Estimated Payment. Every fire insurance company or association that does business or collects premiums or assessments in Maine is required by statute to pay 1.4% of the gross direct premiums for fire risks written in Maine, less the amount of all direct return premiums and all dividends paid to policyholders on direct fire premiums. The tax must be paid on an estimated basis at the end of each month, with each installment equal to at least 1/12 of the estimated total tax to be paid for the current calendar year.

25 M.R.S. § 2399 requires the Maine Bureau of Insurance to determine every 5 years the basis percentage of fire risk allocated to each line of insurance. The last determination was made in October 2018 and applies to tax periods beginning on or after January 1, 2019. Insurance companies and associations must calculate their estimated tax payment on the basis of the allocation rates below. Companies and associations may not calculate the tax on the basis of alternate ratios.

Estimated Payment. Every fire insurance company or association that does business or collects premiums or assessments in Maine is required by statute to pay 1.4% of the gross direct premiums for fire risks written in Maine, less the amount of all direct return premiums and all dividends paid to policyholders on direct fire premiums. The tax must be paid on an estimated basis at the end of each month, with each installment equal to at least 1/12 of the estimated total tax to be paid for the current calendar year.

25 M.R.S. § 2399 requires the Maine Bureau of Insurance to determine every 5 years the basis percentage of fire risk allocated to each line of insurance. The last determination was made in October 2018 and applies to tax periods beginning on or after January 1, 2019. Insurance companies and associations must calculate their estimated tax payment on the basis of the allocation rates below. Companies and associations may not calculate the tax on the basis of alternate ratios.

Line of Business (Form INS-5, line 1)		Percentage of Premiums allocated to fire (Form INS-5, line 1, column E)
Line 1a.	Fire	100.00%
Line 1b.	Inland Marine	26.56%
Line 1c.	Aircraft Physical Damage	Actual
Line 1d.	Auto – Private	2.16%
Line 1e.	Auto - Commercial	7.28%
Line 1f.	Farmowners Multiple Peril	67.05%
Line 1g.	Homeowners Multiple Peril	44.11%
Line 1h.	Commercial Multiple Peril	47.43%
Line 1i	All Other Fire Related	100 00%

Interest & Penalty. For calendar year 2022, the interest rate is 5%, compounded monthly. The penalty for failure to file a return on time is the greater of \$25 or 10% of the tax due, unless the return is filed more than 60 days after the receipt of a demand notice from the state tax assessor, in which case the failure-to-file penalty becomes the greater of \$25 or 25% of the tax due. The penalty for failure to pay a tax liability timely is 1% of the outstanding liability for each month or fraction thereof during which the failure continues, to a maximum of 25% of the outstanding liability.

Form INS-5, Annual Return. File Form INS-5 by March 15, 2023 to reconcile your 2022 fire investigation and prevention tax liability with the estimated tax payments and to pay any additional tax due to avoid interest and penalty charges.
