What is the purpose of Form D-2440?

Form D-2440 is used to determine the amount of disability income you may exclude from the federal adjusted gross income you report on DC Form D-40. Enter the amount from Line 10 of this form on Line 2 of Calculation B of Schedule I. The maximum annual exclusion per disabled person is \$5,200.

Who may file a Form D-2440?

You must meet **all** of the following requirements:

- If you are married or registered domestic partners, you are filing a joint return;
- You received disability payments during 2021;
- You were under the age of 65 on December 31, 2021;
- You retired on disability and were permanently and totally disabled when you retired;
- On January 1, 2021, you had not reached the age required to retire under your employer's retirement program; and
- You have not notified the Office of Tax and Revenue that you have chosen to treat the disability income as a pension.

Personal information

If you are filing a joint return, please provide the information requested for you and your spouse/registered domestic partner, even if your spouse/registered domestic partner is not disabled and is not claiming a disability exclusion.

Income and Limitation on Exclusion

Line 1 Total amount of disability payments received in 2021. Enter the total amount of disability payments you received in 2021. Do not include any lump-sum payment received for accrued annual leave when you retired on disability. (The annual leave payment is included in your gross income for the year of receipt.) Payments from a retirement plan or profit-sharing plan that does not have a provision for disability retirement do not qualify for the exclusion.

Line 2 If you received disability payments for part of a week, follow the example below to determine the exclusion for that

Divide \$100 by the number of days in a week you normally worked before you retired and multiply the result by the number of days you were paid for the partial week.

Example: \$100 divided by 5 days (number of days in typical work week) = $$20. 20×3 (number of days you were paid for partial week) = \$60. Add this amount to the total amount you were paid for the full weeks.

Line 5 Federal adjusted gross income from Form D-40, Line 4. If the amount on this line is minus, fill in the oval.

Line 8 Amount used to reduce disability income

\$15,000 is the amount DC uses to reduce the disability income you can exclude.

Line 10 Disability income exclusion

This is the amount you may use to reduce your DC taxable income. \$5,200 is the maximum annual amount per disabled person that may be excluded.

Physician's certification

To claim an exclusion, your physician must certify that you are, according to the definition below, permanently disabled. If both you and your spouse/registered domestic partner are claiming the exclusion, each must file a certification. You do not have to file another certification if you have filed one in a previous year. Attach the certification(s) to your Form D-40.

Instruction for the Physician

Date taxpayer retired

Please certify that the taxpayer ceased active employment because of his or her permanent disability and retired on the date that he or she became disabled.

Definition of permanent and total disability

Permanent and total disability means that the taxpayer is unable to engage in any substantial gainful activity because of a physical or mental condition and this condition has lasted continuously for at least a year, will last continuously for at least a year, or is fatal.
