Fiscal Year Filers

The due dates on pages 2 and 3 are for calendar year filers. The rates on page 2, line 15 and page 3, line 12 are based on the statutory interest rate (8% for 2024 and 2025) and the number of days the estimated payment was late. The general formula for computing the rate is:

$$\text{Rate} = \text{interest rate} \times \text{number of days the payment is late} \div 365.25$$

Fiscal year filers must use their specific estimated payment due dates to compute their rates.

IT 1040, SD 100, SD 100E, IT 1041, and IT 4708 Filers:

Estimated payments are due on:

- The 15th day of the 4th month of the tax year;
- The 15th day of the 6th month of the tax year;
- The 15th day of the 9th month of the tax year;
- The 15th day of the 1st month following the end of the tax year.

IT 1140 and IT 4738 Filers:

Estimated payments are due on:

- The 15th day of the 4th month of the tax year;
- The 15th day of the 7th month of the tax year;
- The 15th day of the 10th month of the tax year;
- The 15th day of the 1st month following the end of the tax year.

If a due date falls on a weekend or holiday, the payment is due the next business day.
