against the income tax liability of an eligible film production company for direct production expenditures made in Kansas that are directly attributable to the production of a film in Kansas.

The credit allowed shall be deducted from the taxpayer's income tax liability for the taxable year in which the expenditures are made. If the amount of the credit allowed by this section exceeds the taxpayer's income tax liability for such taxable year, such excess may be carried over in the succeeding taxable years until the total amount of the credit is used, except that no such tax credit shall be carried over for deduction after the third taxable year succeeding the year in which the costs are incurred.

To be eligible for the film production tax credit, a film production company shall submit to the Kansas Department of Commerce (KDOC) information as required by KDOC to demonstrate conformity with the requirements of K.S.A. 79-32,258. The Department of Commerce may reserve a tax credit amount based on the expected direct production expenditures. The Department of Revenue (KDOR) may award a film production credit based on the actual expenditures but will be limited to the amount of tax credit reserved by KDOC. No film production tax credits shall be allowed for any tax year commencing on or after January 1, 2013. The total amount of film production tax credits allowed shall not exceed \$2,000,000 per tax year.

 - the personal services corporation is subject to taxation under the provisions of the Kansas income tax act; or
 - the performing artist receiving payment from the personal services corporation pays Kansas income tax; and
