General—A corporation that is taxable in this state and another state must apportion and allocate net income to Kentucky per KRS 141.120. A pass–through entity doing business within and without the state must compute an apportionment fraction per KRS 141.206(12). Public service companies (defined in KRS 136.120) and financial organizations must apportion and allocate net income per KRS 141.120(10) and Regulations 103 KAR 16:100 through 103 KAR 16:150.

A corporation must use the statutory formula unless the corporation has been required or granted approval in writing by the Department of Revenue to use an alternative method per KRS 141.120(9)(a) or the corporation qualifies for and elects an alternative apportionment per KRS 141.120(9)(b). A copy of the letter from the Department of Revenue requiring or granting approval to use a method other than the statutory formula or a statement electing an alternative apportionment method per KRS 141.120(9)(b)(1) or (2) must be attached to the return when filed.

Mandatory Nexus Consolidated Returns—An affiliated group filing a mandatory nexus consolidated return is treated as a single corporation. All transactions between members of the affiliated group must be eliminated in determining the sales, property, and payroll factors.

Use Section A, page 2, Apportionment and Allocation Continuation Sheet, to show the consolidated factors computation.

PART I—COMPUTATION OF APPORTIONMENT FRACTION

Schedule A must be submitted with the applicable tax return (Form 720, 720S, 725, 765, or 765-GP). If the corporation or any corporation in an affiliated group filing Schedule A owns an interest in a limited liability pass-through entity or a general partnership (organized or formed as a general partnership after January 1, 2006) doing business in Kentucky, complete Section B, page 2, Apportionment and Allocation Continuation Sheet. If the pass-through entity filing Schedule A owns an interest in a pass-through entity doing business in Kentucky, complete Section B, page 2, Apportionment and Allocation Continuation Sheet.

If page 2 is required, enter the amounts from Section C, Columns D through I, line 1, on the corresponding lines of Schedule A, page 1. The apportionment fraction is then determined by completing Schedule A, Part I, Lines 3, 4, 7, 10, 11, and 12.

A corporation or pass-through entity not required to complete page 2 must compute its apportionment fraction as follows:

Sales—Total sales include all gross receipts other than nonbusiness receipts and must equal the amounts reported on Forms 720, 720S, 765, or 725, Schedule L, except as provided in KRS 141.121. Sales of real or tangible personal property are assigned to Kentucky if the property is located in Kentucky or is shipped or delivered to a purchaser in Kentucky. Sales of tangible personal property to the U.S. government are assigned to Kentucky if the property is shipped from Kentucky.

KRS 141.120(8)(c)(3) provides that sales other than sales of tangible personal property are assigned to Kentucky if the income–producing activity is performed entirely within Kentucky or if the income–producing activity is performed both within and without Kentucky and a greater portion of the income–producing activity is performed in Kentucky than in any other state based on cost of performance. The following are general guidelines for assigning these receipts to Kentucky but should not be considered all–inclusive:

A. Receipts from intangibles are assigned to Kentucky if the corporation's commercial domicile is in Kentucky or the intangible has acquired a Kentucky business situs. Examples of receipts from intangibles which are deemed to have acquired a Kentucky business situs are franchise fees from a franchisee located in Kentucky and a corporation's Kentucky distributive share of net income from a partnership doing business in Kentucky.

B. Rents or royalties from real or tangible personal property are assigned to Kentucky if the property is located in Kentucky. In the case of mobile property, the rent is assigned to Kentucky if the lessee's base of operations for the property is in Kentucky.

Property—Total property includes all real and tangible personal property owned or rented and used during the taxable year. Property owned is valued at original cost. Leased property is valued at eight times the annual rental rate less any nonbusiness subrentals. Real and tangible personal properties are assigned to Kentucky if owned or rented and used in Kentucky. Exclude (a) construction in progress and (b) property which has been certified by Kentucky as a pollution control facility and is owned or leased by the corporation. Safe harbor lease property must be included in the factor of the seller/lessee at cost and excluded from the property factor of the purchaser/lessor.

Payroll—Total payroll includes all compensation paid or payable by the corporation during the tax period. Kentucky payroll is that portion of total payroll that is paid or payable for services performed within the state. Compensation is paid or payable in this state if: (i) the individual's service is performed entirely within the state; (ii) the individual's service is performed both within and without the state, but the service performed without the state is incidental to the individual's service within the state; or (iii) some of the service is performed in the state and the base of operations or, if there is no base of operations, the place from which the service is directed or controlled is in the state, or the base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed, but the individual's residence is in this state.

Apportionment Fraction—To compute the apportionment fraction, the sales factor must be multiplied by two, the property and payroll factors must each be multiplied by one, and the total of all factors divided by four. A corporation which does not have sales, property, or payroll must average only the factors which are present to determine the weighted apportionment fraction.

PART II—APPORTIONMENT AND ALLOCATION OF INCOME

Business income arises from transactions and activities in the regular course of the corporation's trade or business and includes income from tangible and intangible property if the acquisition, management or disposition of the property constitutes integral parts of the corporation's trade or business.

Classifying income by categories (such as interest, rents, royalties, and capital gains) does not determine whether income is business or nonbusiness. For example, gain or loss recognized on the sale of property may be business income or nonbusiness income depending upon its relationship to the corporation's trade or business.

Nonbusiness income includes all income not properly classified as business income less all direct or indirect expenses attributable to the production of this income. Nonbusiness income is allocated to Kentucky if (a) the corporation's commercial domicile (the principal place from which the trade or business is managed) is located in Kentucky or (b) property creating the nonbusiness income is utilized in Kentucky. Generally, tangible personal property is utilized in Kentucky if it is physically located in Kentucky; intangible property, such as patents and copyrights, is utilized in Kentucky if it is actually used in Kentucky.

APPORTIONMENT AND ALLOCATION - CONTINUATION SHEET

Line 1—Enter the parent company FEIN and information on Line 1 and the subsidiaries and pass-through entities on Lines 2 through 13 of the applicable section. If multiple continuation pages are needed, Line 1 should only be filled out on the first page.

Section A, Lines 2–14—Report the apportioned factors for the members of a Mandatory Nexus Consolidated Group, including K-1's received from pass-through entities. Report all member information in the total, and enter intercompany transactions as a negative amount on Line 14 per KRS 141.200(11)(b).

Line 15—Section A Subtotal—Add Lines 2 through 14 of this page only.

Line 16—Section A Total—If multiple continuation pages are needed, add the subtotals from Line 15 of each page and reflect the total of all pages on the first continuation page.

Section B, Lines 2–13—Report the apportioned factors received from pass-through entities on Schedule K-1.

Note: If a subsidiary receives a Kentucky Schedule K-1, the pass-through items should be reported in Section A only.

Line 14—Section B Subtotal—Add Lines 2 through 13 of this page only.

Line 15—Section B Total—If multiple continuation pages are needed, add the subtotals from Line 14 of each page and reflect the total of all pages on the first continuation page.

Section C—Add Line 1, Section A, Line 16, and Section B, Line 15 then carry the Grand Total to Schedule A, Part I. Check the appropriate box at the top of Schedule A, Page 1, and enter all apportionment and allocation calculations.
