Instructions

Note: 2018 Individual Estimated Income Tax Payment Vouchers and Instructions are not mailed to taxpayers by the Nebraska Department of Revenue (Department). Instead, all taxpayers are encouraged to make their estimated income tax payments [electronically](#). If you are making payments by check or money order, please print and mail this [voucher](#) with your payment to ensure the payment is properly credited to your account.

Who Must File. If your 2017 income tax due (line 17, Form 1040N) less income tax withholding and allowable credits is \$500 or more, you may owe a penalty for underpayment of estimated tax and must complete this form.

Who Must Pay the Underpayment Penalty. An individual who did not pay enough estimated tax by any of the applicable due dates, or did not have enough state income tax withheld, may be charged a penalty. **This is true even if you are due a refund when you file your tax return.** The penalty is calculated separately for each due date. You may owe the penalty for an earlier payment due, even if you paid enough income tax later to make up the underpayment.

You may owe the penalty for 2017 if you did not pay at least the smaller of:

1. 90% of your 2017 income tax liability; or
2. 100% of your 2016 income tax liability (if you filed a 2016 return that covered a full 12 months).

Exceptions to the Penalty. You do not have to pay the penalty if:

1. You had no Nebraska income tax liability for 2016, you were a U.S. citizen or resident for the entire year, and your 2016 Nebraska income tax return was (or would have been had you been required to file) for a full 12 months;
2. You are a first-time filer for Nebraska income tax purposes; or
3. The total income tax shown on your 2017 return minus the amount of income tax you paid through income tax withholding is less than \$500. To determine whether the total income tax is less than \$500, complete lines 1-6.

Note: If you file your return and pay the income tax due by January 31, 2018, include on line 19, January 15 column, the amount of income tax you pay with your Nebraska individual income tax return. In this case, you will not owe a penalty for the payment due on January 15, 2018.

Nebraska Income Tax on Annualized Income. No penalty will be imposed if your Nebraska income tax payments equal or exceed 90% of your Nebraska income tax liability based on annualized income earned through the end of the month preceding the installment date. If you meet this criteria, check the box at the top of this form. Paper filers attach a separate schedule showing your computation similar to the federal Annualized Income Installment Method Schedule.

Waiver of Penalty. The Department may consider waiving the penalty under the following circumstances:

- Underpayment due to casualty, disaster, or other unusual circumstance where it would be inequitable to impose the penalty; or
- In 2016 or 2017, you retired after age 62, or became disabled, and your underpayment was due to reasonable cause.

Paper filers attach a statement to this form outlining why the penalty should not be imposed.

When and Where to File. Form 2210N must be attached and filed with the [Nebraska Individual Income Tax Return, Form 1040N](#).

Specific Line Instructions

Line 7, 2016 Tax. Enter your 2016 income tax less all nonrefundable credits, and refundable credits on lines 30 through 34, from your 2016 Form 1040N. If the 2016 income tax year was for less than 12 months, do not complete this line. Instead, enter the amount from line 4 on line 8 and complete the remainder of the form. If you are not engaged in farming, ranching, or fishing, and your federal adjusted gross income (AGI) in 2016 was more than \$150,000 (\$75,000 if married, filing separately), enter 110% of your 2016 income taxes on line 7. Farmers and ranchers should see Special Rules below.

Line 9, Installment Payments. If you filed your Nebraska income tax return and paid the balance of the income tax due by January 31, that balance is considered paid as of January 15.

Fiscal Year Taxpayers. The installment due dates for fiscal year taxpayers are the 15th day of the following months:

1. The first month of the second quarter;
2. The third month of the second quarter;
3. The third month of the third quarter; and
4. The first month of the following fiscal year.

All dates on Form 2210N should be considered in the corresponding month of the fiscal year.

Line 11, Income Tax Withheld. One-fourth of the Nebraska income tax withheld during the year by your employer is considered paid on each required installment date, unless you establish other dates when the income tax withholding actually occurred.

For nonresident individuals, the amount of Nebraska income tax withheld by S corporations, partnerships, limited liability companies, or fiduciaries is considered paid on the last day of the organization's taxable year, unless you establish other dates when the income tax withholding actually occurred.

Taxpayers claiming an overpayment from line 40 of last year's individual income tax return, Form 1040N, should be aware that an overpayment will be applied first to offset any existing balance due from another tax year. If the Department transfers part or all of an amount requested to be carried over to next year's estimated income tax payments (current year carryover), a written notice of the offset will be issued. Please contact the Department if you are unsure of your current year carryover amount.

Line 18, Overpayment. Your payments are applied first to any underpayment balance on an earlier installment. It does not matter if you designate a payment for a later period. Any overpayment of an installment on line 18 that is larger than all prior underpayments should be applied as a credit on line 12 against the next installment.

Lines 19-23, Penalty Calculations. Complete lines 19 through 23 to determine the penalty you owe. When determining the payment date on line 20, use: the date the payment was applied against the underpayment on line 19; the due date of the next payment (line 9 of the next column); or April 15, whichever is earliest. If more than one payment is made for any installment, or a partial payment is made, make separate penalty calculations through the payment dates. Then add the results together and enter on line 22. The penalty is calculated at 3% per year.

Note For Electronic Filers: Your software may allow you to calculate multiple payments within a quarter. Refer to the instructions provided with the software. Also, see the instructions for Federal Form 2210 for more information.

Special Rules For Farmers And Ranchers. You do not owe a penalty and are not required to file Form 2210N if:

- Your gross income from farming, ranching, or fishing is at least two-thirds of your annual gross income from all sources for 2016 or 2017;
- A Form 1040N is filed and the Nebraska income tax due is paid on or before March 1.

Calculate Your Underpayment. If the gross income test was met, but the date for filing and payment of the income tax was not, complete lines 24 through 31. If no underpayment is indicated on line 31, do not complete lines 32 and 33.

Calculate the Penalty. Complete lines 32 and 33 to determine the penalty.
