## Worksheet Instructions

Except for the carryforward of unused credit amounts, this credit is repealed for tax years beginning on or after January 1, 2014. The carryforward period for any unused credit amount is 10 years. To qualify for the 10-year carryforward period, the unused credit amount must be reflected on the 2016 credit worksheet and must have been generated in a tax year beginning after December 31, 2008. The carryforward amount that may be used is 25% of the tax due for that year after the allowance of other credits.

## Specific Instructions

Enter the taxpayer name and employer identification number (“EIN”) or social security number (“SSN”).

Line 1. Enter the amount remaining from your 2019 super credit worksheet that you have not yet used. Unused credit amounts from tax years beginning on or after January 1, 2009 may be carried forward for up to ten years.

Lines 2 & 3. The credit is limited to 25% of the taxpayer’s tax liability after the allowance of other credits.

Line 5. The credit is further limited in that it cannot be used to reduce the current year tax liability after other credits to less than the tax liability of the previous tax year after the allowance of credits.
