If your mailing address has changed since you filed your return, check the box & enter the correct address.

If your refund was sent to Human Services, please advise your local child support enforcement office of your new address.

Mailing Address of Injured Spouse

INSTRUCTIONS

This form must be completed to receive the portion of a captured West Virginia State tax refund due to an injured spouse. Upon receipt of this form, the West Virginia State Tax Department will compute the amount of refund due the injured spouse.

To qualify as an injured spouse, you must have had income reported on a joint West Virginia tax return and all or a portion of your joint overpayment must be captured to pay past due child support or tax obligations owed by the other spouse.

Line 1: Actual income must be claimed by the taxpayer earning the income. Joint income may be allocated as you desire. Examples of joint income: interest, sales of jointly owned assets. Include the gross amount of unemployment compensation received for use in this computation.

Line 2: Show any additions to federal adjusted gross income reported on your West Virginia return. Additions must be allocated as explained in the instructions for line 1.

Line 3: Show any subtractions from federal adjusted gross income reported on your West Virginia return. Subtractions must also be allocated as explained in the instructions for line 1. Include any Low-income Earned Exclusion claimed on your return on this line. This form is merely used as a method of computing each spouse's percentage of the joint tax liability. Please do not include any subtractions not included on your joint return.

Line 4: Do not separate or claim part of an exemption. Show only the exemptions which could be claimed by each spouse if he or she had filed separate West Virginia tax returns.

Line 5: Actual tax withheld from wages, salaries, or pensions must be claimed by the taxpayer that received the income. Tax withheld from joint accounts will be allocated based on the separate tax liability for each spouse. **Attach a copy of all withholding tax statements to this form.**

Line 6: Estimated tax payments made by one spouse must be claimed by that spouse. Joint estimated payments will be allocated.

Line 7: Credits against your tax include Family Tax Credit, Senior Citizen Tax Credit, Other Business Tax Credits, and Credit for Income Tax Paid to Another State. If one spouse earned the income which qualified him/her to receive one of these credits, that spouse must claim the credit on line 7.

Line 8: Enter any WV State or Municipal Use Tax reported on your return.

Line 9: This line only applies to taxpayers that filed a Non-Resident/Part-Year Tax Return. Allocate your total WV income from Schedule A to the taxpayer that earned the income.
