CHANGES TO NOTE

Hawaii County Resolution No. 212-17 increases the County of Hawaii fuel tax from \$0.15 per gallon to \$0.19 per gallon effective July 1, 2018.

GENERAL INSTRUCTIONS

Note: Hawaii recognizes same-sex marriages. Therefore, all same-sex couples that are legally married in Hawaii or any other jurisdiction where such marriages are valid are married for all tax purposes.

Note: Civil unions are recognized in Hawaii. Hawaii's laws that apply to a husband and wife, spouses, or person in a legal marital relationship shall be deemed to apply to partners in a civil union with the same force and effect as if they were "husband and wife," "spouses," or other terms that describe persons in a legal marital relationship.

A principal operator of a commercial fishing vessel who files an income tax return for the taxable year may be eligible for the fuel tax credit for commercial fishers.

The amount of the credit is limited to the fuel taxes imposed under section 243-4(a), Hawaii Revised Statutes (HRS), and paid by the principal operator for use in the operation of the fishing vessel during the indicated taxable year.

A taxpayer and spouse filing separate returns, where a joint return could have been filed, shall claim only the credit to which the taxpayer and spouse would have been entitled had a joint return been filed.

If the properly claimed and allowed credit exceeds the amount of the income tax due and payable from the principal operator, the excess will be refunded to the principal operator.

Purpose of Form

Use Form N-163 to figure and claim the fuel tax credit for commercial fishers under sections 235-110.6, HRS, and 18-235-110.6, Hawaii Administrative Rules.

Who May Claim This Credit

This credit may be claimed by a principal operator of a commercial fishing vessel who purchases and actually uses the fuel to operate a fishing vessel for commercial purposes.

When the Credit May Not Be Claimed

This credit may not be claimed if any of the following apply:

- (1) You use the fuel in the operation of charter fishing boats and the like where the income is derived from fees and sources other than from commercial fishing.
- (2) You use the fuel in the operation of a fishing vessel where the activity is not engaged in for profit as provided in Internal Revenue Code section 183.
- (3) You use alternative fuels. However, you may obtain a refund of the fuel taxes paid by filing Form M-36, Combined Claim for Refund of Fuel Taxes.

Credit Requirements

To claim this credit, you must complete and attach to your Hawaii income tax return:

- (1) Form N-163
- (2) Schedule CR (For tax returns for which Schedule CR is required)
- (3) Schedule K-1 (Required only if you are claiming a distributive share of a credit from a partnership, S corporation, estate, or trust)

Flow-Through Entities

If you are a partnership, S corporation, estate, or trust that is allocating this credit to your partners, shareholders, or beneficiaries, complete Form N-163 and attach it to your Hawaii income tax return. Then enter the total fuel tax credit for commercial fishers on the applicable line of your Hawaii income tax return (see the instructions for line 5). Prepare and provide Schedule K-1 reporting the distributive share of the fuel tax credit for commercial fishers for each partner, shareholder, or beneficiary.

Deadline for Claiming the Credit

The deadline to claim the credit, including amended claims, is 12 months after the close of your taxable year. You cannot claim or amend the credit after the deadline.
