Complete Form 6300 to claim any Alaska incentive credit on the corporation's net income tax return (Form 6000, 6100, or 6150).

Form 6300 accounts for all Alaska incentive credits, including the income tax education credit, the film production tax credit, and various other credits. The form also accounts for any refundable credits. The credits are grouped on Form 6300 and then carried to, and claimed on, lines 7 or 12 of the corporation net income tax return (Form 6000, 6100, or 6150).

In general, Alaska incentive credits may be used to offset the general Alaska income tax imposed under AS 43.20.011, as well as certain other taxes imposed through Alaska's adoption of the Internal Revenue Code.

Credits Originating from a Partnership

A corporation may claim Alaska incentive credits generated by a partnership in which the corporation is a partner. The partnership is required to report the partner's share of any credits on Form 6900, Schedule K-1. In order to claim the credit and offset Alaska income tax, the taxpayer will include the creditable amounts shown on the Schedule K-1 on the applicable line of Form 6300. For example, a corporation will include on Form 6300, line 8 (income tax education credit) its share of the credit shown on Form 6900, Schedule K-1, line 18.
