### Form 65 — Instructions State Tax Commission | Partnership Return of Income

Instructions are for lines not fully explained on the form.

The partnership must provide each partner with an Idaho Form ID K-1. This form shows the partner's distributive share of Idaho additions, subtractions, and credit information. For partners who aren't individuals, the Form ID K-1 also provides apportionment factor information that's needed to complete their Idaho income tax return. Form ID K-1 also identifies the distributive share of gross income to help determine Idaho filing requirements of individual partners.

Include all Form ID K-1s and a complete copy of federal Form 1065, including all federal Schedule K-1s, with the Idaho Form 65.

#### Rounding

Round the amounts on the return to the nearest whole dollar. Round down if under 50 cents, round up if 50 cents or more.

For nonresident individual owners, enter the amount of guaranteed payments sourced as compensation for services performed in Idaho. This amount shouldn't exceed the amount of guaranteed payments included on line 31.

#### Lines 38 - 41

Complete Form PTE-12 and include a copy with your return. Refer to Form PTE-12 for instructions. The sum of lines 38 – 40 equal the sum of lines 36 and 37.

#### Credits

Except for the Tax Reimbursement Incentive credit, credits earned by the partnership pass through to each partner based on that partner's distributive share of partnership profits. When a partnership has a fiscal year end other than that of the partner, the credit passes through in the same period that the partner reports the partnership income or loss for federal tax purposes.

The partnership must provide each partner with an Idaho Form ID K-1. This form shows the partner's distributive share of credits earned, credits subject to recapture, and contribution information needed to calculate certain credits. Each partner uses this information to determine the amount of Idaho credit allowed, recapture required, and credit carryovers that exist on the partner's Idaho income tax return. Credits reported by each partner are subject to the limitations applicable to that partner. Include copies of Form ID K-1 with your return for the year when the credit is earned.

If an individual partner's share of income is taxed on the partnership's return, the tax can be offset by that partner's distributive share of credits. Credits applied to this tax are computed based on the credit limitations applicable to partnerships. For example, if a partnership pays the tax for three individual partners, the amount of credit for contributions to educational institutions is the lesser of the following amounts:

- 50% of the three partners' share of the amount donated
- 50% of the tax computed for the three partners or
- \$500

Credits allowed to a partner that aren't used to offset that partner's tax can't be used to offset the tax computed for other partners. The broadband equipment investment credit can be transferred to another taxpayer rather than used by the partner who earns the credit.

To claim a credit you acquired through a transfer, include a copy of the Form 70, *Idaho Statement of Credit Transfer*, with each return you're claiming transferred credit on.

# Line 42 Credit for Contributions to Idaho Educational Entities

Donations made by a partnership to a qualified educational entity can qualify for a tax credit. Donations of goods or services don't qualify.

The credit is limited to the smallest of:

- · One-half of the amount donated
- 10% of the tax on line 41 or
- \$500

Don't enter the total credit earned by the partnership if the partnership isn't paying the tax for all the partners.
