Instructions

Taxpayers with credits available for use in the current year must file this schedule to report the credits and the amount of each credit used. For credits tracked by certificate numbers issued by the Department of Revenue (DOR) or another state agency that must be used to claim the credit, enter each certificate number and the associated credits separately. For credits not tracked by certificate number, enter credits separately by type and the year to which they relate. List credits available whether or not they are being used in the current year.

For each credit, report the amount of the credit available for use and the amount of credit taken this year to reduce tax. For corporations filing a combined report, report the amount of credit shared with affiliates. For pass-through entities, report the amount of credits distributed to each partner, shareholder or beneficiary in the credit shared column (except for Brownfields, Film Incentive and Medical Device credits, which must be transferred to each partner, shareholder or beneficiary of the pass-through entity).

Section 1. Non-Refundable Credits

List all credits available not received via Massachusetts K-1 schedules, including those not used in the current year.
