CAUTION: Federal and PA rules for taxable interest income are different. **Read the instructions.**

If your total PA-taxable interest income (taxpayer, spouse and/or joint) is equal to the amount reported on your federal return and you have no amounts for Lines 2 through 15 (not including subtotal Lines 4 and 10) of PA Schedule A, you must report your income on Line 2 of the PA-40, but you do not have to submit PA Schedule A. If there are any amounts (taxpayer, spouse and/or joint) for any of the Lines 2 through 15 (not including subtotal Lines 4 and 10) of the schedule, you must complete and submit PA Schedule A with your PA-40. A taxpayer and spouse must complete separate schedules to report their income if any amounts are reported on Lines 2 through 15 (not including subtotal Lines 4 and 10) of Schedule A. However, if all the income is earned on a joint basis, one schedule may be completed. Complete the oval to indicate whether the income included on the schedule is from the taxpayer, spouse or joint. If a separate PA Schedule A is prepared for a taxpayer and spouse, include only the taxpayer or spouse share of the income for each line.

GENERAL INFORMATION

PURPOSE OF SCHEDULE

Use PA-40 Schedule A to report the amount of interest income earned and reported for federal income tax purposes from:

- Bank deposits;
- Savings and loan associations;
- Credit unions;
- Bonds;
- Certificates of deposit;
- Interest bearing checking accounts;
- Interest on state, federal, local and foreign tax refunds;
- Mutual savings banks and cooperative banks;
- GNMA and FNMA certificates and other obligations that are guaranteed by the U.S. government (but not direct obligations of the U.S. government);
- Obligations of other states and countries; and
- Other deposits, investments, and obligations.

PA-40 Schedule A also adjusts the federal income to determine the PA-taxable interest income by reporting income and adjustments from:

- Tax-exempt bonds for other states' obligations;
- Direct obligation of the U.S. government;
- 529 plan distributions for non-educational purposes;
- Distributions from life insurance and endowment contracts;
- Taxable distributions from Medical/Health Savings accounts; and
- Various other increase and decrease adjustments included in the following instructions.

Refer to Chapter 8 of the PA PIT Guide for additional information.

RECORDING DOLLAR AMOUNTS

Show money amounts in whole-dollars only. Eliminate any amount less than \$0.50 and increase any amount that is \$0.50 or more to the next highest dollar.

WHO MUST COMPLETE

PA resident and part-year resident taxpayers must complete and include PA-40 Schedule A with an originally filed PA-40, Personal Income Tax Return, if there are any amounts on Lines 2 through 15 (not including subtotal Lines 4 and 10). If there are no amounts on Lines 2 through 15 (not including subtotal Lines 4 and 10), do not complete and include PA-40 Schedule A with the PA-40. However, the amount of interest income received must be reported on Line 2 of the PA-40. Nonresident taxpayers are not required to complete PA-40 Schedule A.

Separate schedules must be completed for a taxpayer and spouse if either has income on Lines 2 through 15 (not including subtotal Lines 4 and 10). Both schedules must be completed and included even if only one had amounts on those lines. A joint PA-40 Schedule A may be completed only if all amounts of interest income are earned on a joint basis. If some income is earned on a joint basis while other income is not, the joint income must be split and the taxpayer and spouse must report their separate share of the income from the jointly owned accounts on each PA-40 Schedule A.

An amended PA Schedule A must be included with Schedule PA-40X if increases or decreases in income amounts on PA Schedule A are discovered after an original or other amended return is filed with the department. Part III on Page 2 of Schedule PA-40X must be completed to explain any increase

or decrease to the amount of interest income reported on an amended PA-40, Personal Income Tax Return.
