Form IUFC Instructions

Who can claim this credit?

A business that is created or expanded as the result of a loan made by the Montana Board of Investments to enhance economic development and create jobs in the basic sector of the economy may claim this credit for the fees it pays to use the infrastructure.

If my business paying the user fees is a partnership, an S corporation, or a limited liability company taxed as a partnership or S corporation, are my partners, members or shareholders entitled to the infrastructure user fee credit?

As a partnership, an S corporation, or a limited liability company taxed as an S corporation or partnership, your partners, shareholders or members are entitled to apply their portion of the credit against their income tax or corporate income tax liability. The amount of each partner, member or shareholder's credit is based on the portion of the entity's income or loss the partner, member or shareholder reports for Montana tax purposes.

For example, if your business is an S corporation with four shareholders who each have the same number of shares of stock, each shareholder would be entitled to 25% of the total credit.

Partners, members or shareholders claiming their portion of the pass-through entity's credit should include with their individual income or corporate income tax return a completed Form IUFC.

Can I carry any excess infrastructure user fee credit back to a prior year or forward to a subsequent year?

This credit may be carried back for three tax years or carried forward for seven tax years. The current year credit must be applied first before applying any credit carryover.

What information do I have to include with my return when I claim this credit?

When you claim this credit, include a copy of the letter from the Montana Board of Investments showing the current year's interest and principal paid. You also need to include a detailed schedule of your separate entity infrastructure user fee credit carryforward and/or carryback, if applicable.

What limitations apply to this credit?

The credit is limited in the current tax year to the taxpayer's current year tax liability. In addition, the total amount of the tax credit claimed may not exceed the amount of the loan.
