

Private Party Vehicle Use Tax Chart for 2022

(Use with Form RUT-50) Effective January 1, 2022, through December 31, 2022

Illinois Private Party Vehicle Use Tax (Step 6, Line 1)

Illinois private party vehicle use tax is based on the purchase price (or fair market value) of the motor vehicle, with exceptions noted on the right (i.e., for motorcycles and specific situations). For most purchases, you will use Table A or B to determine the tax amount. The purchase price of a vehicle is the value given whether received in money or otherwise; this includes cash, credits, property, or service. When there is no stated purchase price, such as in the case of a gift or even trade, the fair market value should be used. The fair market value may be obtained from a licensed dealer. A trade-in deduction is **not** allowed on this tax.

Note: Due to Public Act 102-0353, effective for applications for title made on or after January 1, 2022, the tax due in Table A and Table B has increased.

Table A

Use the table below when the purchase price (or fair market value) of a vehicle is **less than \$15,000**. The tax due is determined by the model year of the vehicle.

Table B

Use the table below when the purchase price (or fair market value) of a vehicle is **\$15,000 or more**. The tax due is determined by the purchase price (or fair market value) of the vehicle.
