Form CT201-LC Instructions

Little Cigars Defined as Cigarettes

Tobacco products known as “little cigars” are taxed and regulated as cigarettes.

A cigarette is defined as any roll for smoking made wholly or in part of tobacco, that weighs 4.5 pounds or less per thousand:

- (1) the wrapper or cover of which is made of paper or another substance or material except tobacco
- (2) wrapped in any substance containing tobacco, however labeled or named, which, because of its appearance, size, the type of tobacco used in the filler, or its packaging, pricing, marketing, or labeling is likely to be offered to or purchased by consumers as a cigarette, as defined in clause (1), unless it is wrapped in whole tobacco leaf and does not have a cellulose acetate or other cigarette-like filter as meeting the statutory definition of a cigarette

No matter the packaging configuration, the Department of Revenue will view any product not wrapped in whole leaf tobacco and having a cellulose acetate or other cigarette-like filter as meeting the statutory definition of a cigarette.
