General Instructions

What's New

Alternative fuel mixture credit allowed only to the extent of taxable fuel liability. For alternative fuel mixtures produced after December 31, 2011, the alternative fuel mixture credit is allowed only to the extent of your taxable fuel liability. For more information see the Instructions for Form 720 (Revised January 2013).

Expiration of alcohol fuel mixture credit. The alcohol fuel mixture credit expired after December 31, 2011.

Purpose of Form

Use Form 720X to make adjustments to liability reported on Forms 720 you have filed for previous quarters. Do not use Form 720X to make changes to claims made on Schedule C (Form 720), except for the section 4051(d) tire credit and section 6426 credits.

You must include in gross income (income tax return) any overpayment from line 4 of Form 720X if you took a deduction on the income tax return that included the amount of the taxes and that deduction reduced the income tax liability. See Pub. 510, Excise Taxes, for more information.

When To File

Generally, adjustments that decrease your tax liability for a prior quarter must be made within 3 years from the time the return was filed or 2 years from the time the tax was paid, whichever is later.

Where To File

If you are filing Form 720X separately, send Form 720X to:

Department of the Treasury
Internal Revenue Service
Cincinnati, OH 45999-0009

Otherwise, attach Form 720X to your next Form 720.

Specific Instructions

Line 1

Report each adjustment separately on line 1. You can use line 6 for your explanation or you can attach additional sheets with your name and EIN as needed.

Column (a). Enter the quarter ending date of the Form 720 you are amending. If you are amending more than one quarter, make sure each quarter is clearly identified. Enter the date in the MMDDYYYY format. For example, if you are adjusting the first quarter return for 2013, enter "03312013."

Column (d). Enter the tax amount for the IRS No. entered in column (b) as originally reported on Form 720 or as later adjusted by you or the IRS.

Column (e). Enter the adjusted tax liability that should have been reported for the IRS No. in column (b).

Column (f). If column (e) is greater than column (d), subtract column (d) from column (e). This is an increase. If column (d) is greater than column (e), subtract column (e) from column (d). This is a decrease. Show the decrease in parentheses.

Line 2

Section 4051(d) tire credit. You must use line 2 to report any adjustment to the section 4051(d) tire credit for a prior quarter. For example, if you report an additional taxable vehicle on line 1 for IRS No. 33, the applicable tire credit is reported on line 2. Enter CRN 366 in column 2(b). See the Instructions for Form 720 for more information on the tire credit.

Section 6426 credits. You must use line 2 to report any adjustment to section 6426 credits, if (a) you are reporting a change to certain taxable fuel liability (section 4081 liability in the case of mixtures or section 4041 liability in the case of alternative fuel) on line 1, or (b) you were unable to claim the credits against the section 4041 or 4081 liability on a prior Form 720 because you were not registered. Section 6426 credits include the alcohol fuel mixture credit (for mixtures produced, and sold, used, or removed, on or before December 31, 2011), biodiesel or renewable diesel mixture credit, alternative fuel credit, and alternative fuel mixture credit. Use a separate line for each adjustment. Enter the CRN from the table below in column 2(b). You must also complete line 6.

Line 3a

Collectors using the alternative method for deposits must adjust their separate accounts for any credits or refunds made to customers of the collector. Form 720X cannot be used for this purpose. For more information, see *Alternative method* in the Instructions for Form 720.

Line 5

If you want your overpayment refunded to you, check the box for line 5a.

If you want your overpayment applied to your next Form 720, check the box for line 5b and enter the quarter ending date of your next Form 720. You can file Form 720X separately or you can attach it to your next Form 720.

Caution. If you checked the box on line 5b, be sure to include the overpayment amount on lines 6 and 7 on your next Form 720. See Form 720 for details. If you owe other federal tax, interest, or penalty, the overpayment will first be applied to the unpaid amounts.

Line 6

You can use line 6 for your explanation or you can attach additional sheets with your name and EIN as needed.

Adjustments on line 1. For each adjustment, you must include a detailed description of the adjustment and the computation of the amount.

Adjustments on line 2. Any section 6426 credits must first be applied against your section 4041 or 4081 liability. To make an adjustment, you must follow the instructions for lines 12, 13, and 14 in the Instructions for Form 720 (Rev. January 2011). For each adjustment you must attach a detailed explanation of the adjustment, including your registration number, and the computation of the amount. Your computation must include the number of gallons (or gasoline gallon equivalents for compressed gas) and credit rate

(as shown above). You must include any information that is requested in the Instructions for Form 720 (Rev. January 2011), for Form 720, lines 12, 13, and 14. For example, the Certificate for Biodiesel and, if applicable, Statement of Biodiesel Reseller must be attached to Form 720X if it is the first claim filed that is supported by the certificate or statement. See the Instructions for Form 720 (Rev. January 2011) for more information.

Certifications. On line 6 or a separate sheet of paper, you must include the applicable statement shown below.

Alcohol fuel mixture credit (for mixtures produced, and sold, used, or removed, on or before December 31, 2011). Claimant produced an alcohol fuel mixture by mixing taxable fuel with alcohol. The alcohol fuel mixture was sold by the claimant to any person for use as a fuel or was used as a fuel by the claimant.

Biodiesel mixture credit. Claimant produced a mixture by mixing biodiesel with diesel fuel. The biodiesel used to produce the mixture met ASTM D6751 and met EPA's registration requirements for fuels and fuel additives. The mixture was sold by the claimant to any person for use as a fuel or was used as a fuel by the claimant. Claimant has attached the Certificate for Biodiesel and, if applicable, the Statement of Biodiesel Reseller.

Renewable diesel mixture credit. Claimant produced a mixture by mixing renewable diesel with liquid fuel (other than renewable diesel). The renewable diesel used to produce the renewable diesel mixture was derived from biomass, met EPA's registration requirements for fuels and fuel additives, and met ASTM D975, D396, or other equivalent standard approved by the IRS. The mixture was sold by the claimant to any person for use as a fuel or was used as a fuel by the claimant. Claimant has attached the Certificate for Biodiesel and, if applicable, Statement of Biodiesel Reseller, both of which have been edited as discussed in the Instructions for Form 720 (Rev. January 2011).

Alternative fuel mixture credit. Claimant produced a mixture by mixing taxable fuel with alternative fuel. Claimant certifies that it (a) produced the alternative fuel, or (b) has in its possession the name, address, and EIN of the person(s) that sold the alternative fuel to the claimant; the date of purchase; and an invoice or other documentation identifying the amount of the alternative fuel. The claimant also certifies that it made no other claim for the amount of the alternative fuel, or has repaid the amount to the government. The alternative fuel mixture was sold by the claimant to any person for use as a fuel or was used as a fuel by the claimant.
